INTOME

ASA PACKER conceived the idea of a university in South Bethlehem in the Fall of 1864 and a year later, on July 27, 1865, he called the first meeting of the Board of Trustees at the Sun Inn, Bethlehem.

Lehigh University became a definite project at that meeting when Asa Packer made the trustees a gift of \$500,000 and 57 acres of land on South Mountain. On February 9, 1866, the Pennsylvania legislature incorporated the completed organization under the name of "The Lehigh University."

Forty men were admitted to the school on September 1, 1866, with but a single building, Christmas Hall, and a faculty of five men.

From this small group Lehigh has grown to an enrollment over 1800 and a faculty of 180 men. There are now 19 buildings, 180 acres of land and an endowment of \$6,000,000. One has to sit back and wonder if Asa Packer ever dreamt that his idea would be fulfilled to the great extent that it has.

AT BETHLEHEM, PENNSYLVANIA

FOREWORD

The 1939 Epitome is presented to the students of Lehigh University as the editors' conception of a yearbook that will perpetuate their recollections of HAPPY DAYS AT LEHIGH.

In compiling this Annual, we have aimed at the presentation of a volume dedicated to authentic and accurate portrayal of the pleasant and social side of our college life that has taught us the joys of good-fellowship.

This volume will have failed in its aim if those present students who may scan its pages when another decade shall have passed, do not first smile—then grin—and finally burst out into hearty laughs as they review their Lehigh days in retrospect.

So—

Here's to HAPPY DAYS!

DEDIC

DR. WRAY HOLLOWELL CONGDON came to Lehigh in 1934 after serving six years as an inspector of high schools for the University of Michigan. Before this he had spent 12 years in China teaching and acting as head of American Schools. From 1934 to the Fall of 1938 he was Director of Admissions at Lehigh and during his term of office the enrollment increased over 500. With this broad background and his friendship, generosity, and good fellowship, Dr. Congdon in his first year as Dean of Undergraduates won for himself the admiration, respect and affection of all those connected with Lehigh.

To him, this sixty-third volume of the Epitome is respectfully dedicated.

COLLEGE

ONTA

EUGENE GRACE '99,
PRESIDENT OF
UNIVERSITY TRUSTEES,
ADDS HIS THEME
THOUGHTS.

Mr. Harold M. Selsor, Jr.
Editor in Chief, The 1934 Epitome
Bethlehem Pa.
April 6, 1934.

Dear Mr. Selsor,
Your letter requesting my
comments on "Haphy Day at Lehigh"
is at hand.

There are so many pleasant
memories that it is difficult to make
a choice. The good friendships
naturally come first to mind.
A great treat to a Green Mountain
who had done little travelling up
to then.

The college work itself was a
field of stimulating discovery.
Scientific knowledge was a compar-
atively rudimentary state and we
rejoiced that we were pushing
forward into new frontiers.
Today, the thought which
gives me the greatest happiness
about Lehigh is the realization
that the University is continually
progressing.

Sincerely Yours,
E. G. Grace

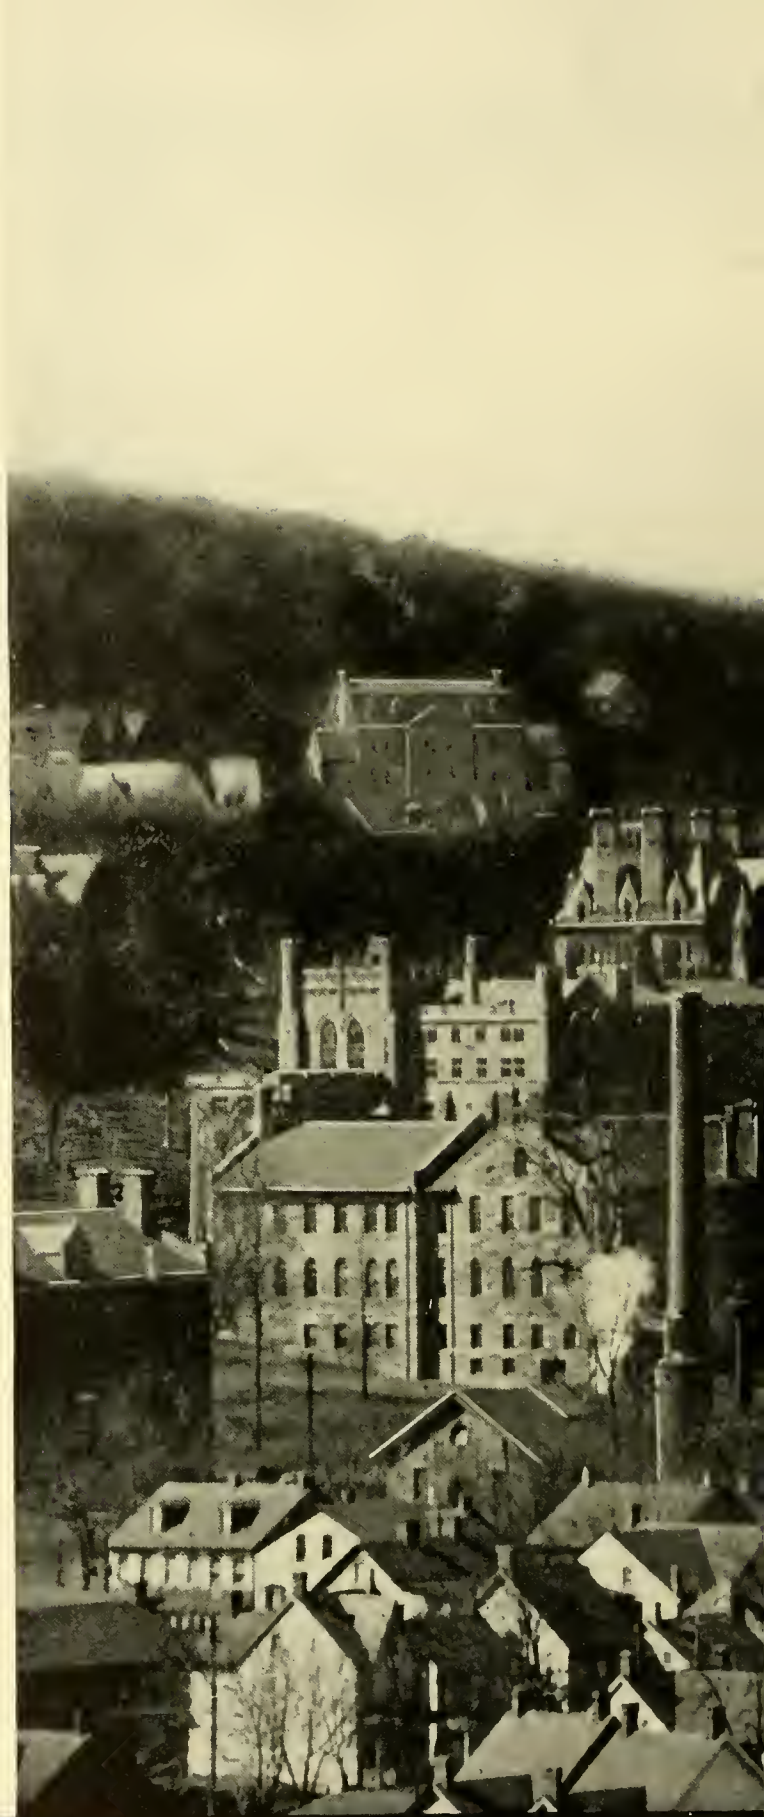

C O L L E G E

*"In the pledge
of fellowship"*

This then, was Lehigh. From the station all you could see was the chapel spire and beyond to the right, the tower of Packer hall. And it was raining that first day. That night, your first at school, you slept in your new bed and were a little afraid and a little anxious but quite happy for this was college and the new life. Then the next day, Freshman Week started. You were just one out of approximately 400 bewildered youths milling in the spotlight. All kinds of strangers told you all kinds of things that you listened to and promptly forgot in the whirl of fraternity rushing and new friends and a new town. But before you were quite ready, school started and you learned to divide twenty-four hours among classes and studies and fun and sleep and activities and that was the Freshman year, ended almost before it began.

"There, son, is Lehigh."

MORNING—Yawning
Christmas-Saucon Hall swal-
lows hundreds of scholars.

AFTERNOON— *These squirming undergraduates are definitely not "At ease."*

When you came back the next year, you were a Sophomore, established in the university system, no longer afraid, no longer anxious. And that year you took it easier and remembered that it was true that studies are not everything. You had time to sit in the sun on the concrete bench here in front of Christmas-Saucon, and you were surprised at the childishness of the frosh, and you slept in chapel as you were required to do. That was the year of the Eco lectures and "Elements of the Differential and Integral Calculus", and that was the year we beat Lafayette at Easton, and the urchins tore down the goalposts for us before the game was over. That Spring there was the red flag scandal on May Day and on Field Day you marched and pivoted and slapped your rifle through the manual of arms for the last time. Then Sophomore year was over and you were an upper classman.

Now you were a Junior. You started to take your place in the minor offices in the activities set-up, and began to collect "belly-brass". That Fall they started to build the addition to the Chem Building, and you wondered why you had not waited a year or two to take Chemistry. The Lafayette game was the heart-breaker when Ellstrom made the run for a "sure" touchdown only to be called back, and we were licked. But the band was good and played "Bugle Call Rag" at the Houseparty game. You noticed that year that the classes were getting smaller, and you remembered how many of the men you had known in your first year had gone other ways. And that was the year of Heat Engines and Corp Fin, and after that year was over, you knew you were in the home stretch.

When you came back last Fall, you were a Senior; and you could hardly believe it for you did not feel as old or as wise or as competent as seniors had always seemed to be. You took a big part in the clubs and the societies and the publications and the games but you hit the books too, because there was always that little gnawing thought that at the end of this year you had to get a job. So you found out what the inside of the Library looked like and where they kept the books. At Easton that year it rained like mad and you got so soaked that you never thought you'd get dry again. But you didn't mind that half as much as seeing Lafayette 6, Lehigh 0. And this Spring you started to look for a job and you got interviews and you worried a little when others got offers but when the right outfit came through and signed you up, everything looks swell again. But you have had a lot of fun in your Senior year, as much as you have ever had, and you know, as June comes closer, that you are about to leave a lot of friends and that even if it doesn't miss you, you are going to miss Lehigh, a lot.

Left, EVENING—*In the evening by the book shelves, the students sit and cram.*

FALL—Over 500 green, gullible freshmen eager for knowledge, pour into Lehigh for Freshman Week. Dry, admonitory lectures

WINTER—In fraternities, such as Sigma Nu buried in the snow, the “pledgees” slumber, play, learn, and grow.

send them scurrying into the hands of awaiting fraternity rushers. Cream of the crop, so it is said, are the 200 odd "pledged".

SPRING—Blossoms white signify to weary freshmen the end of the first long year and the glory of years to come.

Lehigh's 130-piece band, the pride and joy of every Lehigh alumnus and undergraduate, has the reputation of being the finest marching and playing band in the East. Its formations at football games attract as many spectators as the games themselves.

Of these formations, the students' favorite is the goblet with an "L" formed in the middle. As the formation is completed, the band strikes up the "Old Silver Goblet" and as the song nears its end, slowly the goblet tilts to the side and over its edge spills the "L". While the band is making this maneuver the students are singing out—

"Get out the old silver goblet,
With Lehigh upon it,
And we'll open another keg of beer;
For we all came to college,
But we didn't come for knowledge,
So we'll raise hell while we're here."

The goblet formation (on the adjoining page) with the heart in the middle was formed last Fall houseparty, and the band struck up an old favorite "How Would You Like to Love Me?"

The novelty made a big hit with the assembled crowd and the band thus started playing jazz for the first time.

Besides offering entertainment to the football patrons, the band plays for all R. O. T. C. drills and is one of the main reasons Lehigh receives an "A" rating from the Army Department.

The band is an old standby for graduation, playing for the procession while it marches to and from the exercises, and again at the flag pole when the graduating class sings the Alma Mater for the first time as alumni. One of the most impressive parts of the exercises is Taps. As one bugler plays at the foot of the flag pole, another echoes his call from South Mountain.

"All is well, safely rest, God is nigh."

*He's the leader of the
band, Robert P. Carter.*

*Old silver goblet with
your heart upon it.*

THEORY—Is the stuff that students get from books and faculty lectures. When the Faculty believes that a student has acquired enough theory, he is given a diploma and called an alumnus. Some will call this blasphemy, but it is not. Complete knowledge of theory in their fields has made Lehigh men famous. That is fact, not theory.

PRACTISE—Is needed so that students can apply the theories which they have learned and not become professors. To give students plenty of opportunity to practise the University has provided laboratories valued with equipment at over \$4,000,000. In these expensive laboratories, students make trivial mistakes, are corrected, learn how to avoid making such mistakes in the future. This system has been very effective, especially in engineering fields, in preventing graduates from making expensive mistakes on trivial jobs. Practise makes perfect, the psychology department tells us, only when the practise is done correctly. This is assured at Lehigh where in all departments, professionally-trained faculty members closely supervise the laboratory work done on experiments planned in all cases by experts in their respective fields.

ALMA MATER

*Where the Lehigh's rocky rapids
rush from out the West.
Mid a grove of spreading chestnuts,
walls in ivy drest,
On the breast of old South Mountain,
reared against the Sky,
Stands our noble Alma Mater,
stands our dear Lehigh.*

*We will ever live to love her, live
to praise her name;
Live to make our lives add lustre
to her glorious fame.
Let the glad news wake the echoes,
joyfully we cry,
Hail to thee, our Alma Mater!
Hail! All Hail! Lehigh!*

BOARD OF TRUSTEES

EUGENE G. GRACE, President

WALTER R. OKESON, Secretary and Treasurer

CHARLES M. SCHWAB, Eng.D., LL.D., D.C.S.
 SAMUEL DEXTER WARRINER, B.S., E.M., Eng.D.
 EUGENE GIFFORD GRACE, E.E., Eng.D.
 CHARLES DONNELL MARSHALL, C.E., Eng.D.
 WILLIAM CARTER DICKERMAN, M.E., Eng.D.
 FRANK R. COATES, B.S., E.M.
 FRANK WILLIAM STERRETT, A.B., B.D., D.D., LL.D.
 AUBREY WEYMOUTH, C.E., Eng.D.
 WILLIAM JAY TURNER, LL.B.
 EARLE FREDERICK JOHNSON, C.E.

MEMBERS ELECTED BY ALUMNI

	Term Expires
ALEXANDER POTTER, C.E., Eng.D. Class of 1890	1939
ROBERT FARNHAM, C.E. Class of 1899	1940
MORTON SULTZER, E.E., M.S. Class of 1912	1941
FRANK BRECKENRIDGE BELL, M.E. Class of 1897	1942
JOHN DANIEL BERG, M.E. Class of 1905	1943
ANDREW EDWARD BUCHANAN, Ch.E. Class of 1918	1944

When Asa Packer founded Lehigh, he placed its destinies in the hands of a self-perpetuating board of ten corporate trustees. In time these ten called upon the alumni to elect six additional members so that today the board numbers sixteen. Lehigh's charter, as approved by Mr. Packer, gives them the extensive powers needed to insure the continuance of Lehigh as one of the nation's leading universities. Through the years, the high quality of Lehigh's trustees, their excellent judgment, their interest expressed in time and money have made possible our outstanding physical plant and enviable achievements in scholarship. With Asa Packer, we can say, they have kept faith.

Walter Raleigh Okeson (left), C.E. '96, secretary of the Board of Trustees and treasurer of Lehigh University since 1923, was Lehigh's first full-time alumni secretary. An end on the football team for four years, he has retained his interest in the sport. He officiated for many years then as commissioner of Eastern football selected the officials. Now he is chairman of the rules committee.

Eugene Gifford Grace (right), E.E. '99, president of the Board of Trustees since 1924, was valedictorian of his class. Joining the Bethlehem Steel Company, he rose rapidly to the presidency. In 1912 he was made an alumnus trustee and since 1913 has served as a corporate member.

DR. CLEMENT C. WILLIAMS, *President of the University.*

ADMINISTRATION at a university the size of Lehigh offers a challenge to its executives. The solution of the many, difficult problems which constantly arise is made even more difficult by the fact that the general public and alumni must be considered as well as the faculty and student body. Results must be secured, but in securing them the feelings of everyone must be spared.

President Clement Clarence Williams began his career as an educator upon receiving his B. S. in Civil Engineering from the University of Illinois in 1907, at which time he joined the faculty of the University of Colorado, in its civil engineering department. He served in successive posts in the Universities of Kansas and Illinois until 1926, when he was called to the University of Iowa to become Dean of the College of Engineering.

He was inaugurated as Lehigh's seventh president on Founder's Day, October 2, 1935.

Lehigh's executives have accepted the challenge. As educators and business men, they have kept Lehigh among the nation's foremost universities. Through the long, financial depression, they have increased Lehigh's endowment and improved its physical plant. We, the students, share in their glory.

DR. WRAY H. CONGDON,
Dean of Undergraduate School.

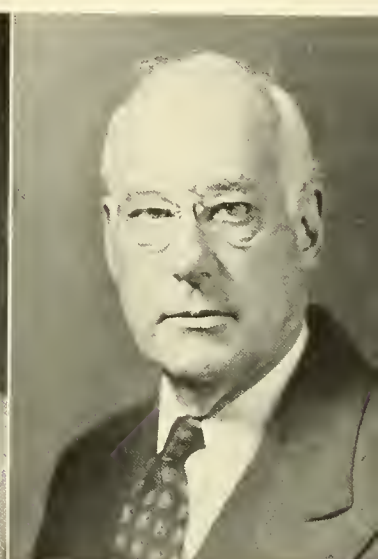

DR. TOMLINSON FORT,
Dean of the Graduate School.

PHILIP PALMER, *Dean,*
College of Arts and Sciences.

NEIL CAROTHERS, *Dean,*
College of Business Administration.

BRADLEY STOUGHTON,
Dean of College of Engineering.

GEORGE B. CURTIS,
Registrar, University Editor.

EARL K. SMILEY,
Director of Admissions.

ANDREW LITZENBERGER,
Superintendent.

E. ROBINS MORGAN-
Director of Placement.

WHO'S WHO

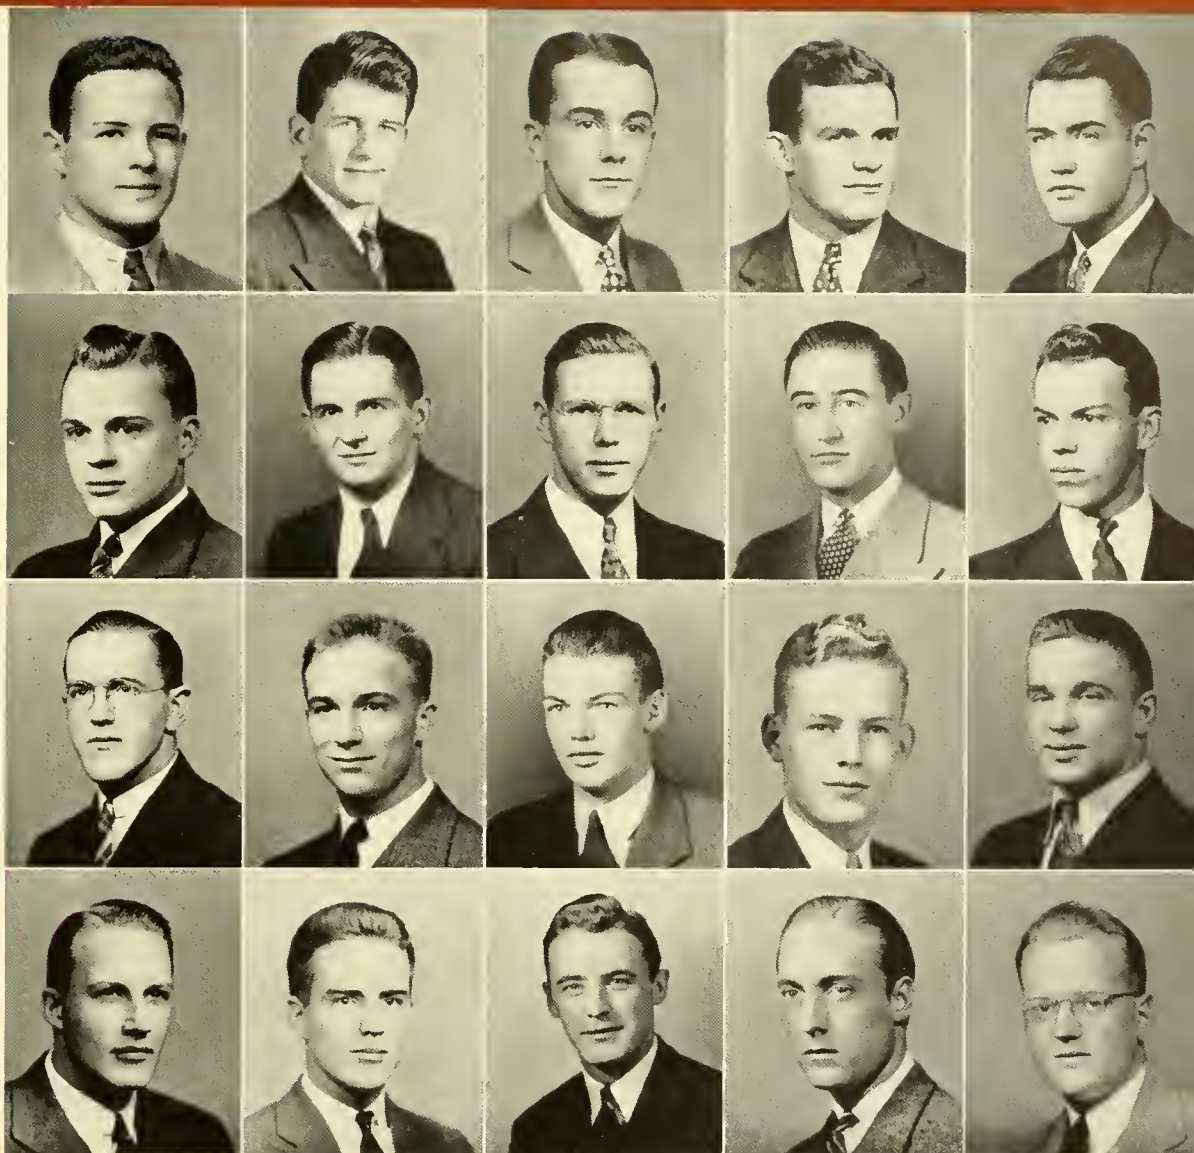

Twenty-eight Lehigh professors have been listed either in the 1939-40 edition or in a past issue of "Who's Who in America", a book of biographical sketches of the nation's outstanding leaders.

Faculty members whose pictures are missing below are: Vahan Babasinian, Frederick Bradford, Charles Fox, Charles Richards, Hale Sutherland, Charles Thornburg and Harry Ullmann.

TOP ROW: Claude G. Beardslee, Charles C. Bidwell, Allison Butts, Neil Carothers, Herbert M. Diamond, Gilbert E. Doan, Howard Eckfeldt; SECOND ROW: Amos A. Ettinger, Tomlinson Fort, Lawrence H. Gipson, Robert W. Hall, Percy Hughes, Fred V. Larkin, Howard S. Leach; BOTTOM ROW: Benjamin L. Miller, Philip M. Palmer, Joseph B. Reynolds, Robert M. Smith, Bradley Stoughton, Stanley J. Thomas, Clement C. Williams.

AT LEHIGH

*Here are the leaders in
Who's Who, but do you
know why who is who?*

TOP ROW: Burnett, Cox, Hurst, Grant, Wells, THIRD ROW: Weeks, Gowdy, Moesel, Watkins, Yingling, SECOND ROW: Rabold, Hagerman, Luster, Elmer, Masem, BOTTOM ROW: Selser, Hughes, Matteson, Carrington, Grannatt.

Twenty students were chosen to represent Lehigh in the 1939-40 edition of "Who's Who among Students in American Universities and Colleges" after tabulating the results of the voting by O. D. K., Senior honorary society; Cyanide, Junior honorary society; and Pi Delta Epsilon, honorary journalism society. The students in the order in which they were chosen are:

Franc H. Burnett, Jr., '39, president of Arcadia; Alfred T. Cox, '40, president of Cyanide; George E. Hurst, Jr., '39, president of O. D. K.; Alan S. Grant, '39, president of the Senior class; Walter C. Wells, '39; captain of soccer; Willet Weeks, '39, editor of the Brown and White; Richard S. Gowdy, '40, art editor of the Lehigh Review; Charles F. Moesel, '39, president of Tone; Wallace P. Watkins, '40, secretary-treasurer of Cyanide; Robert G. Yingling, '39, chairman of the Senior Ball; Frank C. Rabold, '39, member of O. D. K.; Edward E. Hagerman, '39, captain of wrestling; Donald R. Luster, '40, manager of Freshman soccer; Morgan C. Elmer, '40, captain-elect of cross country; Harold J. Masem, '40, eastern intercollegiate wrestling champion; Harold M. Selser, Jr., '39, editor of the Epitome; David C. Hughes, '39, musical composer for "Night in Armor"; Joseph L. Matteson, '40, member of Cyanide; Malcolm Carrington, Jr., '39, president of Mustard and Cheese; and Milton H. Grannatt, Jr., '39, president of the Interfraternity Council.

LEHIGH

ARCADIA

Organized in the 80's by Richard Harding Davis, the Lehigh Arcadia student governing body was merged last year with the Lehigh Union in order to expedite and crystallize the will of Lehigh's undergraduates in a more effective manner. 13 men, chosen by virtue of their campus positions, make up the new governing body.

LEHIGH'S FOUR DICTATORS

Franc Burnett, President, reading a letter to his subordinates, "Chick" Grant, Eddie Hurst and Will Weeks.

Dr. Beardslee, Faculty Advisor. A friend of every undergraduate.

TOP ROW: Cox, Patton, Carrington, Beardslee, Albrecht, Schoen, Decker. FRONT ROW: Prideaux, Grant, Burnett, Hurst, Heckman.

Richard Harding Davis originally founded Arcadia as a club for "pipes, books, beer, and gingeralia" in order to show his scorn for the fraternities that made bids for his membership. At this stage of the club's existence it was purely a social organization, but one thing led to another and the members began to dicker in politics.

From then on Arcadia began to grow in power until it was recognized as the governing body of the students. So grew Arcadia until 1922, when a joint vote of the students and faculty removed from Arcadia the power to be the tribunal of violators of the honor system, which existed at that time.

Arcadia was then at a very low ebb; so at a suggestion of Dean Charles M. McConn, it was decided that the members of Arcadia should be leaders of the group they represented.

This act greatly enhanced the prestige of Arcadia and it once more began to function as a well-organized group of leaders. However, this group proved to be too large while the smaller Lehigh Union lacked authority to carry on many of its activities. The result was a merger of the two bodies in the Spring of 1938.

Although by popular vote the name Arcadia was selected, the present form is more nearly that of the former Lehigh Union.

While Arcadia discusses problems common to all Lehigh students, the Interfraternity and Interdormitory Councils have jurisdiction over their respective groups, reports of their actions being presented to Arcadia.

Prestidigitation at pep rally is prelude to annual pajama parade.

Perennial peace is pledged between Lafayette and Lehigh. It lasted two weeks.

"Bromo" Selser, *the Editor.*

K. K. Kost, *the Advisor.*

George Ueberroth, *the Business Manager.*

the EP

The history of the Epitome is as amazing as it is interesting. Few students realize that it is Lehigh's oldest existing undergraduate publication.

In 1875 the Sophomore class established the book as a means to advertise the University. But as Lehigh grew the Epitome became a record book. This change occurred in 1885 when the Junior class took over the publication. It was not until 1931 that the Senior class published the book as a Senior yearbook.

The policy of the Epitome board electing the new officers was changed in the Spring of 1938, when, after agitation by Pi Delta Epsilon, the Board of Publications

TOP ROW: Kost, Rabold, Grubmeyer; SECOND ROW: Good, Diehl, Leonard, Homiller, Lennox, Norvig; FRONT ROW: Watkins, Ueberroth, Selser, Lehrer, Parsons.

ITOME

re-wrote the charter of the Epitome to provide for open competition supervised by a faculty advisor. Under the new set-up, the faculty advisor gives a written examination before presenting his slate of prospective officers to the Board of Publications. The editor-in-chief also presents a slate to the board which elects the officers.

It is under the new charter that this Epitome has been published.

Although the Epitome is considered a Senior record-book, the staff has attempted to make it a book for all undergraduates by having individual pictures of all fraternity and dormitory men. In changing the order of the pages, publications, organizations, and activities were put (in the editors' minds) in their logical order. Page layouts were varied and color was used much more profusely to add that punch lacking in former books.

We have worked hard to give you a book that you want, and we hope that we have succeeded.

So to Lehigh we present the 1939 Epitome, the book of "Happy Memories."

The editor's headache.

List of members can be found on page 302

BROWN *and* WHITE

Willet Weeks, Jr., Editor-in-Chief, making another date.

This year the Brown and White celebrated its forty-fifth anniversary. The first issue, published January 16, 1894, was a four-page, four-column tabloid with small headlines and no pictures, a far cry from the present seven-column paper with its emphasis on photographic coverage of important news events. Through the years, the policies of the paper have been governed by its motto, "All the Lehigh News First."

Rus Stevens, Business Manager, shows George Rheinfrank, Financial Manager, the red ink.

Ken Kost, the stooge, teaching freshmen looking for easy hours the rudiments of Journalism.

Brown and White staff. We can identify them, but we do not have enough room to do so.

The Brown and White serves a two-fold purpose at Lehigh. Its first function is the dissemination of news; its second is to serve as a laboratory for students seeking practical training in all phases of journalism.

To carry out its first function, the Brown and White has a staff of over 70 men, equally divided between the Tuesday and Friday issues, who work in four departments: news, editorial, sports, and photography. The news is prepared for publication in the news room in the basement of Christmas-Saucon Hall which is equipped with 27 typewriters, departmental and news desks, newspaper racks, and a library. Adjoining this room is the dark room where news pictures are prepared.

An efficient business staff of 30 men secures nearly \$4,000.00 in advertising each year and an equal amount in subscriptions to make possible the publication of the paper. The Brown and White now has over 2,500 paid subscribers in 27 states, the District of Columbia, and England. The business office is in Drown Hall.

To carry out its second function, the Brown and White has been organized into courses. Regular classes are conducted by the three faculty advisors, and each student who passes the course is given one-hour of college credit a semester.

The Brown and White is a member of the Inter-collegiate Newspaper Association of the Middle Atlantic States and of the Associated Collegiate Press. Both groups conduct competitions for excellence of news coverage, make-up, and editorials among their members. In the INA, the Brown and White has been awarded more prizes than any other paper, and ACP consistently rates the Lehigh publication as "First Class."

Free from censorship of any kind, the paper has been extremely successful in numerous editorial campaigns. It has fought for improvement in eating and living conditions, for improved social and recreational facilities, and for educational courses and lectures desired by the students. At all times, the paper has tried to reflect the opinion of the majority of Lehigh men.

Today the Brown and White is proud of its long service to Lehigh. While other colleges, many of larger enrollment, were publishing weekly papers or none at all, the Brown and White has been a semi-weekly since its founding. Only for a short period before the Armistice, in response to a plea by the government to conserve paper, was the Brown and White issued weekly.

List of members can be found on page 304.

Thrasher T. Gray, typical, cynical reporter, pounds out scoop of year.

Don Schoen, lanky, learned news editor, reads the copy and adds headlines.

Now in print, the story is ready to go its way to over 2,500 readers.

LEHIGH

Years in college are years spent in a principality with a culture and heritage of its own. The ebb and flow of time brings new faces, new personalities and new tales to be told. The Review finds plentiful food for print in the wealth of material laid at its feet. Its editors have long made it a practice to ferret out the highlights of life on the campus and present them to the college audience. The Review does more than afford its readers with a vicarious experience; it takes a firm editorial stand on current issues arising in the University and has maintained a liberal and progressive policy throughout its existence.

There are few extra-curricular activities that offer experiences more

Lou Stoumen *resigned as Editor.*

REVIEW

Eric Weiss' article, "She Wouldn't Do It," has the reader's feet in the air.

H. S. Heckman, Business Manager, and his stooges, Dennisan, Ulmer, Wells, and Chase.

Joe Boyle carried on where he left off.

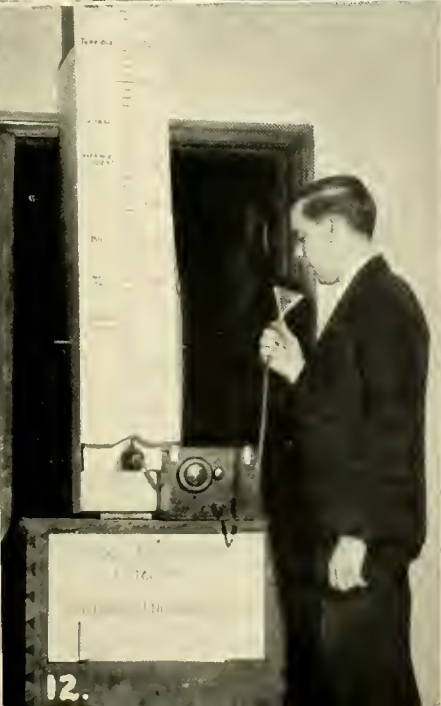

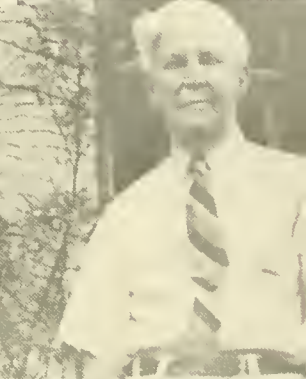

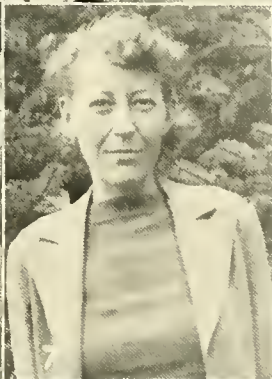

valuable than those to be gained by work on campus publications. This is particularly true of persons interested in literary work after graduation, but the generality is a valid one even when applied to individuals not falling into this category. A sincere interest in the Review is the only qualification necessary to gain the experience it offers. It is an opportune way to make your education pay dividends.

The Review serves a unique purpose on the campus. It is a natural outlet for college men who have a desire to express themselves. Authors, artists, photographers, businessmen all find in the Review a common ground for expression. There are many tasks to be done and willing hands to do them. Some are attracted to magazine work as a result of previous experience in high schools and prep-schools. Others, with no previous experience, find themselves welcome as contributors and potential editors. The Review solicits material for publication from the ranks of the student body, faculty and alumni. It presents the thoughts and sentiments of Lehigh men.

HOUSE PARTY

1. 4 o'clock, Friday. Dates arrive in every way, shape, and form.
2. 10 to 2. The Ball and Brawl.
3. 1:30 o'clock, Saturday. The football game.
4. 4 to 7. The Maennerchor Tea Dance.
5. 10 to 2. The jitterbugs' delight. The house dances.
6. 2 to ? "Show me the way to go home—"
7. 3 o'clock, Sunday. "And we just couldn't say 'Good-bye'."

SNAPSHOTS

1. Registration.
2. Taking life easy on Christmas-Saucon steps.
3. Marks are posted.
4. Beatrice Flickinger, the dean's one and only.
5. Jeanette Cleaveland, recorder, without her horse.
6. Marleah Bowker, Dr. Beardslee's efficient secretary.
7. Genevieve Giering, the placement bureau's feminine bliss.
8. Mrs. Dacey and Billy.
9. Harmie in a pensive mood.
10. The Supply Bureau.
11. Hendricks stepping out.
12. Have you tried this famous tester?

CAMPUS in the WINTER

1. Atop South Mountain on way to lookout.
2. View of Packard Lab. from Packer Hall.
3. View of Chapel from Memorial Building.
4. The Chi Phis and their new brother.
5. View of Packer Hall from the Chapel.
6. Steps leading from Packer Hall with President's house in background.
7. Campus scene with Memorial Building in background.
8. The President's backyard.

CAMPUS in the FALL and SPRING

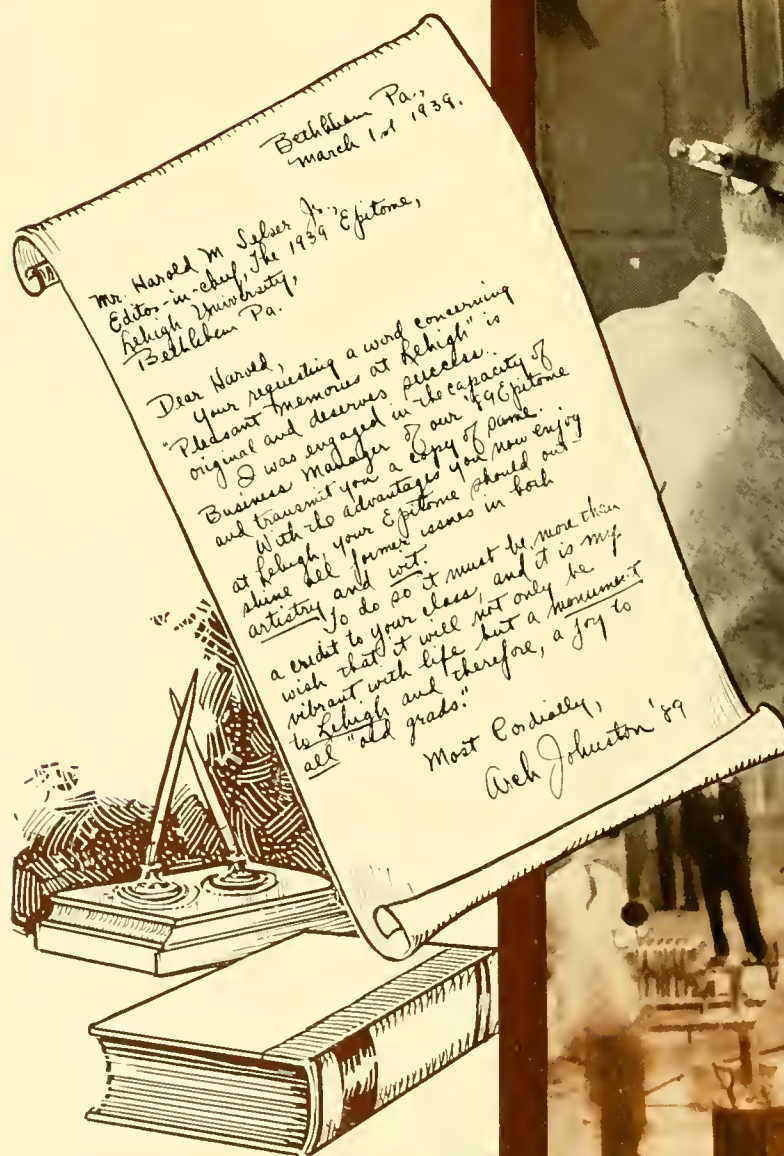

1. View of the Armory from Drown Hall.
2. Steps leading from Library to Coppee.
3. View from Richards' House window.
4. View from the lookout.
5. Campus view from Dean's office.
6. Northwest part of the campus.
7. Not lover's lane, but path from Phi Delt house to Drown Hall.
8. View of campus on entering main gate.
9. View of campus from Packer Hall.

CLASSES

LEHIGH

Bethlehem Pa.,
March 1st 1939.

Mr. Harold M. Selser, Jr.,
Editor-in-Chief, The 1939 Epitome,
Bethlehem Pa.

Dear Harold,
Your requesting a word concerning
"Pleasant Memories at Lehigh" is
original and deserves a piece of
I was engaged in the capacity of
Business Manager of our 1939 Epitome
and transmit you a copy of same.
With the advantages you now enjoy
at Lehigh, your Epitome should out
shine all former issues in both
artistry and wit.

To do so it must be more than
a credit to your class, and it is my
wish that it will not only be
vibrant with life but a monument
to Lehigh and therefore, a joy to
all "old grads."

Most Cordially,
Arch Johnston '89

CLASSES

The HONORARY MEMBER
of the SENIOR CLASS,
WRAY H. CONGDON.

Like a lot of other seniors, Wray came to Lehigh in 1934. Since then he has been using his time to such good advantage that he has made his presence felt in athletics, dramatics, publications, and all other student activities. An O.D.K and DU, he is co-holder with Coach Paul Calvert of the Summer Session tennis doubles title. In the Spring of 1938, he sang in "H. M. S. Pinafore" when it was presented by the Faculty. A top-flight socialite, he seldom missed the Senior Ball or other important social events.

*Officers
of the
Class
of*

'39

"Eddie" Hurst, Secretary-Treasurer, listens while "Chick" Grant, President, points out the names of former presidents on Senior Cone.

The class of 1939 may or may not acquire a title as notorious as the "War Class", "Prosperity Class" or the "Depression Class", but even so it will not be without distinction.

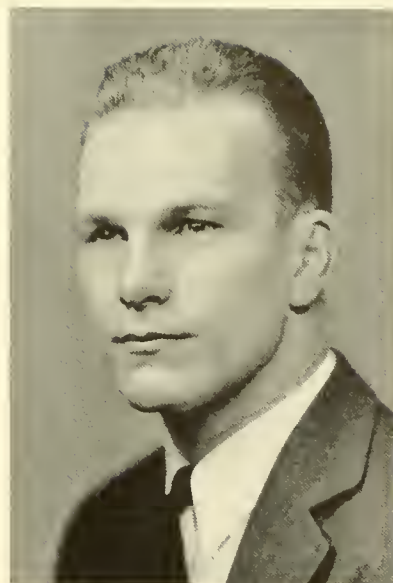

The most painful and therefore probably the longest lived recollection of our fame will be that of "Hell Week". We have the distinction of being the last class to suffer the "Thirteen Terrible Tortures", the long walks on

Nat Whitman,
President our Freshman Year.

Frank Rabold,
President our Sophomore Year.

Gene Caller,
President our Junior Year.

cold dark nights, and the unending swing of the paddle. It was "Hell" then, but we will be more than repaid for our suffering by the wild tales we will be able to tell our grandchildren.

Another institution from which classes following us have been spared is Chapel. Not since we finished our two years of Chapel, has a class had to arise at the crack of dawn to sit, half awake, in the hardest seats in the university for fifteen minutes. College isn't the same as it was when we were young!

Along with the memories of the class as a group will go the memories of the class as individuals. Some of our classmates will be remembered for their achievements in athletics, some for their achievements in other extra-curricular activities, and others for outstanding scholarship. Then still another group which will be remembered even though their college histories are not recorded in black and white are the "campus characters" or "cards", if you will. Their humanity and idiosyncrasies added much to our four years that all the scholars and athletes in the university could not supply.

Ever since we donned the black tie and "dink" back in 1935 we have profited and suffered by the acts of fate and the other powers controlling this institution; and some of these trials and tribulations we will not soon forget. But the history of the Class of '39 has just begun; it will not end until the last surviving member has joined the angels.

SENIOR BAL

Coming from 24 states, the District of Columbia, Canada, and the Canal Zone, more than 450 girls and their Lehigh escorts attended the Senior Ball of the Class of 1939 Friday night, October 28, 1938, and danced to the music of Bunny Berigan and Mal Hallett at the Hotel Bethlehem.

Playing on a stand in front of a large Lehigh banner, Bunny Berigan accompanied his orchestra with a trumpet and was active despite a broken ankle which was still in a cast. Jean Dover and Dick Wharton sang with his band which was located in the Dining room. Mal Hallett's orchestra, playing in the Main Ballroom, featured many novelty numbers by Buddy Welcome and Joe Cabonaro. Jerry Perkins was the vocalist.

Between the numerous numbers for the jitterbugs and the other swing enthusiasts, the bands played "My Reverie", "Two Sleepy People", and others of that type for the more conservative dancers. Much of the time those attending the Ball did not dance, but crowded around the orchestras while the entertainers executed various antics or novelty numbers for the amusement of the guests.

With this year's Senior Ball came the revival of the hoop skirt and the more general appearance of the strapless evening gown. Both caused the Lehigh students and faculty much worry and concern.

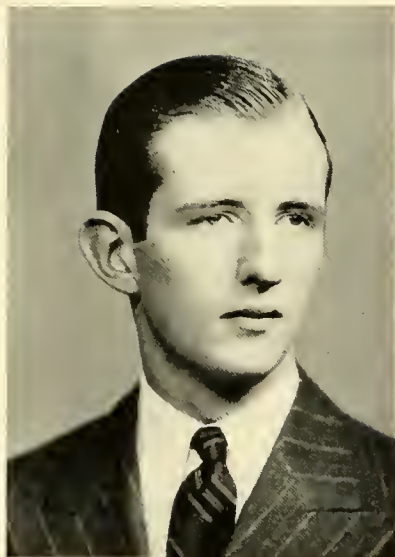

The committee was composed of Robert G. Yingling, Chairman; John M. McNabb; Milton H. Grannatt, Jr.; and Raymond P. Laubenstein. The chaperones were Dean and Mrs. W. H. Congdon, Dr. and Mrs. C. G. Beardslee, and Mr. and Mrs. G. B. Curtis.

Mal Hallett shaking hands with Bob Yingling, chairman of dance committee.

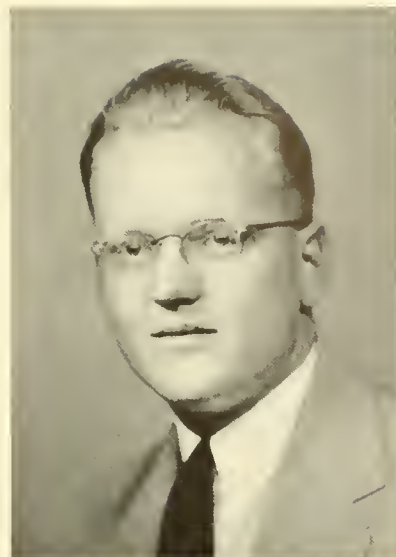

Bunny Berigan and his band entertaining the jitterbugs in the main dining room of the Hotel.

Johnny McNabb, Chairman
of Program Committee.

"Butch" Laubenstein, Chair-
man of Social Committee.

Milt Grannatt, Chairman of
Ticket Committee.

Mal Hallett and his band
blaring forth to the enjoy-
ment of the assembled
crowd in the ballroom.

"Chick" Grant, class presi-
dent, boss of the affair.

HENRY P. CHAPMAN, JR.
Chappie

Phi Gamma Delta Business Administration

MAPLEWOOD, NEW JERSEY
COLUMBIA HIGH SCHOOL

Junior Manager, Track; Brown Key.

"He is our friend who loves us more than admires us, and would aid us in our great work"—and so it was with "Chappie". His sudden death, due to a rare cause, was a great shock to his many friends.

He graduated from Columbia High School, Maplewood, New Jersey, with an enviable athletic record but was unable to pursue athletics at Lehigh because of a permanent injury suffered in high school competition.

He was sincere in everything he did and had a wonderful capacity for work—not always his own, for he was always willing to lend a helping hand to a schoolmate or fraternity brother.

Cutting short such a life was a loss to Lehigh, for here was one of Lehigh's staunchest supporters.

OFFICERS OF THE CLASS OF

'40

Three down, one to go—the Roaring 40's have already made an indelible impression on the pages of Lehigh history. In scholarship, athletics, journalism, music, debating or dramatics—we've furnished leaders and ability to all fields of collegiate endeavor. So let's keep rolling in high, Gang, and

hit our final year even harder than we did the first three. And when next June closes the pages of our college lives, Lehigh will proudly send forth a class which will long be remembered as one of the best—the Roaring 40's.

JUNIOR PROM

Spring Houseparty opened with a bang when the Roaring 40's put on the best Junior Prom Lehigh has seen in many a year.

Benny Goodman, "the King of Swing," and his orchestra played to a packed house at Dorney Park, on Friday, April 21, and in his first appearance at Lehigh, Goodman left little or no doubt in the minds of the undergraduates and their guests that he is still the leader of Swing.

With his clarinet blaring forth the hot notes and his band accompanying him it was an evening of jitterbugs' delight.

"At the dance, we were in a trance—"

Herbie Feucht, star football and basketball player.

At the Sportsman's Club Outing, Stoudt and Dennis.

Jack Colbaugh demonstrating the Chi Psis new studying poise.

"Gordy" Brandt fills the shoes of "Local Boy Makes Good." A three letterman and good student.

How some of the Juniors get good marks, Cramming.

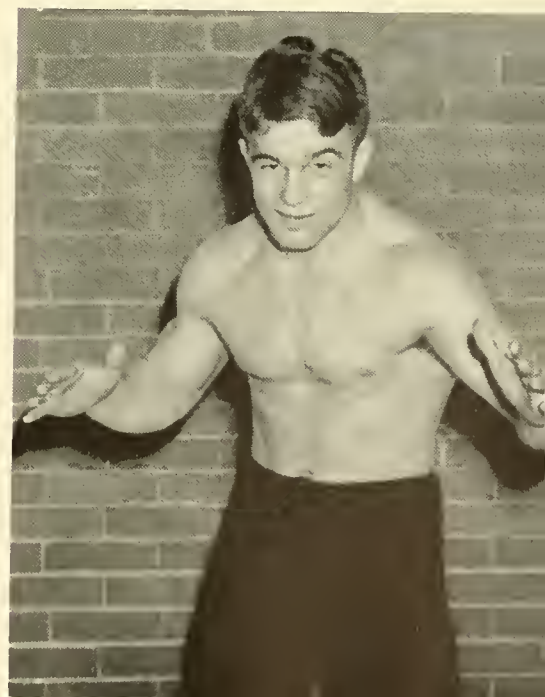

Top: Nicol demonstrates the way Juniors like to study.

Upper right: Al Cox, the pride and joy of the Junior Class. Class president, 3 letterman, honor student, and great socialite. Captain-elect of football.

Right: "Charlie" Griffiths, Captain-elect of basketball and another 3 letterman. Alpha Kappa Psi member.

Lower right: Harold Masem, Captain-elect of wrestling. Eastern Intercollegiate wrestling champ for 2 years and also holder of Metropolitan Cup for best wrestler in meet.

Bottom: Members of Cyanide, Junior honorary activity society. O'Meara, Martin, Brown, Griffiths, Marshall, Uhl, and Harbaugh.

on Schoen, President

Gus Riemondy, Sec.-Treas

OFFICERS OF THE CLASS OF

'41

A great deal has happened since we of the Class of 1941 were initiated into college in September, 1937. Looking back on our first two years' history, we see that we are probably the last class ever to wear the time-honored frosh dink; the last class to elect a Freshmen Union president; the last

class to enter here under the guidance of former Dean McConn. In our two years here we have lost some of our classmates along the way; most of us, however, have achieved much in studies, activities, and sports. We are the ones to make '41 outstanding.

SOPHS DEFEAT FROSH

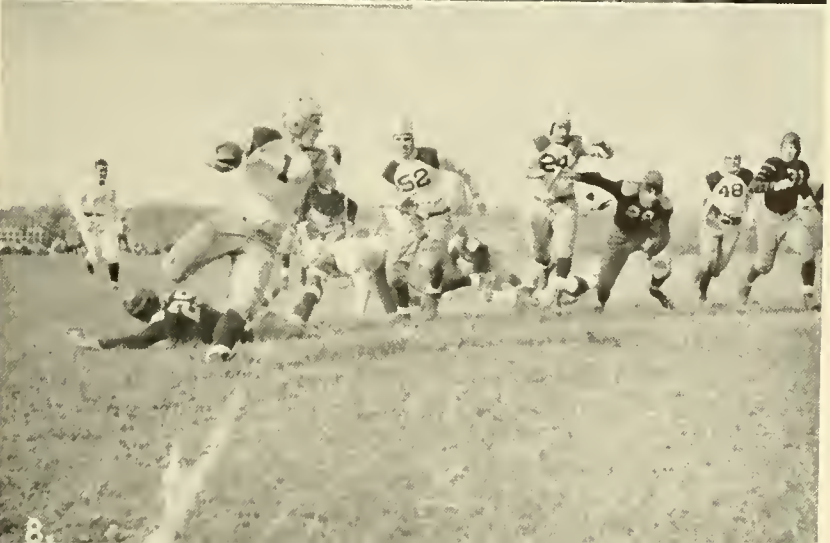

In the traditional Founder's Day Sophomore-Freshmen tussle for supremacy, the Sophomore upheld the honor of their class by sinking the class of '42 in three of the five contests.

The Sophs won the football game 6-0, but it must be said their team was the J. V. squad and was composed of several upperclassmen.

However, in winning the pants tearing contest and the mile relay the Sophs needed no outside help to overcome the neophytes.

The Frosh were able to win only the tug-of-war and push ball.

Sophs winning pants tearing contest.

1. Bill Simpson, letterman in football and swimming.
2. Steve Smoke, Lehigh's best punter in a year of Sundays.
3. Bill Scott, swimmer and track man, spends a nite looking at the stars in Lehigh's Observatory.
4. The way the Sophs like to study.
5. A Soph trying out the techniques he learned his Freshman year.
- 6 and 7. Sophomore year seems like all work and no play.
8. Action shot of Sophs' triumph over Frosh.

OFFICERS OF THE CLASS OF '42

A new dean, a new dormitory, a new chem building annex, a new student governing body—all of these greeted the class of '42 as we entered Lehigh. More important to us than any of these changes, though, was the innovation in Freshmen regulations. Gone for us were the dink, the black socks and tie;

gone were all the regulations which had been the bane of previous Freshmen classes. We were not, of course, the first of Lehigh's 73 entering Freshmen groups to be told: "You're the best bunch we've even seen here," but by 1942 we intend to prove that we are.

PAJAMA PARADE

Another of Lehigh's old traditions is the annual Smoker the evening before the Lafayette game, followed by the Freshman Pajama Parade through the streets of Bethlehem.

The affair was more elaborate this year in that Arcadia sponsored a contest for the most original and unique Freshman living group makeup. This added much spirit to the affair and "Bucky" Buchanan's slight-of-hand magical effects had the crowd roaring.

The pajama parade starts at the gym with the band leading it. South and East Bethlehem traffic is always at a standstill while the frivolous Frosh carry on in good, clean fun.

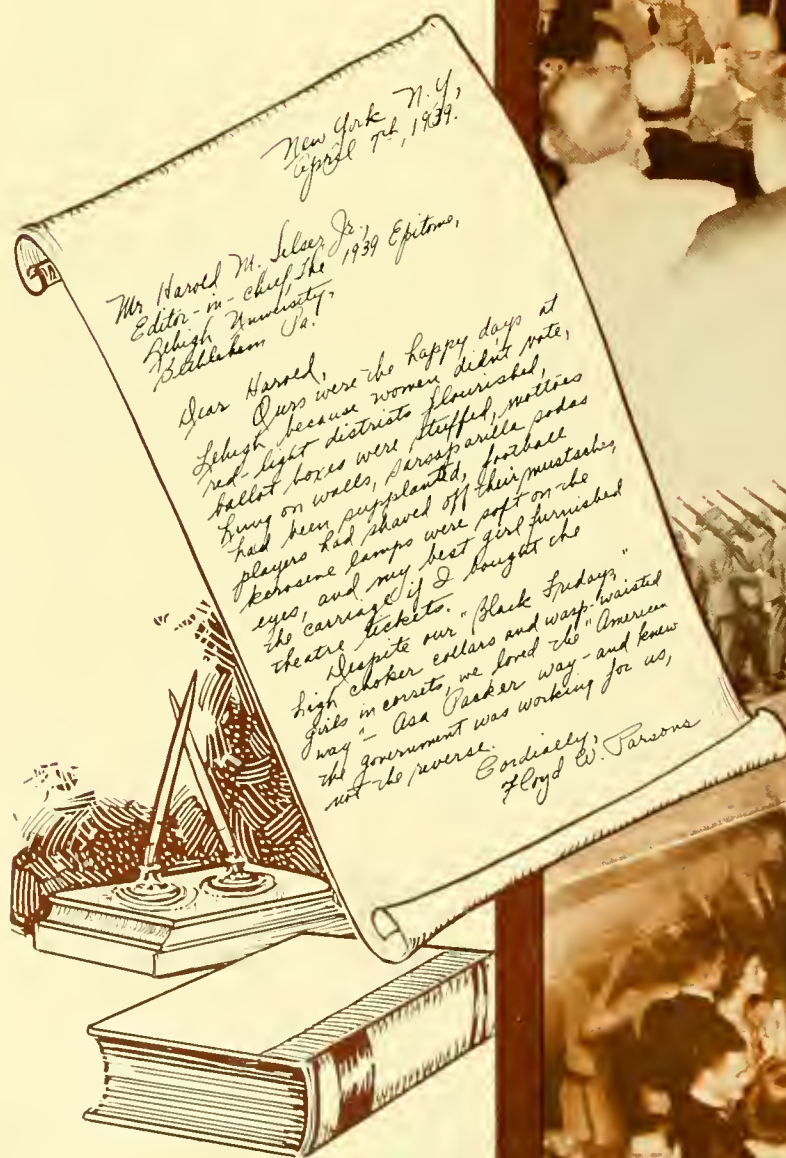

Freshmen hailing the "Virgin Marys" from across the river.

1. Frosh winning the tug-of-war contest.
2. Typical view in fraternity houses before Houseparty — Waxing floors.
3. Class of 42 scholarship winners.
4. Rushing.
5. A. K. Pi Freshmen with their prize winning display at Lafayette smoker.
6. Freshmen football team.
7. Typical Freshmen pose in Fall.

SOCIETY

New York N.Y.,
April 7th, 1939.

Mr. Harold M. Selzer, Jr.,
Editor-in-Chief, The
Lehigh University,
Bethlehem Pa.

Dear Harold,
Ours were the happy days at
Lehigh because women didn't vote,
red light districts flourished,
ballot boxes were stuffed, molasses
hung on walls, paraspaville sodas
had been supplanted, football
players had shaved off their mustaches,
kerosene lamps were kept on the
eyes, and my best girl furnished
the carriage if I bought the
theatre tickets.
Despite our "Black Fridays,"
high collar collars and wasp-waisted
girls in corsets, we loved the "American
way" - Asa Parker was right and knew
the government was working for us,
not the reverse.

Cordially,
Floyd W. Parsons

S O C I E T Y

Women, politics, religion, or athletics? The Chi Phis indulge in serious session.

LIVING GROUPS

Milton H. Grannatt, Jr.,
President of the Interfraternity Council and a
member of Lambda Chi
Alpha fraternity.

On investigation in 1919, it was found that Lehigh was far behind other universities in organizing fraternities. Thus on May 21, 1919, the presidents of the various fraternities met to organize a council. A committee of five (J. M. Howard, R. Honeyman, R. Bellman, M. Tate, and J. J. Shipherd as chairman) was appointed to draft a constitution for this council. At the second meeting on May 28, 1919, the constitution was presented to the council and adopted.

TOP ROW: Matteson, Kremer, Rabold, Shields, Homiller, FOURTH ROW: Jeffery, Beardslee, Lane, Seifert, Diamond, Conneen, Heisler; THIRD ROW: Holmes, Craig, O'Meara, McQuillin, Russell, Tanis, Danshaw; SECOND ROW: Kromer, Carringer, Ginder, Glide, Roblin, Beekman, Yingling; BOTTOM ROW: Rothschild, Laubenstein, Carrington, Grannatt, Roper, Roberts, McCaulley.

INTER

*D'Arcy W. Roper, II,
Secretary of the Interfraternity
Council and a
member of Beta theta Pi
fraternity.*

*Samuel R. Cox, Treasurer
of the Interfraternity
Council and a member of
Alpha Chi Rho fraternity.*

To this day the constitution is still in its original form. As stated there, the purposes of the Interfraternity Council are "to promote a more intimate friendship between the fraternities and the student body generally, to develop a closer relationship among the fraternities at Lehigh by means of interfraternity athletics and affairs, to lend a wider support to all university activities, and to promote the welfare of the university in general."

Two representatives (with one vote only) from each fraternity comprise the membership of the council. The Lehigh University Interfraternity Council is a member of the National Interfraternity Conference.

The council approves the dates of house parties and sponsors one of the leading social functions of the school year, the Interfraternity Ball. It encourages interfraternity competition in touch football, wrestling, swimming, table tennis, basketball, and bowling, and by this competition fosters better relationship among the fraternities. Cups, donated by the council, are prizes for these athletic contests which are in charge of a manager appointed annually from fraternity candidates. The council establishes and enforces rules for fraternity rushing during Freshman Week.

This year the council plans to eliminate a few grievances. In conjunction with Andrew A. Litzenberger, superintendent of buildings and grounds, it has put into operation a plan to license all salesmen who visit the fraternities. It also plans to publish a guide including vital information pertaining to each fraternity.

List of members can be found on page 304.

ALPHA CHI RHO

Alpha Chi Rho was founded on June 4, 1895, at Trinity College, Hartford, Connecticut, by the Rev. Paul Ziegler, H. T. Sherriff, C. G. Ziegler, W. H. Rouse, and William A. Eardeley. At present it has eighteen active chapters and over 5,000 members.

The Phi Mu Chapter of Alpha Chi Rho grew out of a local fraternity, Theta Delta Psi, which was ad-

mitted into the national organization in 1918. It, like all other chapters of Alpha Chi Rho, boasts of a distinctive alumni organization in which the graduates are linked together in an alumni chapter. This chapter, governed by a committee, acts as an advisor to the active members. The present chapter house is located at Market and Linden Streets.

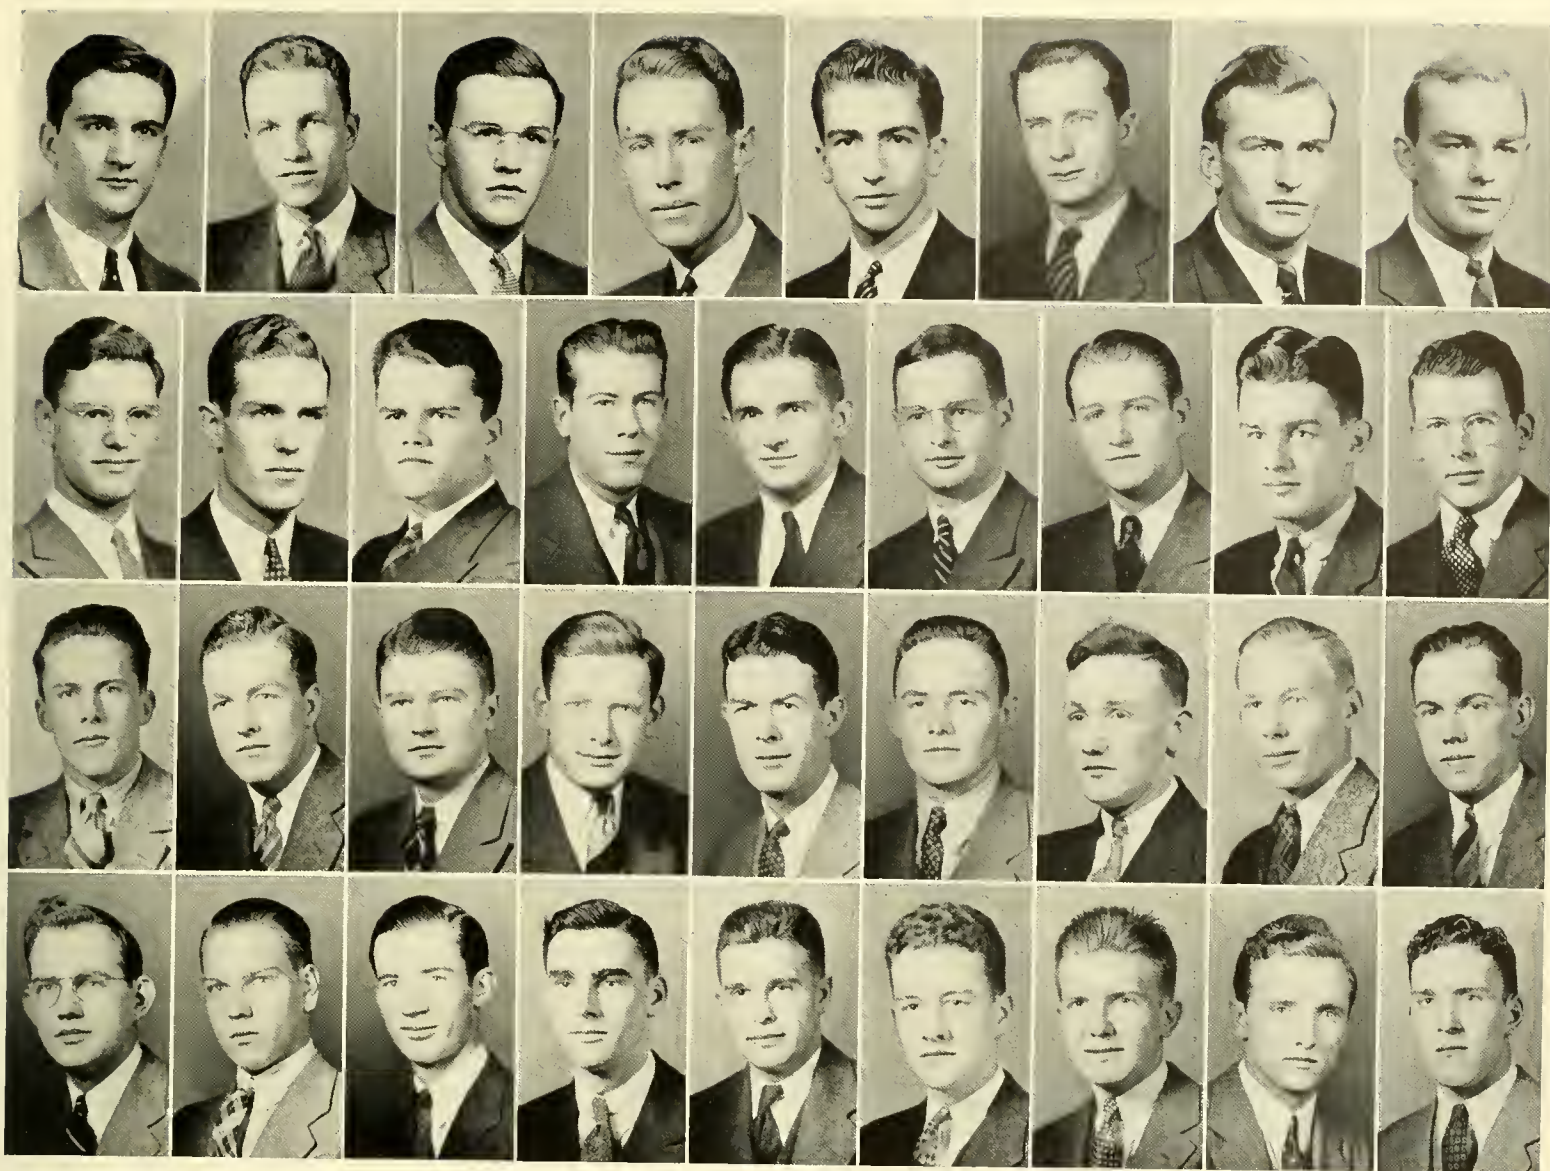

Alpha Chi Rho is very active in the field of publications. Russ Stevens is the business manager, Ed Manning, the national advertising manager, and Bob Muir, news editor of the Brown and White. On the Lehigh Review, Frank Norris is an assistant editor, Dick Gowdy, the art editor, and Bob Muir, a member of the board.

Athletics are also popular with the Alpha Chi Rhos. Dick Gowdy is a varsity football player and Joe Scott, one of Lehigh's top-ranking tennis players, is a letterman in soccer. Russ Stevens is manager of the varsity basketball team.

Alpha Chi Rho is represented in such honorary societies as Cyanide, Alpha Kappa Psi, Scabbard and Blade, Brown Key, and Pi Delt.

Alpha Kappa Pi was founded at Newark College of Engineering on January 1, 1921. The fraternity was then a local group known as Phi Delta Zeta.

In the Fall of 1925, representatives from Phi Delta Zeta and Alpha Kappa Pi, a local fraternity at Wagner College, Staten Island, New York, met for the purpose of organizing a national fraternity. The new

organization, completed in March of 1926, with the Alpha Chapter at Newark and the Beta Chapter at Wagner, has grown to twenty-six chapters.

The Nu Chapter at Lehigh, originally known as Howard Hall, was formed in 1927. It was installed as the Nu Chapter of Alpha Kappa Pi in February, 1930, and moved to 514 Delaware Avenue in 1933.

In recognition of the prime purpose of a college education, Alpha Kappa Pi has maintained her position near the top in scholastic rating. Four of the brothers, Dick Shepherd, "Swish" Myers, Bob Marsden, and Jack Jackson, were elected to four honoraries respectively: Newtonian, Pi Tau Sigma, Pi Mu Epsilon, and Tau Beta Pi.

Interfraternity sports yielded a silver trophy for football and a cup for a Freshman display. Four of the freshmen won their numerals on the Freshman football team. Loring Lane and Dick Blanchard won varsity letters in riflery and "Swish" Myers won his in track. Music, dramatics, military science, and journalism are a few other interests of the brothers.

ALPHA TAU OMEGA

The Alpha Tau Omega fraternity was the first American fraternity to be founded after the Civil War. Its inception was on September 11, 1865, when three cadets established the Alpha Chapter at the Virginia Military Institute. Virginia Beta Chapter was founded during the same year at Washington and Lee University. The fraternity has grown

rapidly, and the present ninety-four chapters, distributed among the leading colleges and universities of the country, have initiated 36,000 men.

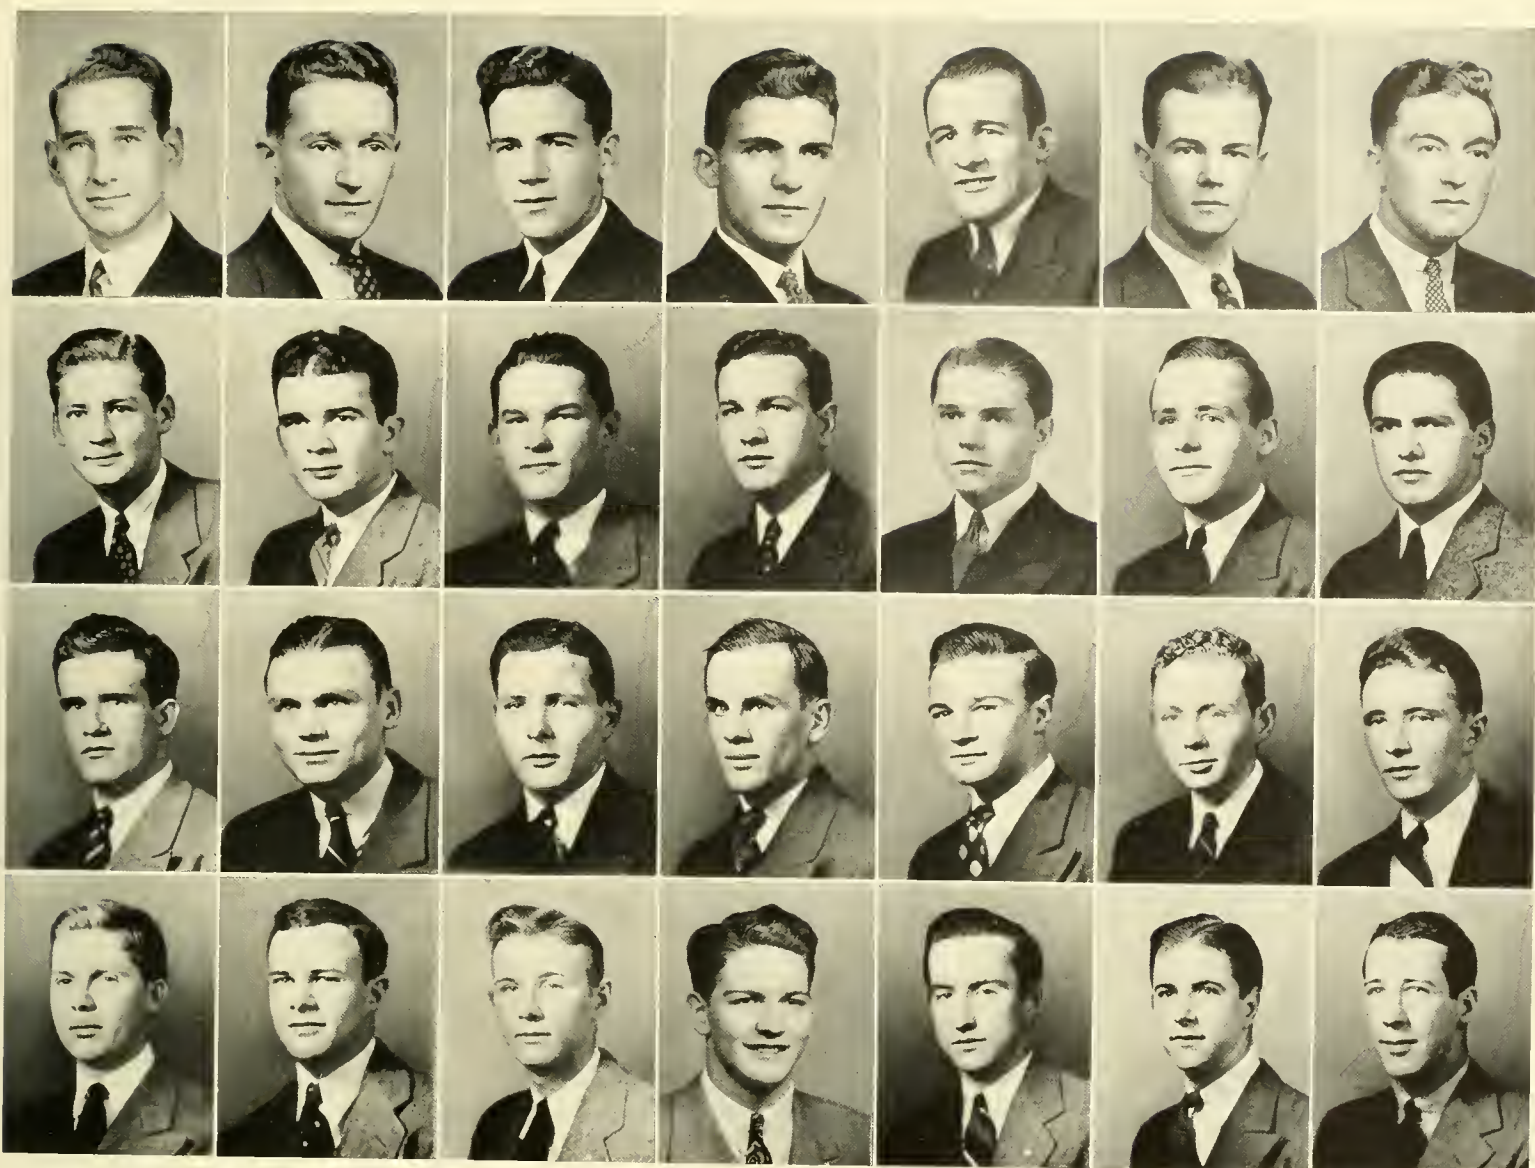

In 1882 the Alpha Rho Chapter was established at Lehigh as the second fraternity in the University. The present chapter house, located in Sayre Park, was built in 1916.

The A. T. O.'s have furnished many leaders on the Lehigh campus. Jim Patton is president of Tau Beta Pi, vice-president of the Chemical Engineering Society, member of Pi Mu Epsilon, Arcadia, and chairman of the Student Activities Committee. "Shamrock" O'Meara wears an "L" for swimming and track and is a member of Cyanide. Bob Craig made three numerals last year and is the third A. T. O. to win the R. A. Lewis cup.

Bob, Jim Hendry, and Tommy King, who was a finalist in the American Olympic tryouts, will represent the fraternity on the Lehigh wrestling team. Other sports and activities participated in by A. T. O.'s are: golf, soccer, football, and baseball.

Beta Kappa originated in October, 1901, at Hamline University, St. Paul, Minnesota. Expansion progressed throughout the West, coming East in 1925. In the interim of thirty-seven years, Beta Kappa has grown to be a national fraternity with a total of forty-eight chapters.

In the Spring of 1932 a group of Lehigh students

founded the Omega Phi Sigma fraternity, and a house on Montclair Avenue was obtained the next Fall.

Realizing that stronger backing was needed for continued success, Omega Phi Sigma petitioned Beta Kappa fraternity, and, on May 19, 1934, it was installed as Alpha Sigma of Beta Kappa at Lehigh.

The activities of Beta Kappa are many and varied, as evidenced by the Review's selecting one of the brother's houseparty date as the ideal houseparty guest, and by the scholastic honors gained through the election of members to Phi Beta Kappa, Tau Beta Pi, and Phi Eta Sigma. The chapter also is active in other honorary and course societies, having members in Alpha Phi Omega, Scabbard and Blade, Delta Omicron Theta, Glee Club, Review, Brown and White, and the debating team.

Though participation in sports is not stressed, Beta Kappa is represented by strong intra-mural teams in both bowling and basketball, and has men in football, wrestling, track, basketball, and on the tennis team.

BETA THETA PI

Beta Theta Pi was founded at Miami University, Oxford, Ohio, on August 8, 1839. At the time secret organizations were banned by the University, and, consequently, they had to meet at such times and places as to allow themselves to be undetected by the University faculty. John R. Knox and Samuel T. Marshall were two leaders in the establish-

ment of the fraternity.

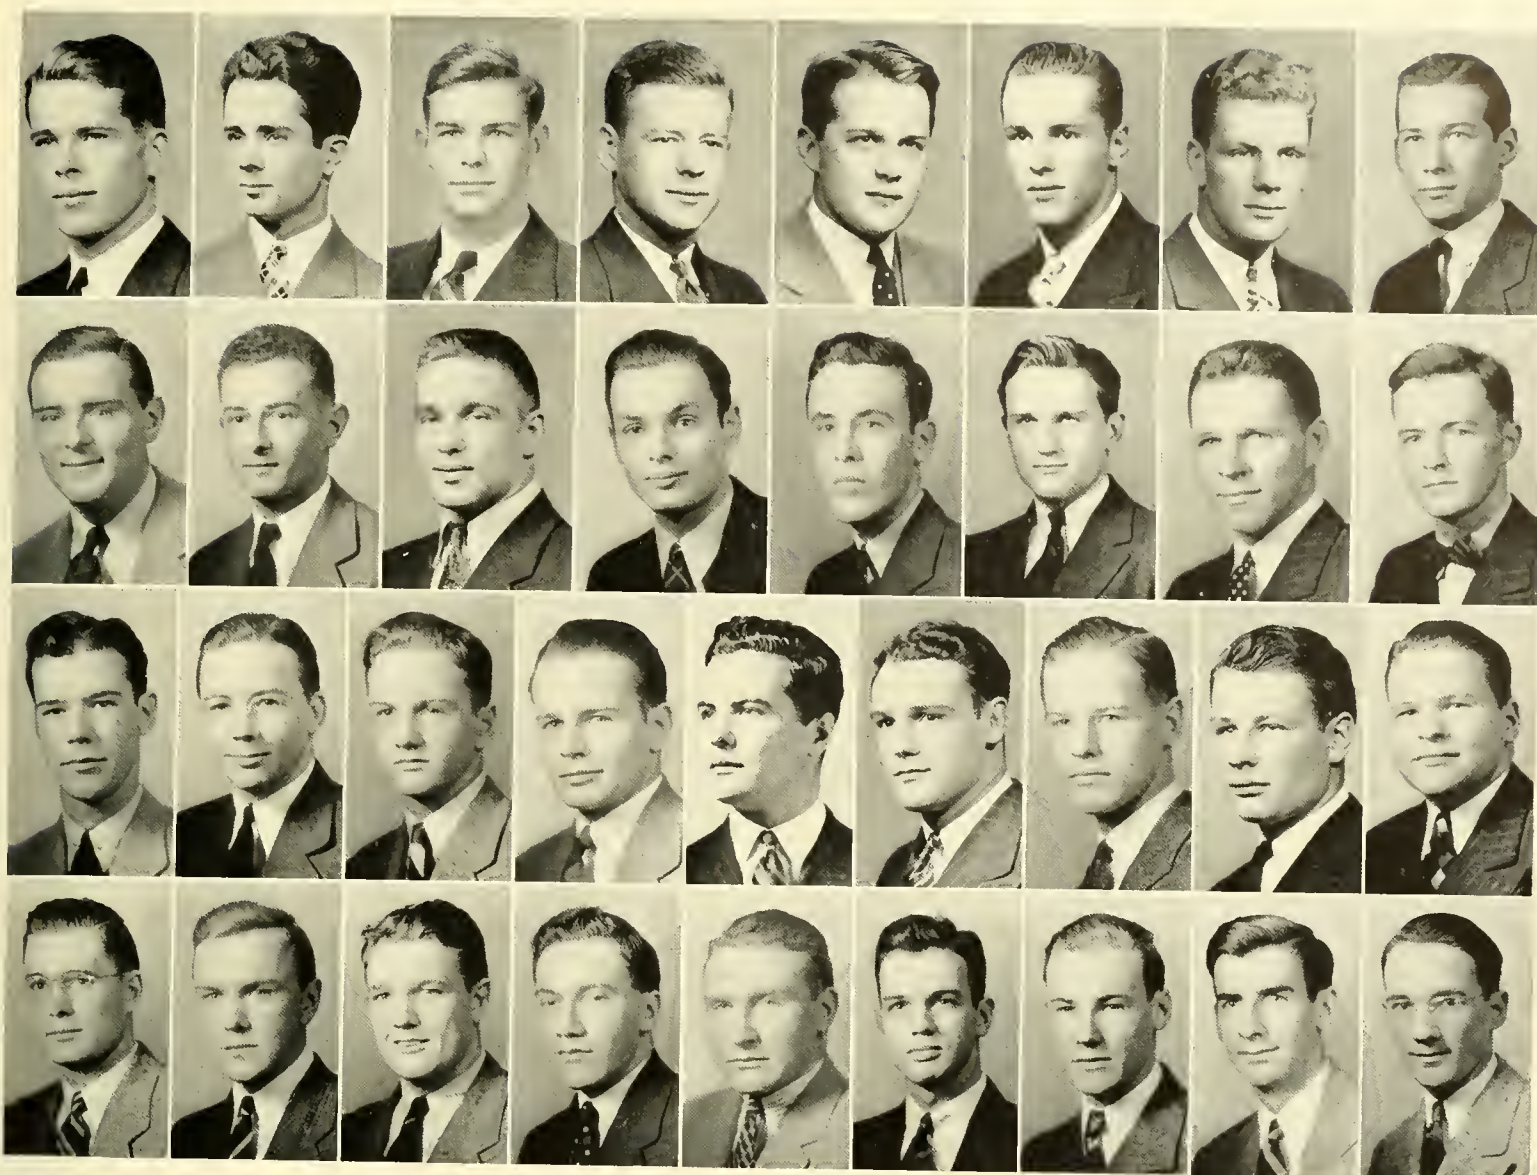

The Lehigh chapter, Beta Chi of Beta Theta Pi, came into the national fraternity on October 1, 1891. In 1889 a group of Lehigh students built up a society with the idea of petitioning a national fraternity for a charter. This was done and the charter was granted at the convention of 1890.

Many and varied are the activities in which Beta Theta Pi has been represented by participants during the current year. In athletics we were particularly strong having had members in almost every sport, such as football where we had the year's honorary captain, wrestling where we had a 1938 Eastern Intercollegiate champion, swimming, track, tennis, cross-country, soccer, and baseball. We also had the manager of baseball, the junior manager of wrestling, and the captain of lacrosse.

In honoraries and organizations the Betas are well represented in Cyanide, Scabbard and Blade, Newtonian Society, Brown and White, and Alpha Kappa Psi. The secretary of the Interfraternity Council is a Beta.

As early as the thirteenth century there are records of a society of scholars in Bavaria, called Chi Phi. These same groups have left traces also in England and America. The actual constitution, dated 1824 at Princeton University, still exists.

Was it mere coincidence, then, that in 1860 three different societies at Princeton, North Carolina, and

Hobart should be calling themselves Chi Phi; or that upon investigation, their ritual, ideals, and secrets should be strangely similar? These three societies banded to form an entity in 1872.

In this same year a group of students, who called themselves the Calumet Club, organized the first fraternity at Lehigh University—Chi Phi.

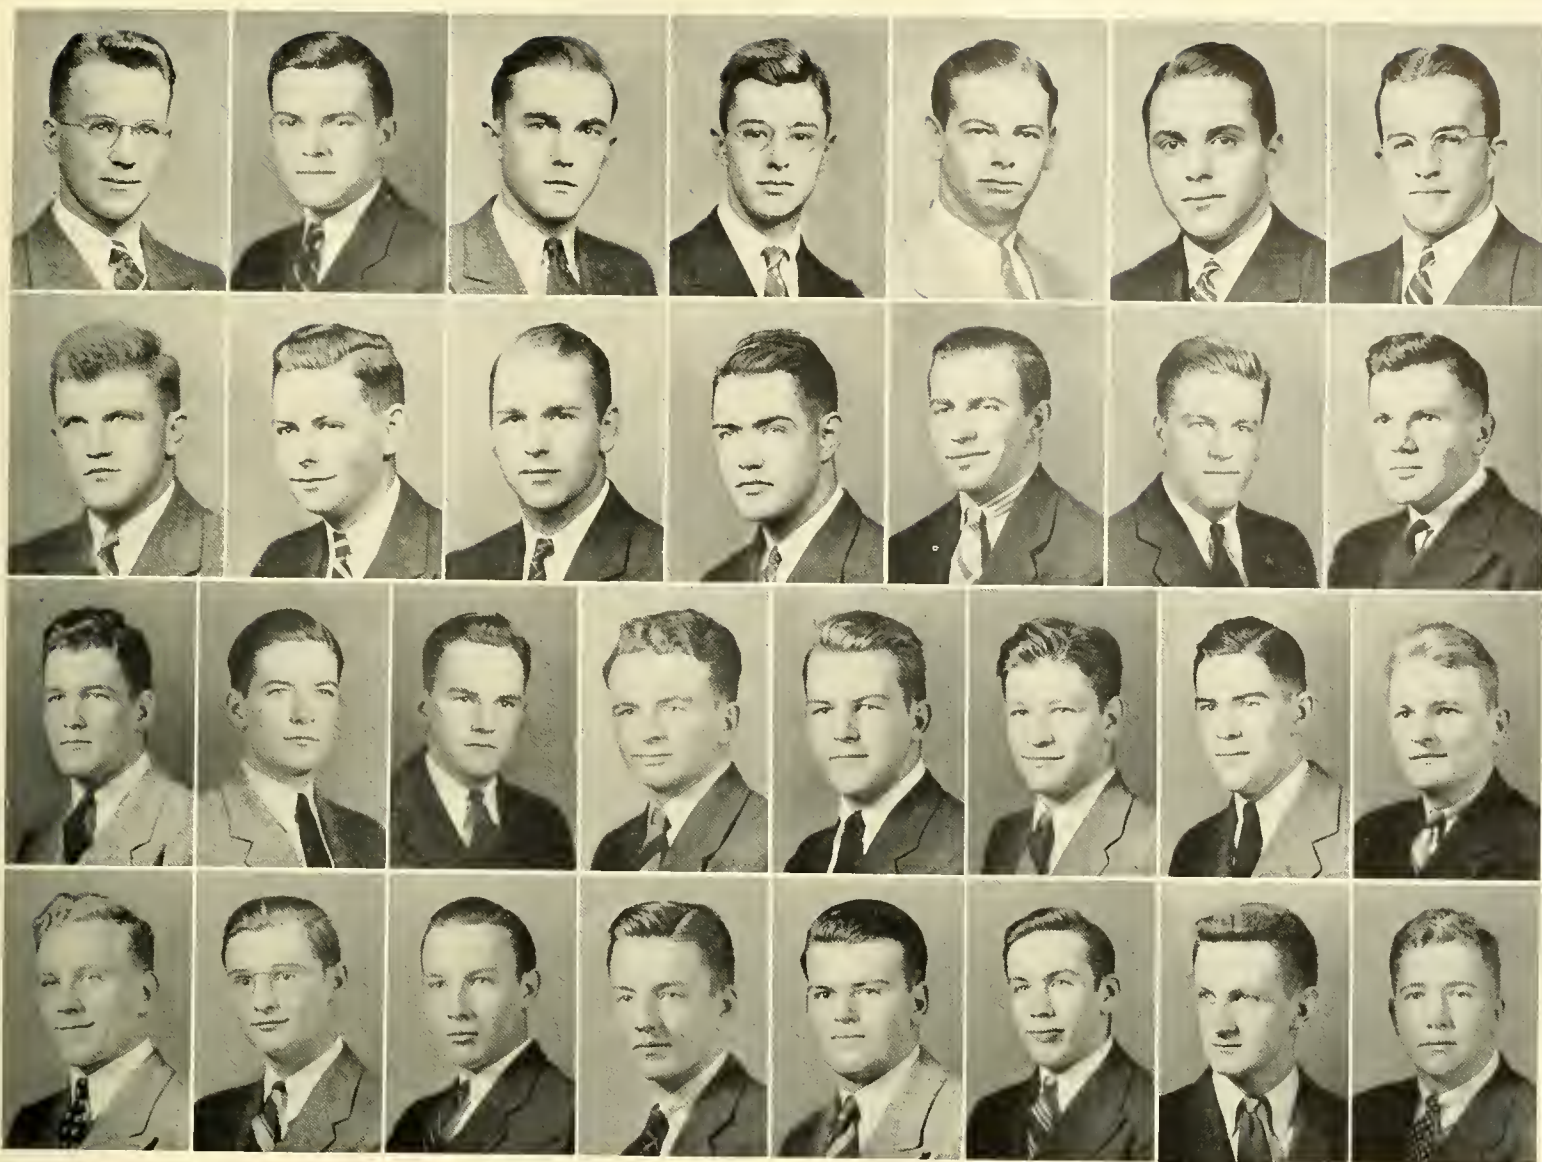

Outstanding Chi Phis in activities are Walt Wells and "Skeets" Russell, who both played on the varsity soccer team this year—the former, as captain and the latter, as co-captain elect. On the gridiron, Frank Elliott and Bill Fredrick, captain for the Penn game, played regularly for the junior varsity.

Walt Wells, Joe Conneen, and Jim Harris are three Chi Phi grapplers on the wrestling team. Tom Hamill, Frank Slate, and Jim Bright, last year's captain, greatly strengthened the Lehigh fencing squad.

In the way of honoraries, Dick Greenwell and Jim Bright were elected to Tau Beta Pi, while Walt Wells, vice-president of O. D. K., was elected to Alpha Kappa Psi.

The Chi Psi fraternity was founded at Union College in 1841. Adhering to a conservative policy in growth, Chi Psi has today twenty-five closely knit chapters throughout the country. Three bonds which keep the fraternity a nationally united organization are the alumni associations which exist in all the larger cities, a central office through which a quar-

terly magazine is sent to every living Chi Psi, and a fraternity visitor who keeps a direct contact between the various chapters.

Alpha Beta Delta of Chi Psi was founded at Lehigh in 1894. The fraternity moved into its present lodge in Sayre Park in 1915 and has ranked high on the campus since that time.

This year Chi Psi had the single honor of providing five of the twenty Lehigh students in "Who's Who in American Colleges;" namely Bob Yingling, Bill Weeks, Wally Watkins, Donald Luster, and Charlie Moesel who was also one of Lehigh's two candidates for a 1938 Rhodes Scholarship.

Chi Psis hold many positions on the campus such as: editor and advertising manager of the Brown and White; presidents of Tone, Brown Key, Pi Delta Epsilon, and Aero Club; managers of swimming, soccer, and hockey; and secretaries of Arcadia, Cyanide, Aero Club, and Pi Mu Epsilon. We have members in Tau Beta Pi, Pi Tau Sigma, Mustard and Cheese, and Alpha Kappa Psi.

The Delta Phi fraternity was founded at Union College on November 17, 1827, and was the third American college fraternity to be established.

Delta Phi has strictly adhered to its aims and purposes. It has been traditionally conservative in founding new chapters and has remained an eastern fraternity. Even in the East it has been conservative

in expansion, having only fourteen active chapters in leading colleges and universities.

Nu Chapter of Delta Phi, the fourth fraternity to be established at Lehigh, was founded in 1884 by six boys who believed that they might benefit by the fraternity's ideals of a small membership, thus effecting a more congenial and restricted group.

In all its activities and functions, Delta Phi has kept its membership small in order to effect a congenial group, working and thinking as one unit rather than as separate units. The success of this policy is apparent.

Delta Phis have always been active in campus activities: social, scholastic, and athletic. During the past year we have had men with the Glee Club, Mustard and Cheese, and Brown and White. There have been Delta Phis on the rifle, tennis, and soccer teams, and in various of the honorary societies.

The Nu Chapter at Lehigh has conformed to the aims of the national fraternity and has exemplified the fondest ideal of the founders of the society—Brotherhood.

DELTA SIGMA PHI

The Delta Sigma Phi fraternity was founded at the College of the City of New York on December 10, 1899. The mother chapter was first called Insula, but was later known as Alpha. The three original chapters at the College of the City of New York, Columbia University, and New York University formed a strong basis for expansion to the fifty

chapters throughout the United States and Canada.

Beta Theta Chapter originated from a society of engineers known at one time as Sigma Iota and later as Phi Delta Pi. In 1929, a house on Delaware Avenue was obtained, and, after petitioning to Delta Sigma Phi, a charter was granted in 1931. The present house on Packer Avenue was acquired in 1937.

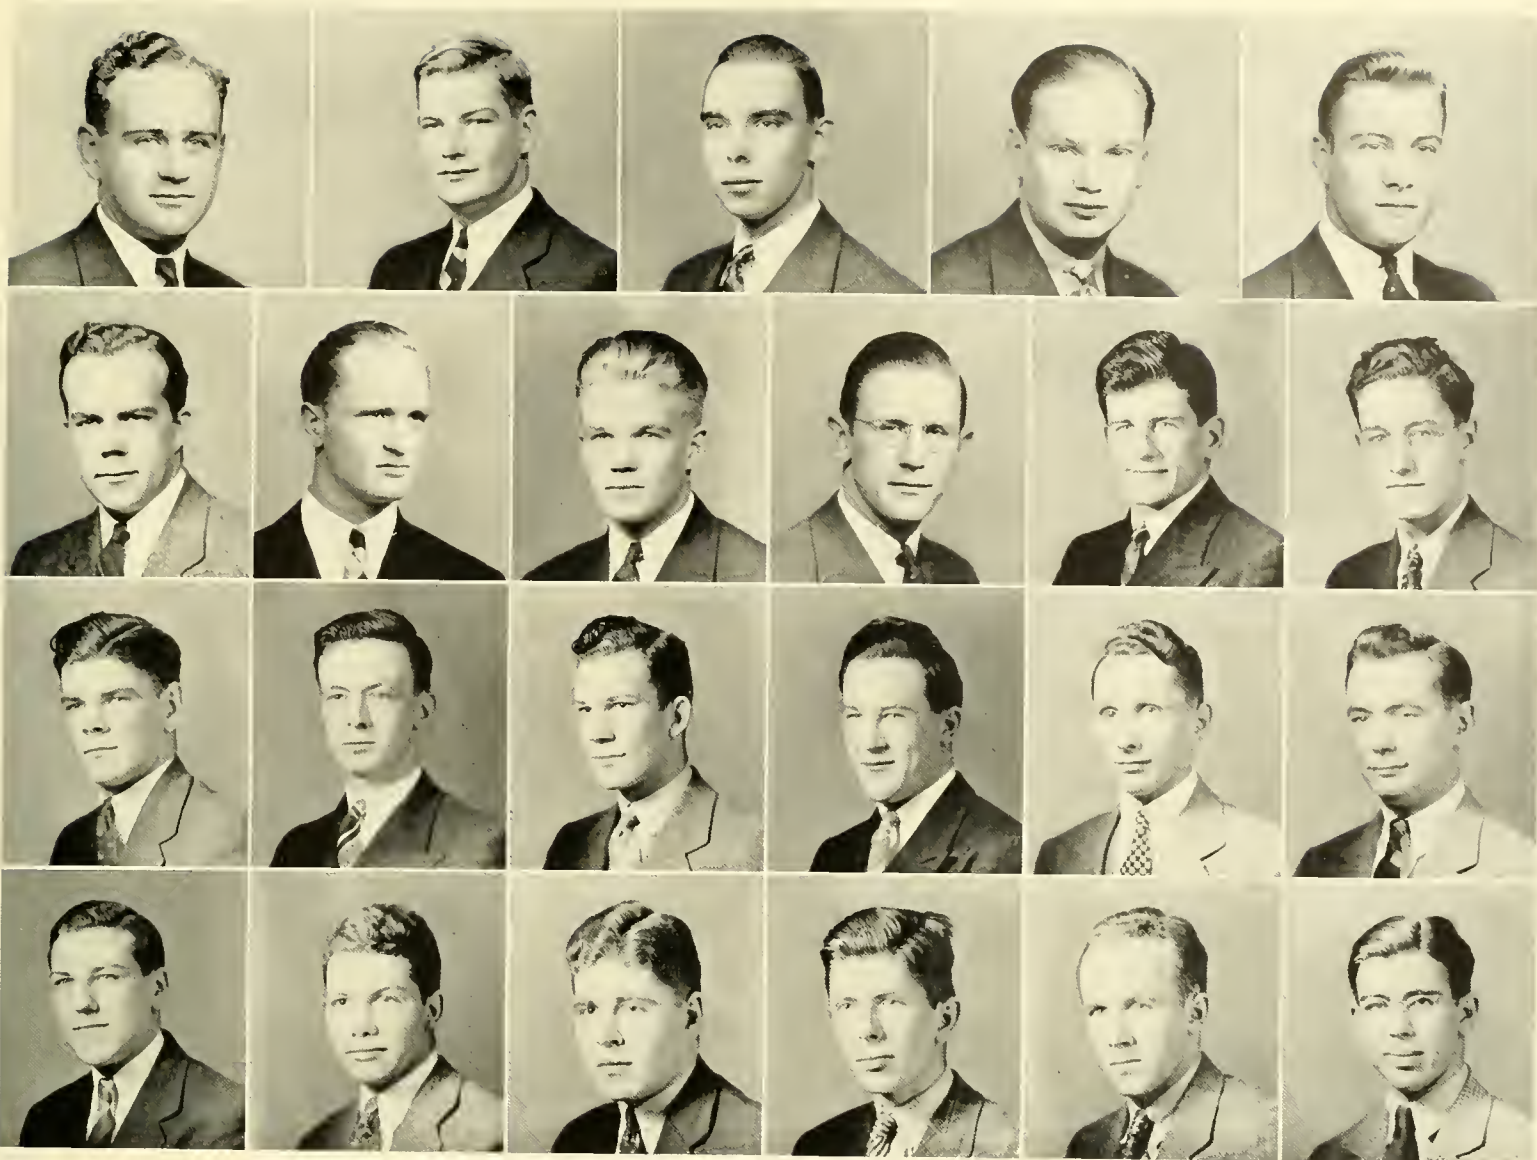

While Delta Sigma Phi has been at Lehigh for only a short time, it has played an important part in supporting the University's athletics and societies. We are proud to have outstanding players on the varsity football, basketball, baseball, and soccer teams, and on the Freshman soccer and basketball teams. A definite interest is taken by Delta Sigs in interfraternity sports, the house always turning out strong teams.

The honor of being elected to membership in such honorary societies as Phi Eta Sigma, Cyanide, Omicron Delta Kappa, Tau Beta Pi, and Phi Beta Kappa has come to several members of Delta Sigma Phi. We also have the student director and many members of the University Band.

DELTA TAU DELTA

Delta Tau Delta was founded at Bethany College, West Virginia, in the Spring of 1858, but it was not until the following Spring that an efficient organization was effected. In 1886 the Rainbow Society of the W. W. W. fraternity combined with Delta Tau Delta. The official organ of the fraternity is called "The Rainbow" in honor of this society.

At present there are seventy-four active undergraduate chapters, with a membership of over 3,000 and an alumni membership of over 30,000.

Beta Lambda Chapter was founded at Lehigh University in 1874. In 1914, after two residences in town, it moved into its present home, the second fraternity house to have been built on the campus.

At present, Delta Tau Delta is very active in every phase of student life. It has Ben Chadwick and Charlie Griffiths playing varsity football, and Whitey Elmer is captain-elect of the cross-country team.

The membership of Cyanide includes four Delts: Brown, Elmer, Griffiths, and Heisler, the last two being members of Alpha Kappa Psi also. Louis Glesmann is a member of Pi Tau Sigma.

Chadwick is vice-president of Mustard and Cheese, and Elmer, Glesmann, Hubschmidt, and De Bow are members. Strayer is vice-president of the Lehigh Sportsman's Club, and Ulmer is national advertising manager of the Review. Vogelsberg is a member of the Review board.

TOP ROW: Baker, '39; Chadwick, '39; Cheever, '39; DeBow, '39; Glesmann, '39; Greenwood, '39; Hubschmidt, '39; Jones, '39; THIRD ROW: Matheny, '39; Stone, '39; Brown, '40; Elmer, '40; Griffiths, '40; Heisler, '40; Johnson, '40; Motheral, '40; SECOND ROW: Shields, '40; Gunnison, '41; MacNamee, '41; Strayer, '41; Strode, '41; Ulmer, '41; Vogelsberg, '41; Weigel, '41; Wooters, '41; BOTTOM ROW: Britton, '42; Cox, '42; Croot, '42; Downing, '42; Freemann, '42; Mangan, '42; Marshall, '42; McClave, '42; Wolff, '42.

Delta Upsilon, the only non-secret Greek letter society in the country, was founded from an anti-secret organization known as the Social Fraternity, which was originally formed at Williams College, Massachusetts, in 1834.

In 1885, the Lehigh chapter of Delta Upsilon was installed by Charles Evans Hughes, Brown '81, now

Chief Justice of the United States. The present house has the distinction of being the first fraternity house to have been built on the campus.

The national fraternity now comprises sixty-one active chapters throughout the United States and Canada. The membership list of the Delta Upsilon fraternity totals over 30,000 members.

Because of the well-rounded interests of its members, the Lehigh chapter of Delta Upsilon has always succeeded in fulfilling its slogan of "Delta Upsilon in everything and every D. U. in something."

This year among the D. U.'s are the captains of wrestling and baseball, four football lettermen, the manager of cross-country and the junior managers of baseball and soccer, editor of the Epitome, president of the Sophomore class, two members of O. D. K. and three in each of the following organizations: Cyanide, Pi Tau Sigma, and the Glee Club. There are two D. U.'s in the Spiked Shoe Society and seven on the Brown and White. Also we have members in Alpha Kappa Psi and Pi Mu Epsilon.

Over a century ago nine students at Union College, realizing the need for an organization to promote closer friendships and brotherhood, founded the Kappa Alpha Society, the first secret fraternity to be founded in an American college.

Since that time the society has grown to include eight chapters. The Lehigh Chapter was formed,

mainly through the efforts of James E. Brooks, Henry E. Kipp, and Charles F. Maurice, in 1894. After almost a year of hard struggling, six members were initiated at the Masonic Temple in New York City.

The fraternity, having occupied several different homes, moved into its present lodge at the corner of Fourth and Seneca Streets in 1916.

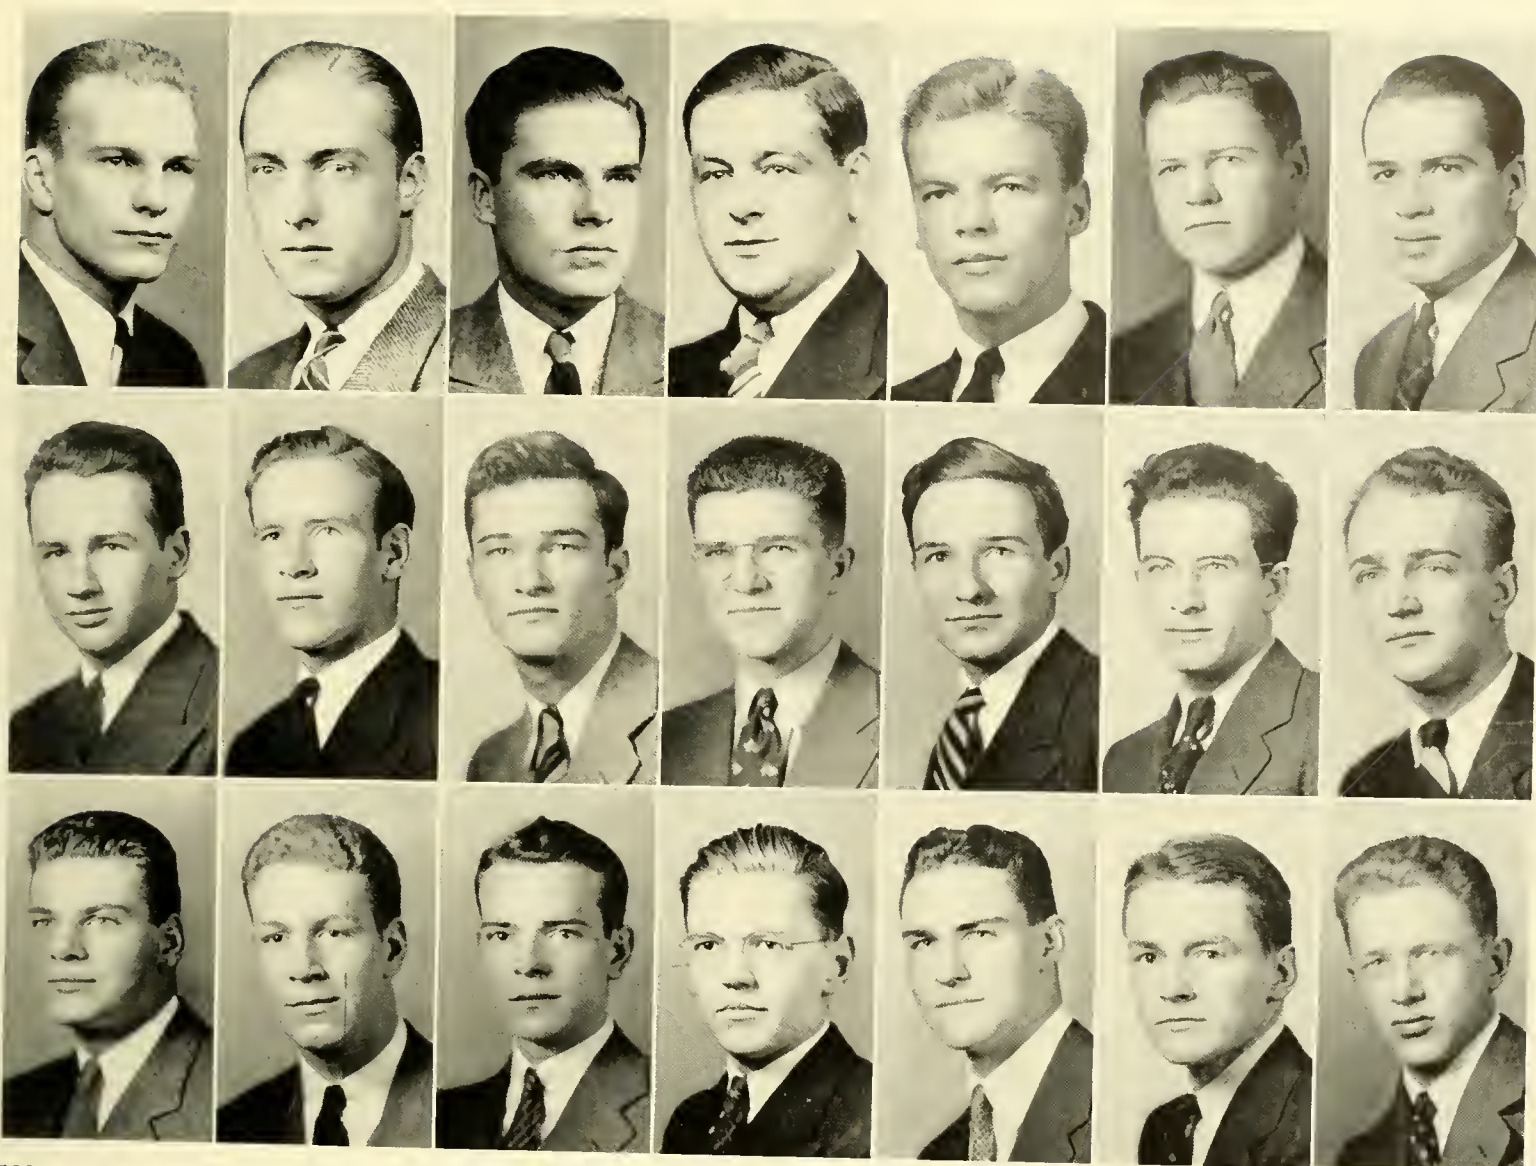

The present chapter of Kappa Alpha is very active in every phase of student life. It has the vice-presidents of Alpha Kappa Psi and Interfraternity Council, business manager of the Epitome, financial manager of the Review, president of Mustard and Cheese, secretaries of Tone and Brown Key, and the head cheerleader and a junior cheerleader.

In athletics we have members of the football, wrestling, and track squads, and manager and junior manager of tennis.

In organizations we have members in O. D. K., Arcadia, Pi Delta Epsilon, Scabbard and Blade, Band, Sportsman's Club, and the Glee Club.

In intermural sports the house has been a keen participant.

The Kappa Sigma fraternity was first established at the University of Virginia on December 10, 1869. Five men, who have since been called "the five friends and brothers," refused chances to join other societies and founded an organization of their own in order to further their friendship as a group.

The national organization is now one of the largest

fraternities, having over one hundred chapters.

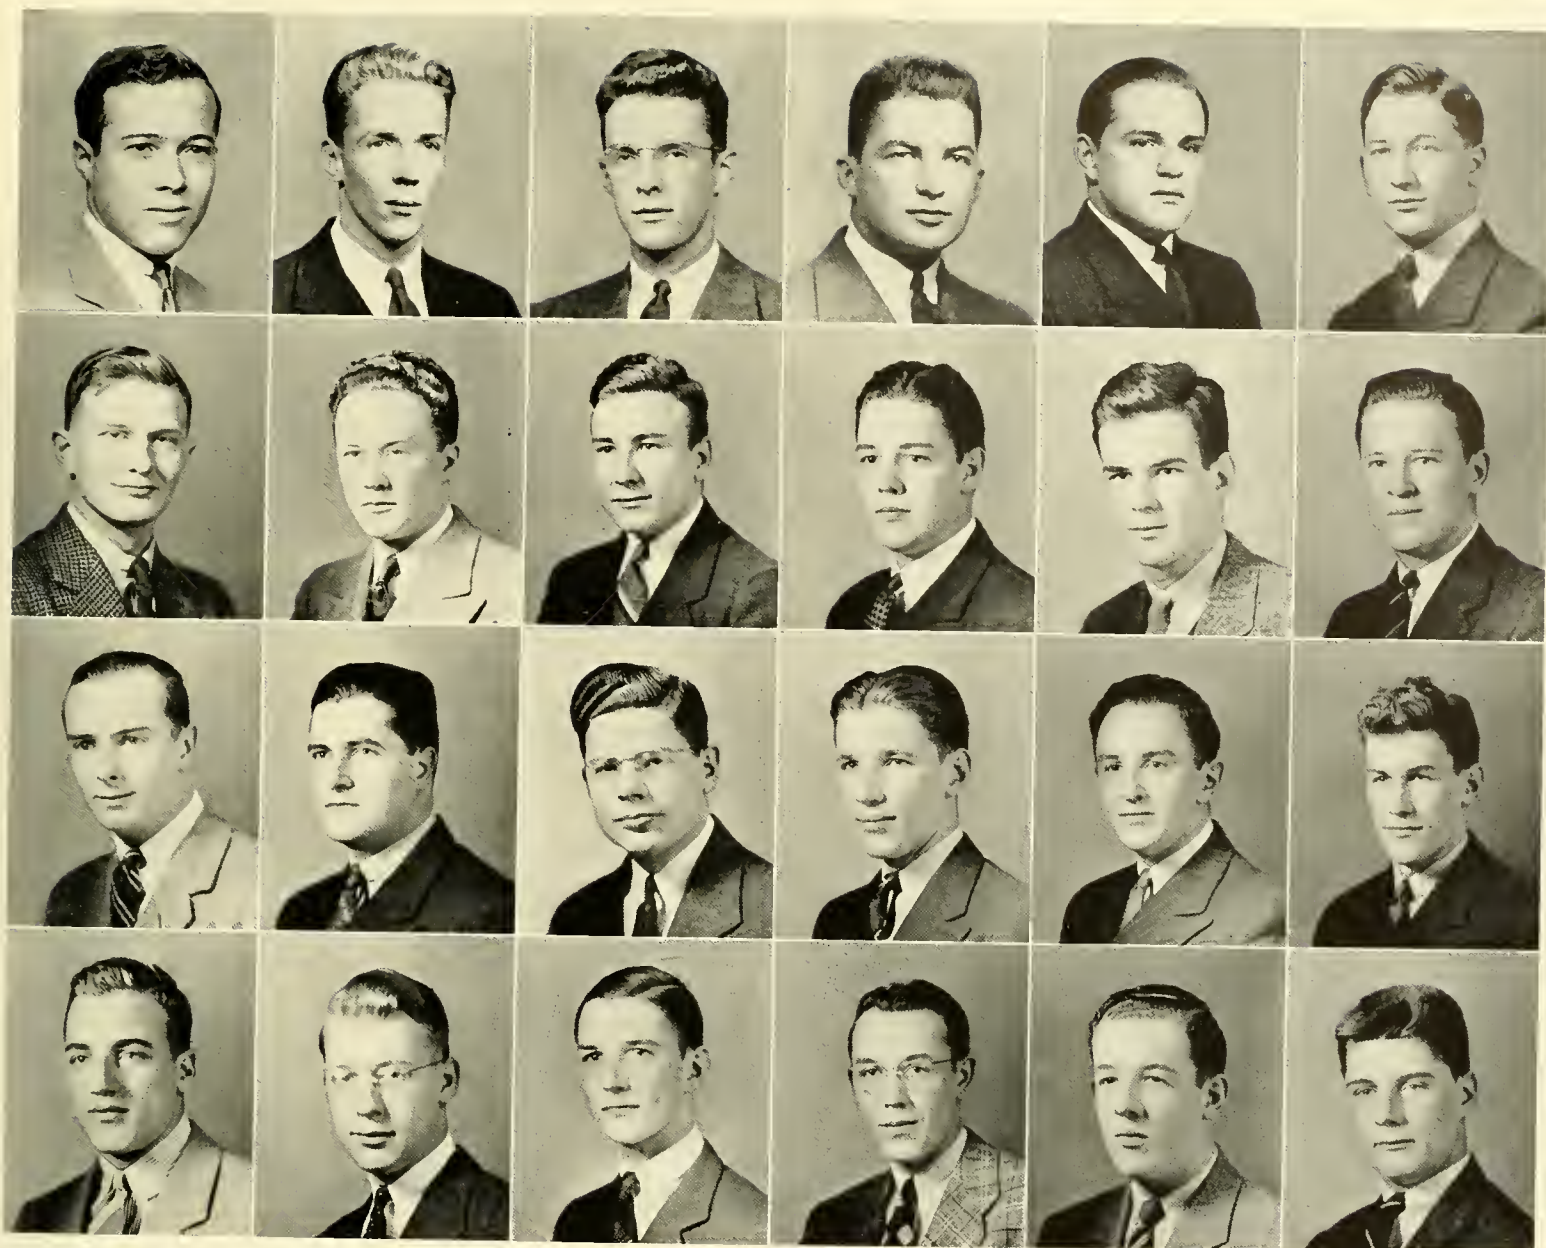

The Lehigh chapter, Beta Iota, was installed in Bethlehem on November 19, 1900. The first chapter house was located on Delaware Avenue. After moving to several different locations in Bethlehem, the Beta Iota Chapter settled in the present house, which is located at 24 East Church Street.

The scholastic attainments of the chapter have been continuously increasing, with the members pointing toward the ideal mixture of studies and activities. In the line of sports, the chapter has been very successful. It won all but one of its numerous games in interfraternity football.

Kappa Sigma is well represented on several of the varsity and Freshman athletic teams, and also in dramatics and journalistic activities. Some members have been competing for their numerals and varsity letters on the football, swimming, wrestling, and soccer teams. Other members have found enjoyment in being engaged in the activities of the several societies, one Kappa Sig having become vice-president of the A.S.M.E.

LAMBDA CHI ALPHA

The Lambda Chi Alpha fraternity was founded at Boston University, growing out of the Cosmopolitan Law Club, which had organized in 1905. On November 2, 1909, the first chapter, Alpha, was established and now over ninety chapters exist throughout the country.

Delta Theta, a local fraternity, was founded at

Lehigh University in 1922. This society formally petitioned the Lambda Chi Alpha fraternity in 1925, and the petition was accepted the following Spring.

On November 13, 1926, thirty men were initiated at Lehigh, thus establishing Gamma Psi Zeta Chapter of Lambda Chi Alpha. In 1927, the chapter moved to 515 Delaware Avenue.

The personnel of Lambda Chi Alpha has shown prominence in activities and honorary societies. Milt Grannatt as president of Interfraternity Council, member of Arcadia, Cyanide, and Alpha Kappa Psi, and as a letterman in tennis and basketball. Bill Bernasco is a member of Alpha Kappa Psi and manager of the swimming team. Art Cooke is manager of soccer.

Frank Kemmer is a member of Tau Beta Pi, on the Review board, editorial staff of the Brown and White, and in Mustard and Cheese Club. Dave Hughes has written the songs for the musical shows. The varsity football team has Joe Kaszycki as Lambda Chi's representative, and Hal Strohmman is on the junior varsity.

PHI DELTA THETA

The Phi Delta Theta fraternity was founded in 1848 at Miami University, Oxford, Ohio. The Bond of Phi Delta Theta contains the basic objects of the fraternity, which include friendship and the attainment of high moral and mental standards. During the Civil War the development of the fraternity slackened; however, today, Phi Delta Theta is proud

of the fact that it has a total of one hundred and seven chapters in the United States and Canada.

Pennsylvania Eta of Phi Delta Theta was founded on April 15, 1887, and initiated into the national fraternity by the Lafayette chapter. The present chapter house is located on the University campus, and was built by the alumni in 1917.

The members of Phi Delta Theta are well known on the campus for their activities in athletics and their memberships in honorary societies.

The chapter is well represented athletically by having its members in sports and managerships during the school year. Many Phi Delts are active in intra-mural sports, and the teams have succeeded very well. The football team won the championship of the University this past Fall.

The fraternity is also well represented in honorary societies, having such officers as: president of O. D. K., treasurer of Arcadia, secretary and treasurer of Alpha Kappa Psi, and chairman of the Junior prom committee. We also have men in Pi Delta Epsilon, Spiked Shoe, and Cyanide.

PHI GAMMA DELTA

In 1865 Major Frank Keck of the Columbia chapter conceived the idea of a Phi Gamma Delta chapter at Lehigh. The national fraternity, founded in 1848 at Jefferson College, had just begun a movement of expansion among the better American universities. Major Keck communicated with William Pierce, Chas. Butler, Manual Domenech, and Walter

McFarland, who were students at Lehigh. On the morning of January 15, 1886, Major Keck and some other Fijis installed the chapter at Lehigh.

Beta Chi's first house was on Market Street, but rapid growth of the chapter made it necessary to move to larger quarters on Cherokee Street. In 1922 the present home was built on the campus.

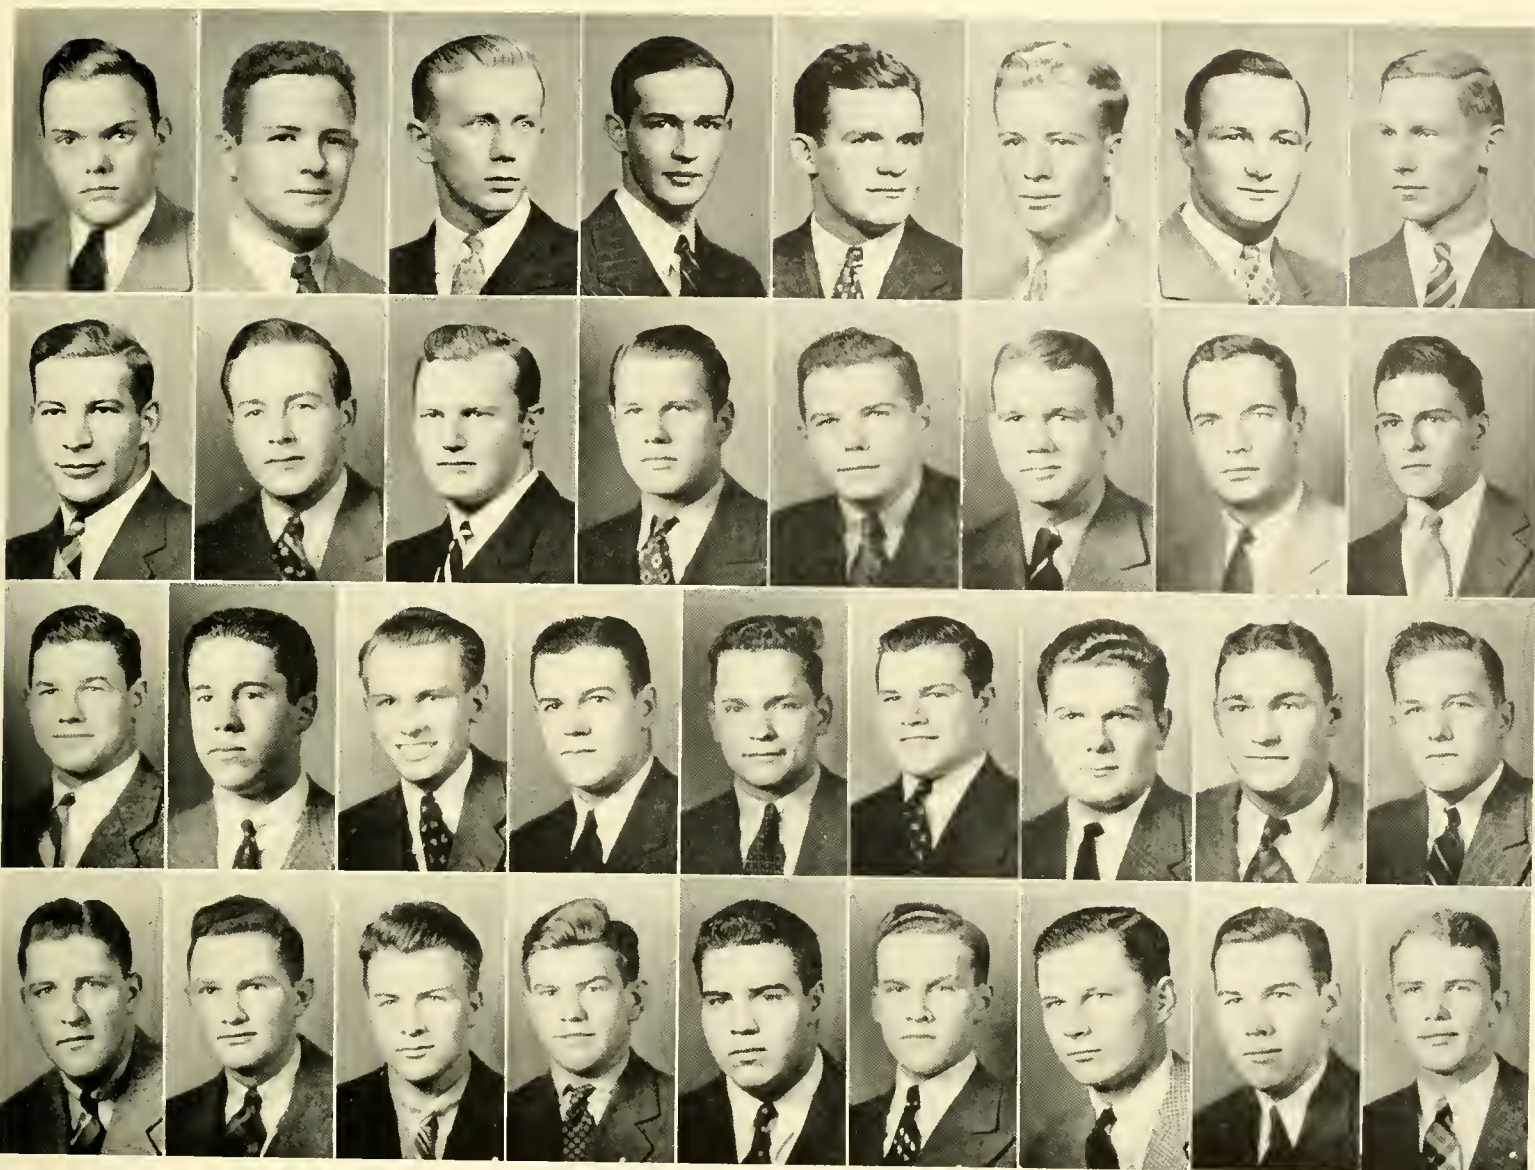

Phi Gamma Delta lettermen in football were Steve Smoke, George Melloy, Bill Simpson, Bill Hauserman, and Moose Synder. Dick Drake finished his third year of varsity basketball, and Franc Burnett is a varsity wrestler. Grant Stetson is captain of tennis, and Philbert Ralston won his letter in track.

Franc Burnett is president of Arcadia, and Chick Grant is president of the Senior class. Fijis are active in O. D. K., Pi Tau Sigma, Alpha Kappa Psi, Pi Delta Epsilon, Cyanide, Tau Beta Pi, and Scabbard and Blade.

George Rheinfrank was business manager of the Brown and White. Harry Leidich is chairman of the Freshman Handbook.

PHI SIGMA KAPPA

The Phi Sigma Kappa fraternity was founded at Massachusetts State College on March 15, 1873. The organization soon became one of the nationally organized fraternities in the country.

In 1900, after overcoming previous difficulties of their first few years in existence, there were twelve strongly organized chapters. The fraternity has de-

veloped, from these twelve, into forty-six chapters, giving Phi Sigma Kappa prestige among the established national fraternities.

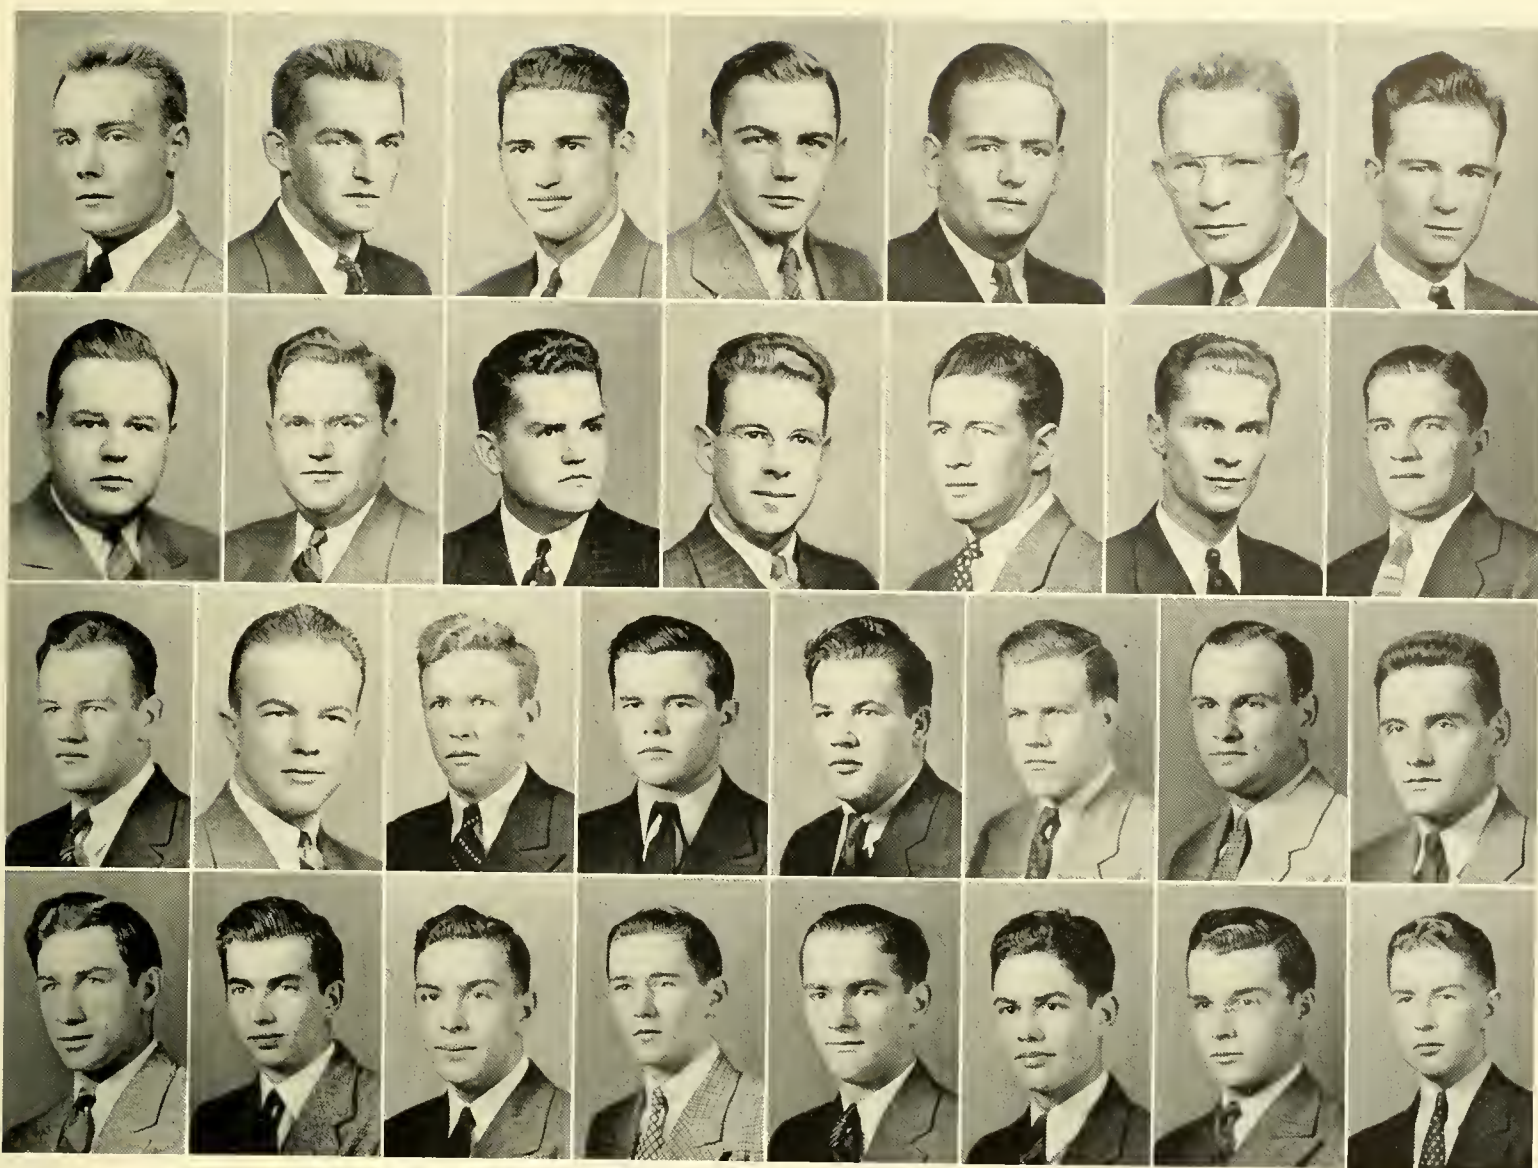

The Nu Chapter of Phi Sigma Kappa was founded at Lehigh thirty-eight years ago, and its career has been one of constant advancement in many lines. The chapter house is located on Delaware Avenue.

The Phi Sigs have been very active in varsity and intra-mural sports. For years there have been Phi Sig soccer players, and this year Gus Riemondy on the varsity and Ralph Moss and Hal Grubb on the Freshman team have done their bit. Interfraternity wrestling has been continually popular with Willy Danshaw and Dick Gorisse winning titles in their classes for the past two years. Danshaw also made a splendid showing on the Lehigh varsity football team.

The Phi Sigs are helping to push lacrosse at Lehigh, Ted Stankiewicz as a coach, and "Beef" Rodgers and Art Joecks as members of the squad. The team managerial staffs include Matt Sellers and Bob Taylor in soccer, and "Love" Loveland in football.

Pi Kappa Alpha was founded in 1868 at the University of Virginia. The convention of 1889, when only four chapters were represented, is generally known as the "second founding" and marked the beginning of the era of prosperity and growth of Pi K. A. Although dedicated to remain Southern, Pi Kappa Alpha increased its scope in 1909 with the

result that new chapters were soon established in all parts of the United States.

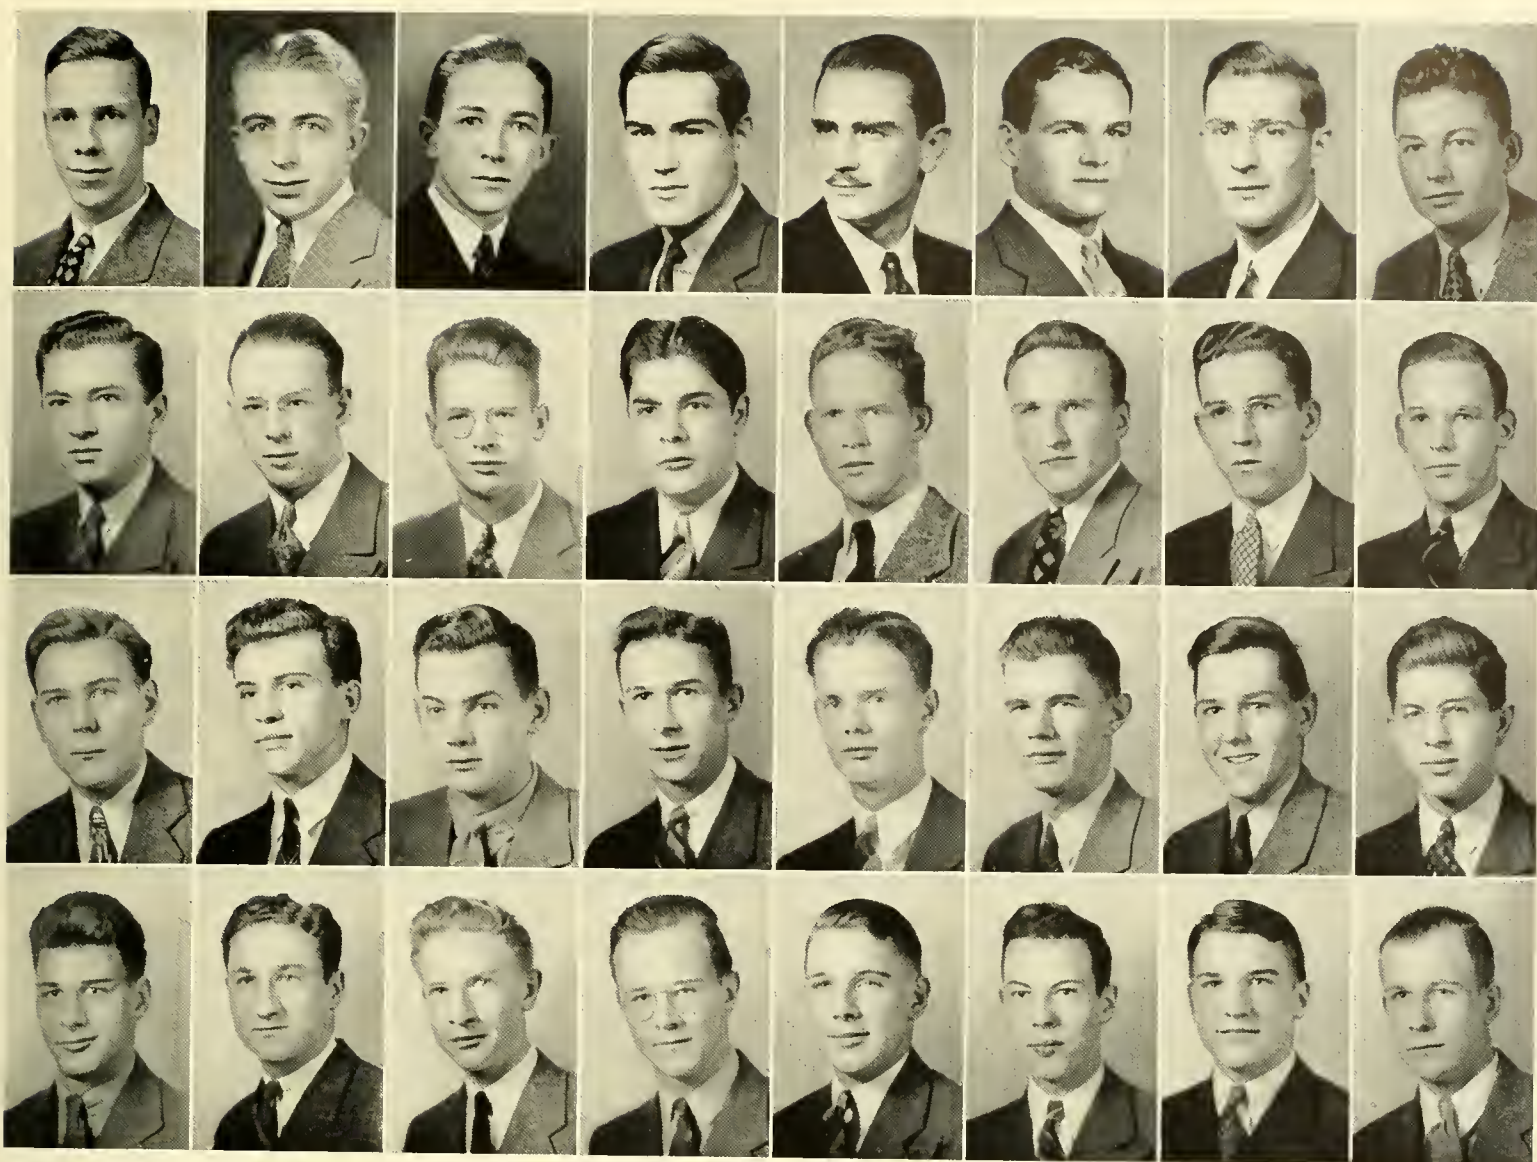

A group of students at Lehigh, dissatisfied with dormitory life, formed the Seal Club, later changing the name to the Lehigh Ivy Club. Several members of this club formed Zeta Chi, which was accepted in 1929 as Gamma Lambda of Pi Kappa Alpha.

The Engineer's basketball team had the valuable assistance of Alex Bupp, who also captained the house touch-football team to victory in our league. Bob Easton, the house president, is a member of Pi Tau Sigma and vice-president of Alpha Phi Omega. He founded the Lehigh Outing Club and was on the wrestling squad. Richards was a consistent winner for the track team. "How" Conner was a member of Pi Delta Epsilon and news editor of the Brown and White. Bob Felch was on the rifle and cross-country teams, and "Ace" Paget, a wrestling manager.

Pi Kappa Alpha also has representatives in the Band, Glee Club, Symphony Orchestra, Sportsman's Club, and Mustard and Cheese.

PI LAMBDA PHI

Pi Lambda Phi was founded at Yale University in 1895 by a group of undergraduates of various faiths for the main purpose of eliminating what they considered to be undue prejudice and sectarianism in American universities. The early growth of the fraternity was rapid, inasmuch as students in other colleges welcomed a non-sectarian fraternity.

In 1915, a group of Lehigh men, who had formed the Pioneer Club, petitioned Pi Lambda Phi for membership. The petition was granted in the same year, and the Lambda Chapter became a part of Lehigh University. The chapter has grown steadily since 1915, until at the present time it ranks among the largest fraternities in the University.

Pi Lambda Phi has always been very active on the Lehigh campus. The brothers were honored during the year by membership in Phi Beta Kappa, Omicron Delta Kappa, Robert W. Blake Society, and similar honorary societies. When it comes to athletics, both intercollegiate and intermural, Lambda finds its best representation having had men on the varsity football, wrestling, and tennis teams during the past year. The chapter has been a consistent winner in interfraternity swimming and wrestling, as well as in football and baseball.

On the activities side, Pi Lams have membership in Mustard and Cheese, Delta Omicron Theta, and the Lehigh Review.

Psi Upsilon was founded in November, 1833, at Union College, Schenectady, New York, by seven undergraduates who had resolved to counteract the tendencies of secret fraternities by a more liberal organization. The growth of the fraternity has been restricted to twenty-seven chapters now active in the United States and in Canada.

Psi Upsilon's history at Lehigh started when two faculty members of the fraternity interested several undergraduates to petition for a chapter in 1880. They formed a local Eta of Phi Theta Psi, which was installed as an active chapter of Psi Upsilon in 1884. The fraternity house, formerly located on Market Street, now borders the campus.

The most prominent activities of Psi Upsilon this year have been Mustard and Cheese, which includes Harry Brown, Court Carrier, Frank Norton, and Ed Hine; and Scabbard and Blade, in which Norton, Les Mahony, Carrier, and Bob Coleman are active members.

Court Carrier is Cadet Colonel of the R. O. T. C. regiment and president of Pi Tau Sigma. Norton and Carrier were both on the Military Ball Committee, the latter being chairman. "T" Grey is news manager of the Brown and White and in Pi Delt.

In athletics Monk Matthes, George Woelfel, and Bob Davies have been on the wrestling, swimming, and soccer teams respectively. Bill Hitchcock was on the Freshman football team.

TOP ROW: Brown, '39; Carrier, '39; Grey, '39; Mahony, '39; Norton, '39; Williams, '39; THIRD ROW: Coleman, '40; Hearsey, '40; Hine, '40; Jenkins, '40; Matthes, '40; Miller, '40; SECOND ROW: Mitchell, '40; Prudden, '40; Boyer, '41; Davies, '41; Jenkins, '41; Malloy, '41; BOTTOM ROW: Woelfel, '41; Davis, '42; Hitchcock, '42; Littlejohn, '42; McMillen, '42; Wetrich, '42.

SIGMA ALPHA MU

In the Spring of 1923, a local fraternity called Eta Alpha Phi was installed as the Sigma Kappa Chapter of Sigma Alpha Mu at Lehigh University. Up until the present time the chapter has occupied four different houses. The first one was located on Cherokee Street. Next, the home of Sigma Alpha Mu was established at the corner of Broadway and

Seminole Street. Then a move was made to a new house on Wyandotte Street in 1925. In 1926, under the leadership of "Czar" Nehmiah, the undergraduates purchased the present home at 506 West Third Street with the support of the alumni. Clement Shifreen was the first Prior of the chapter, and Robert Lewis is the present chapter advisor.

Outstanding among Lehigh's athletes this year were three Sigma Alpha Mu men: Marvin Kantrowitz, national junior doubles tennis champion; Kenny Herman, chosen by Coach Carpenter for his all-conference soccer team; and Elliott Small, veteran guard on Lehigh's football team for three years, Freshman line coach.

During the past year Sigma Alpha Mu has been well represented in various campus activities. Two men were elected to Mustard and Cheese while others were working in dramatic productions. The Lehigh Collegians were led by a Sigma Alpha Mu man, and we also had men in the Band. Scholastically the Sigma Alpha Mu fraternity has not ranked below fourth on the scholarship list for many years.

Established on June 28, 1855, at Miami University, Oxford, Ohio, Sigma Chi has grown to a total of ninety-eight chapters. On June 6, 1887, Alpha Rho was installed as the fifty-eighth chapter.

Unique in the history of the fraternity history was the founding of the Constantine Chapter during the Civil War. This society, composed of seven

"Sigs", lasted throughout the War.

In 1886 seven Lehigh students joined the Crimson Halberd Society which, in 1887, petitioned Sigma Chi for entrance and was immediately accepted. In 1890 the chapter languished, but was reinstalled in 1893. Since 1904 the house has been located at 240 East Broad Street.

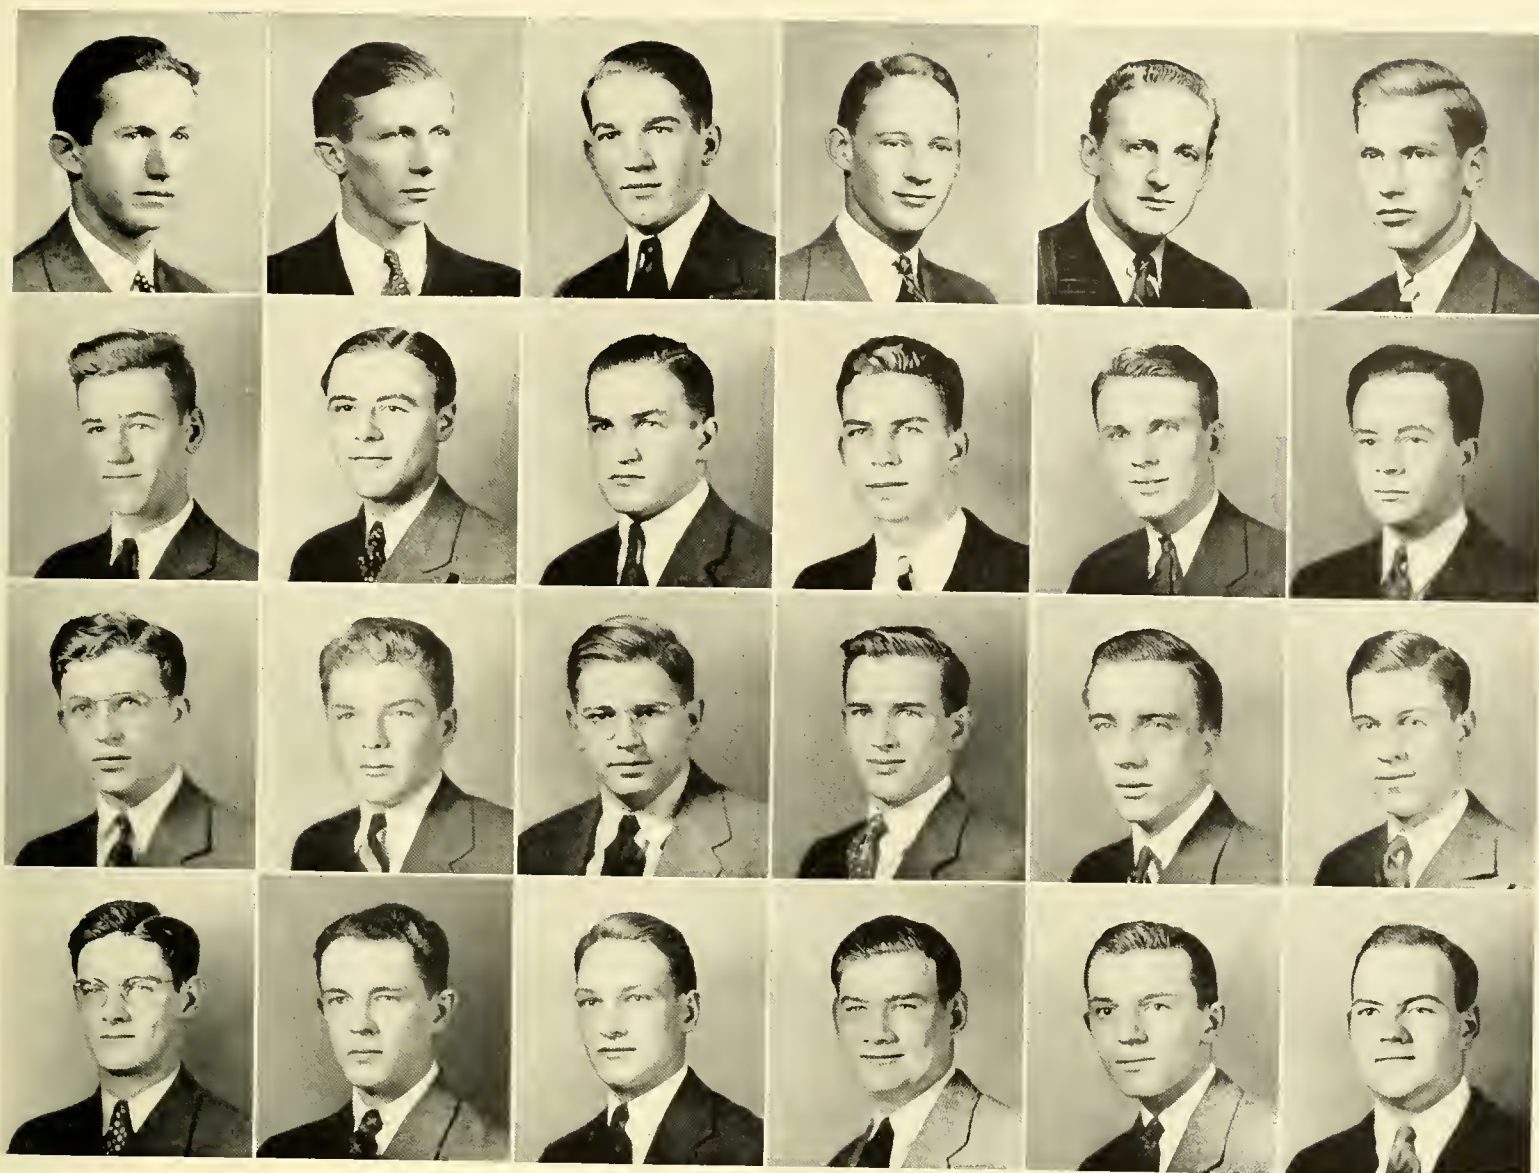

The activities of Alpha Rho members include representation in Eta Kappa Nu, Tone, Delta Omicron Theta, and Scabbard and Blade. Other interests reveal members in the Band, Combined Musical Clubs, Brown and White, and Epitome.

As for sports, Sigma Chi has men out for basketball, baseball, swimming, track, wrestling, fencing, football, and the rifle team. The chapter has always achieved merit in interfraternity football. This year we won in our league and were defeated in the semi-finals for the school title. We won the title the past two years.

Members of last year's teams and societies show promise to help distinguish Alpha Rho of Sigma Chi in her activities again next year.

The Legion of Honor was organized in 1868 at the Virginia Military Institute by three cadets in order to combat the unrivaled control by other secret societies on the campus. On January 1, 1869, this society received its Greek name, Sigma Nu, and adopted, at the same time, all the characteristics of a college Greek letter fraternity.

Sigma Nu expanded in the South only until 1885 when the Pi Chapter, the fifteenth, was founded at Lehigh. For ten years, with the exception of a short lived chapter at Yale, Pi Chapter stood alone in the East. The present house at Lehigh, almost entirely rebuilt in 1938, has the distinction of being one of the first fraternity houses on campus.

Sigma Nu is represented on almost every athletic team and in almost every society or activity at Lehigh. Included in the members of Pi Chapter are the manager of wrestling and letter winners in five sports, track, baseball, football, soccer, and swimming. Sigma Nu freshmen were in football, wrestling, and track.

Included in the house are the sergeant, first lieutenant, and three members of Scabbard and Blade, four men in the Glee Club, International Relations Club, and Newtonian Society, two members of Tone, one member of Mustard and Cheese, Epitome, and Phi Eta Sigma, and five men on the Brown and White, including a news-editor. All the pledges were initiated in February.

The Sigma Phi society, founded at Union College in 1827, is the second oldest social fraternity. It claims distinction for being the oldest national fraternity, having expanded to Hamilton in 1831.

Conservative by nature, the society has limited its expansion to ten chapters founded consecutively at Union, Hamilton, Williams, Hobart, Vermont,

Michigan, Lehigh, Cornell, Wisconsin, and California.

The 26 members of Beta Beta, a local fraternity, were installed as the Alpha of Pennsylvania of Sigma Phi in 1887, and formed the ninth chapter of a national fraternity at Lehigh. The present chapter house on Delaware Avenue was erected in 1888.

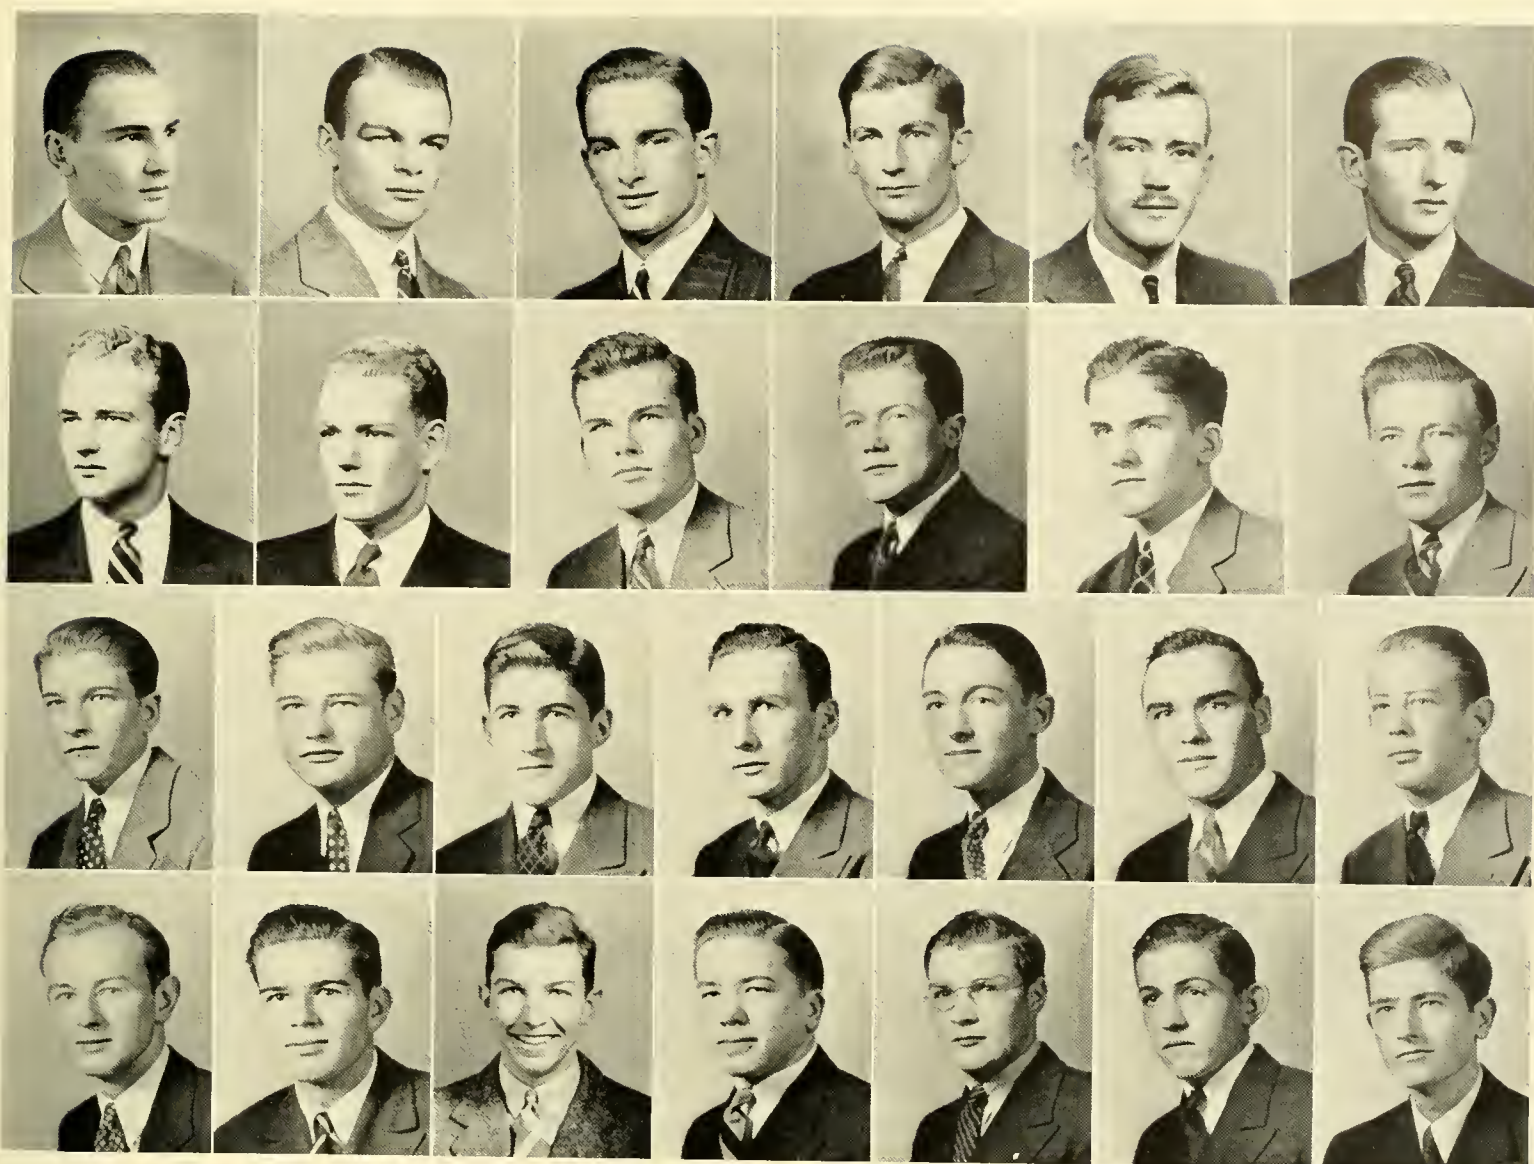

Sigma Phi has retained its usual prominence in campus activities this year. It has members out for varsity and Freshman sports, as well as such extra-curricular activities as the Review, Mustard and Cheese, Alpha Kappa Psi, Scabbard and Blade, and Pi Tau Sigma. Among prominent Sigma Phis are the business manager and ticket manager of Mustard and Cheese and advertising manager of the Lehigh Review.

A Sigma Phi was chairman of the Engineer's Ball and Union Triad Dance Committees, and the fraternity was also represented on the Senior Ball Committee.

Of importance among Sigma Phi's activities was the victory over the Kappa Alphas in football.

SIGMA PHI EPSILON

Sigma Phi Epsilon, one of the ten largest national fraternities, was founded at the University of Richmond in 1901. The heart-shaped badge formerly caused the members to be called "Sacred Hearts", but today they are popularly known as "Sig Eps".

In 1907 sixteen members of a local society, Omega Pi Alpha, obtained a charter and became

the Pennsylvania Chapter of Sigma Phi Epsilon. It was the seventeenth of the eventual seventy chapters.

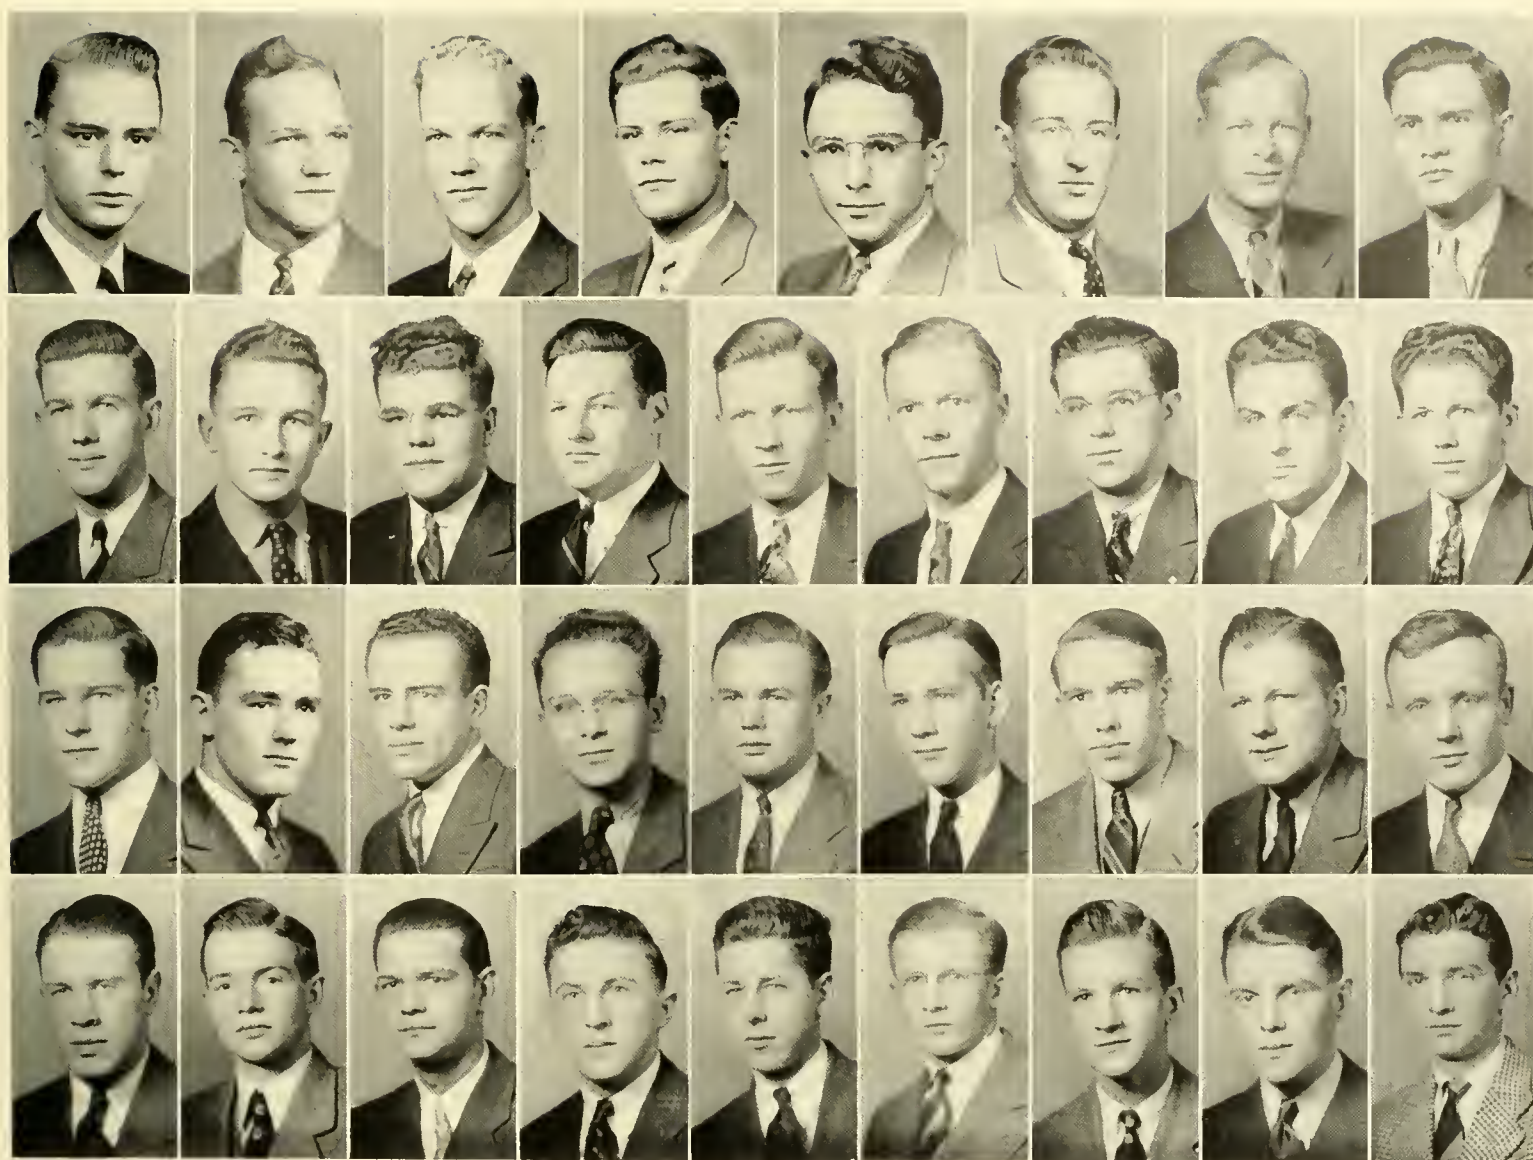

The first Lehigh chapter house was located on West Fourth Street, but was later moved to the corner of Fourth and Wyandotte Streets. In 1923 the present house on West Market Street was taken.

Every year Sig Eps are influential in the University activities and are above the average in scholastic standing. They have held offices on the Brown and White, Lehigh Review, Epitome, and in Mustard and Cheese. The athletes are on the football, baseball, wrestling, soccer, track, and cross-country squads. O. D. K., Alpha Kappa Psi, Pi Delta Epsilon, Scabbard and Blade, and Tau Beta Pi are honorary societies which have Sigma Phi Epsilon men among their members.

The spirit of internal friendship, continually evident in Sig Eps, is considered even more valuable than the high standard which the fraternity maintains at Lehigh. Among its members there is a common understanding, "Once a Sig Ep always a Sig Ep".

TAU DELTA PHI

Tau Delta Phi was founded at the College of the City of New York in 1910 and was designed to be a local organization. However, in 1914 a chapter was established in New York University and in 1916 the two chapters decided to adopt a policy of cautious expansion.

In 1926 a group of Lehigh undergraduates organ-

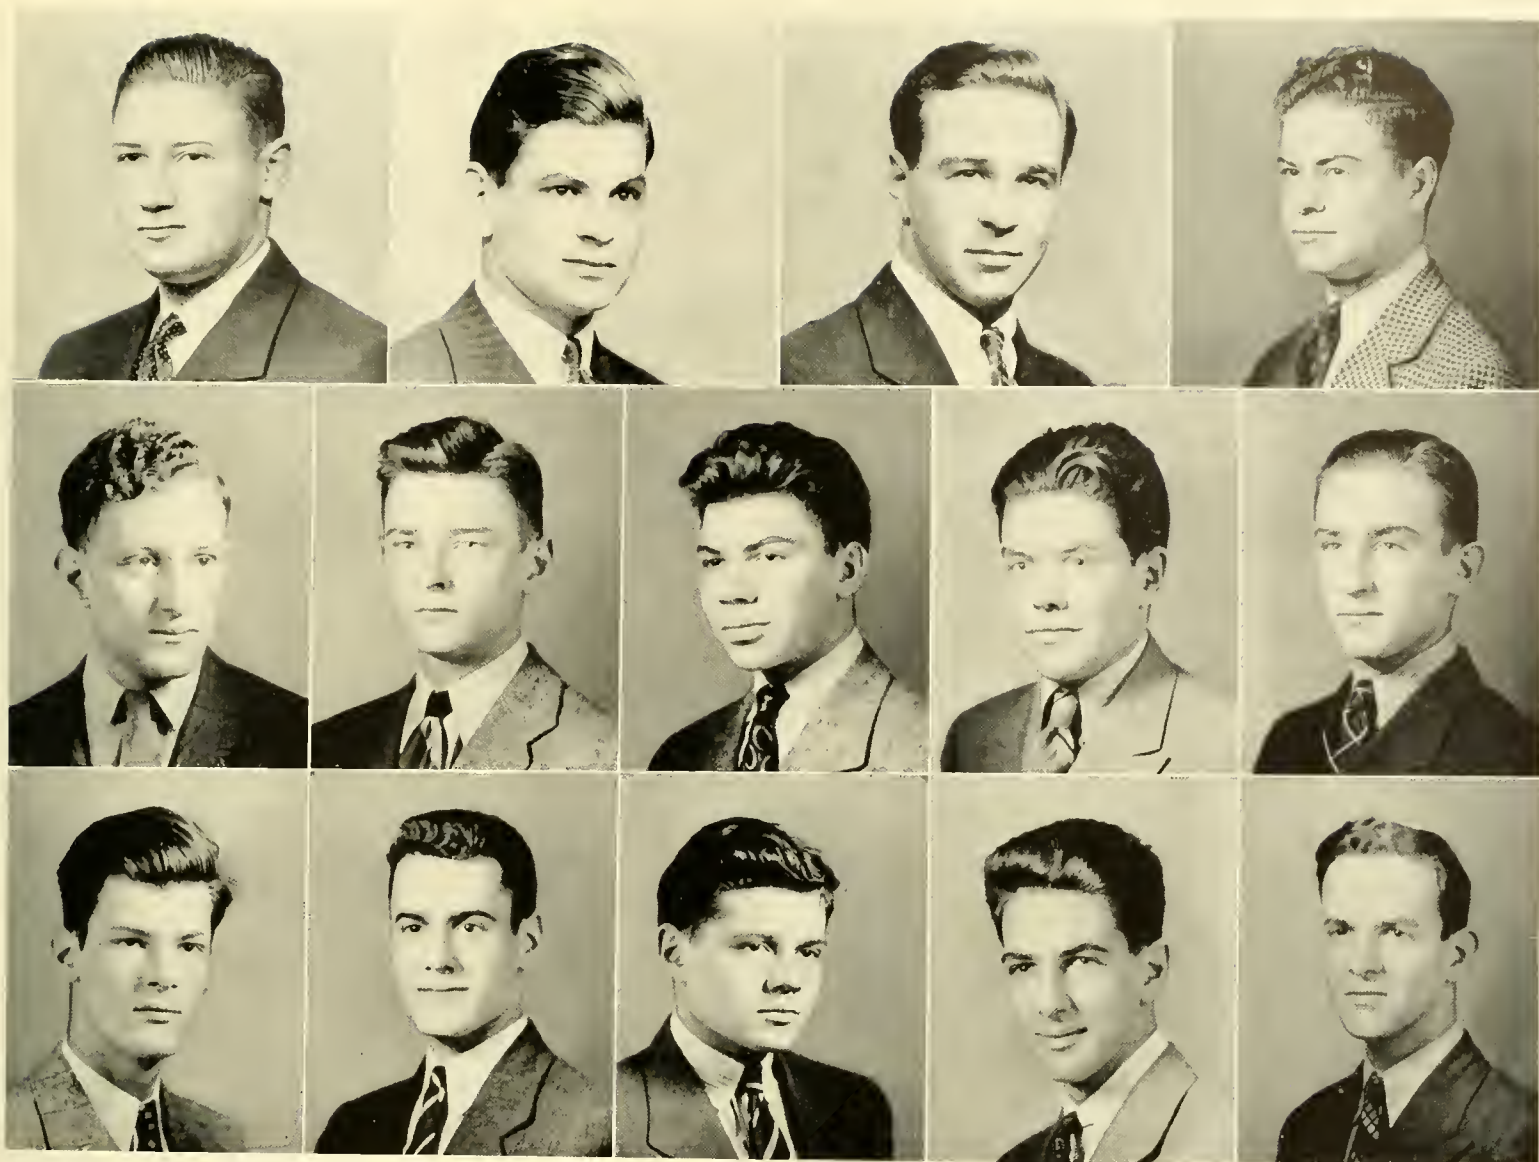

ized a local group called Upsilon Kappa. The group prospered so in 1927 it petitioned the Tau Delta Phi fraternity for membership and the charter was granted the same year.

In 1935 Omicron Alpha Tau, a national fraternity, merged with the Tau Delts and now there are twenty active chapters throughout United States.

In the past few years there have been representatives of Tau Delta Phi in nearly every activity on the campus. The group has seen two changes occur within its bounds: the trend towards Business and Arts has moved to Engineering, and the former power in athletics has moved to honorary societies. There have been men in O. D. K., Tau Beta Pi, Phi Beta Kappa, Scabbard and Blade, and Phi Eta Sigma. There have been editors of all three publications, and members of every athletic team. Among last year's activities was the presidency of Phi Eta Sigma. The Phi Sigma Kappa cup for the highest scholastic fraternity of the University was awarded to Tau Delta Phi. At present the fraternity national cup is ours.

THETA DELTA CHI

Theta Delta Chi was founded on October 31, 1847 at Union College, and was the twelfth national fraternity to be established. The fraternity consists of twenty-eight active charges throughout the United States and Canada. Limited membership has always been the policy of the fraternity. Theta Delta Chi, becoming leaders in the fraternity world,

was the first to originate pledge buttons, the fraternity flag and magazine, and the present grand lodge form of national fraternity government.

Nu Deuteron Charge was the fifth national fraternity established at Lehigh, having been founded in 1884. The present house, located on South Mountain, was built in 1919 and enlarged in 1937.

Interest in extra-curricular activities was shown by Theta Delta Chi as various athletics and honorary societies were well represented.

Jim Carringer captained the golf team and Andy Martin was manager. Leo Hesselman was a member of Alpha Kappa Psi, and Dan Knowland was active on the varsity swimming team.

Other active members were: Charlie Cole, Brown and White; Ed Dannemiller, Scabbard and Blade; Rudy Kremer, track team; Ed Brindle, junior varsity football; and Bob Leavens and Matt Morris were out for intra-mural debating. Stuart Lewis was secretary of Pi Tau Sigma, member of the International Relations Club and Scabbard and Blade.

THETA KAPPA PHI

During the year 1916 a group of Lehigh students found themselves frequently together and certain of them, recognizing the mutual congeniality of the group, started a movement to bring about a binding organization. Just what form the group was to take was never known, for it was disbanded by the war.

Shortly after the war, the organization was taken

up again by the men who had returned to finish their courses, and on October 1, 1919, Theta Kappa Phi was founded.

Amalgamation with a prominent local fraternity at Penn State College was accomplished in 1922, thus beginning the expansion of Theta Kappa Phi to thirteen active chapters and ten active alumni clubs.

The Alpha Chapter of Theta Kappa Phi does not push men into activities. Nevertheless, individual members are active in extra-curricular activities, including publications, dramatics, and various athletics.

As for athletics, the fraternity is represented by men on the tennis, swimming, wrestling, and football teams. One member is manager of track and others are competing for the managementships of wrestling, football, and track. The Alpha Chapter has also participated in intra-mural sports, winning honors in football and softball.

Several of the members are high in scholarship, and have received scholastic honors as well as membership in various honorary societies.

The Theta Xi fraternity was founded at Rensselaer Polytechnic Institute on April 29, 1864. It was the result of two dissenting factions within the then existing Sigma Delta fraternity, a local organization at Rensselaer. Eight of these dissenters withdrew from Sigma Delta and founded a new society, with the intention of making it national in scope. After

a long period of conservative growth, it now has thirty-six active chapters in leading colleges.

Fourteen charter members were initiated on December 3, 1903, and since that time more than 300 men have received initiation into the Eta Chapter. After various chapter houses, the present one at 407 Delaware Ave., was obtained in September, 1928.

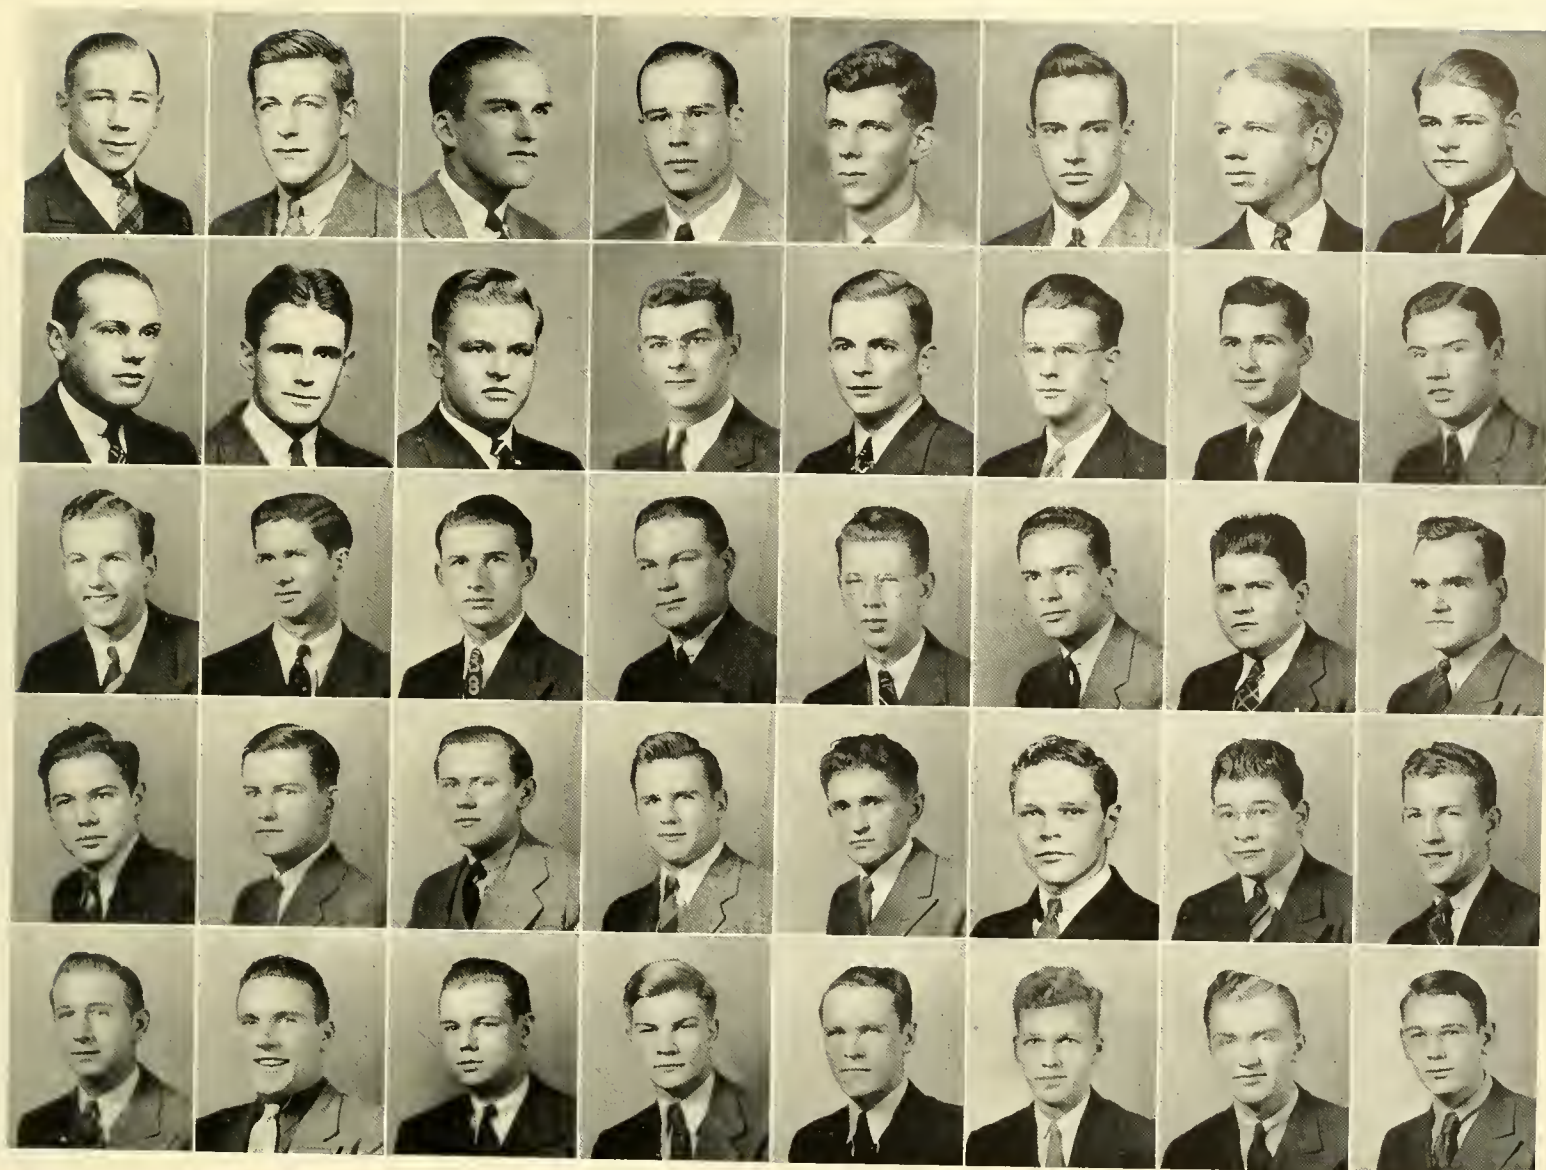

Theta Xi fraternity this year, as usual, produced its share of outstanding men in campus activities. Although we were an active social fraternity—not specializing in sports—we were well represented in this field.

Collectively we produced high ranking intra-mural teams in football, basketball, bowling, and baseball. Individually we well represented Theta Xi in many sports, especially swimming, football, and baseball.

The interests of the members are many and varied. We have our share of sport managers. National and local honoraries are also well represented.

There are Theta Xis in such musical organizations as the Band, Orchestra, and Glee Club.

George A. Albrecht,
President of the Interdormitory Council and Section-chief, Taylor Hall, D.

The enlargement of the dormitory system at Lehigh made apparent the need for an organized dormitory governing body. This need has been met by the creation of the Interdormitory Council which was organized in 1938 by George Albrecht, representative of the dormitories in Arcadia of Lehigh University, the student governing body. The purposes of the Council are: "to provide a higher tribunal in which dormitory matters may be discussed, to carry on and develop more fully dormitory social

TOP ROW: Kurtz, Lesser, Beardslee, Tilton; SECOND ROW: Heller, Santmyers, Hart, Cardwell, Stopp; BOTTOM ROW: Hartman, Saussaman, Albrecht, Kelley, Reid.

INTER

John D. Saussaman, Secretary of the Interdormitory Council and Section-chief of Taylor Hall, E.

George E. Kelley, Treasurer of the Interdormitory Council and Head of Price Hall.

and intramural functions, to work for a more cohesive and cooperative relationship among dormitory men, and to serve as a coordinating body between the dormitories and the University."

The Council is composed of elected leaders who are the official representatives of their living groups. A cooperative relationship is maintained with the student governing body of the University since the constitution of the Interdormitory Council provides that the Council president is also dormitory representative on the Arcadia Cabinet.

The Interdormitory Council provides an incentive for higher dormitory scholastic achievement by presenting a scholarship cup to the dormitory section which attains the highest living group average. Intramural trophies are awarded to those dormitory living groups which excel in the various intramural sports. Champion of the dormitory league plays the winner of the fraternity league to decide the school championship.

At the Fall and Spring houseparties, the Council sponsors an Interdormitory dance which is open to all students of the University.

Through the medium of a Public Relations Committee, the Council is able to develop more adequate public recognition of dormitory functions and achievements. Through the Council dormitory men have successfully developed the "esprit de corps" and cooperation so essential in every well organized living group. In its first year of organization the Council has proved its worth by getting the dormitory sections, who here-to-fore acted as individual groups, to unite as a single body.

List of members can be found on page 302.

Nelson P. Yeardley.

SENIORS

Arnold M. Bloss, Holland H. Donaldson, Jr., Ralph W. Helwig, George E. Kelley, Andrew J. Stanchick, Harry Tanczyn, Eric Weiss.

JUNIORS

John Branch, Richard F. Clock, Carl R. Fittkau, Robert F. Koenig, Russell Kowalyshyn, Arthur D. Partrick, Charles T. Schrader, Raymond M. Smith, Robert B. Spilman, Gordon E. Tait, Robert F. Wolfe.

SOPHOMORES

Wilbur Chase, Jr., Donald Eadie, Claude D. Gilchrist, Edward M. Gilmore, Louis G. Gitzendanner, Raymond C. Huntoon, Thomas J. Lewis, Jr., George F. Messinger, John H. Mowen, James M. Phelan, Robert L. Schaffer, Leonard E. Schork.

FRESHMEN

Harry M. Atkins, Richard R. Bright, Leon H. Rathbun, Jr., Nicholas T. Scott, Edward P. Vollherbst, Jr., Kurt H. Weber.

Price Hall has served the University as a dormitory since the World War. It was named in honor of Dr. Henry R. Price, former president of the Board of Trustees. The building was erected as a brewery in the late 1800's and was known as "Die Brauerei." Lehigh students of former years regarded their relationship with "Die Brauerei" as an indispensable extra-curricular activity. "Die Brauerei" to Price Hall—production to consumption—the history of a dormitory.

RICHARDS

High above the Armory it stands, a sprawling mass of stone formed by collegiate gothic architecture into Richards House. The unsullied walls and smell of fresh paint proclaim its newness and tell the world it has no traditions to revere.

But Richards House needs no tradition. It is not of the past but of the present and the future. It is not the ending but the beginning of a plan to bring Lehigh men together on the campus. It is the solidified dream of a stern, little man who wanted the many students spurned each year by the fraternities to have a better, more attractive place to live.

Charles Russ Richards is a stranger to present Lehigh men. He left before the class of 1939 arrived. But Dr. Richards, who now lives in Minneapolis, built the present day "Greater Lehigh" in his 13 years as president. And to him a "Greater Lehigh" always included a new dormitory, not one dormitory but seven grouped together on the hill below the Lookout. To promote his idea he had a model of this project placed in Memorial hall of the Alumni building. Then he waited with the hope that sometime, from somewhere, he could get the money that would make his dreams come true.

But Dr. Richards waited in vain. His health failed him and he resigned. Two years later, Lehigh was still growing, and the trustees had money — money which they could not invest advantageously. Then President C. C. Williams suggested erection of the first dormitory unit on a plan that would assure the University a satisfactory return on its money. Soon Richards House was underway. Soon it was completed and furnished at a cost of nearly \$300,000.

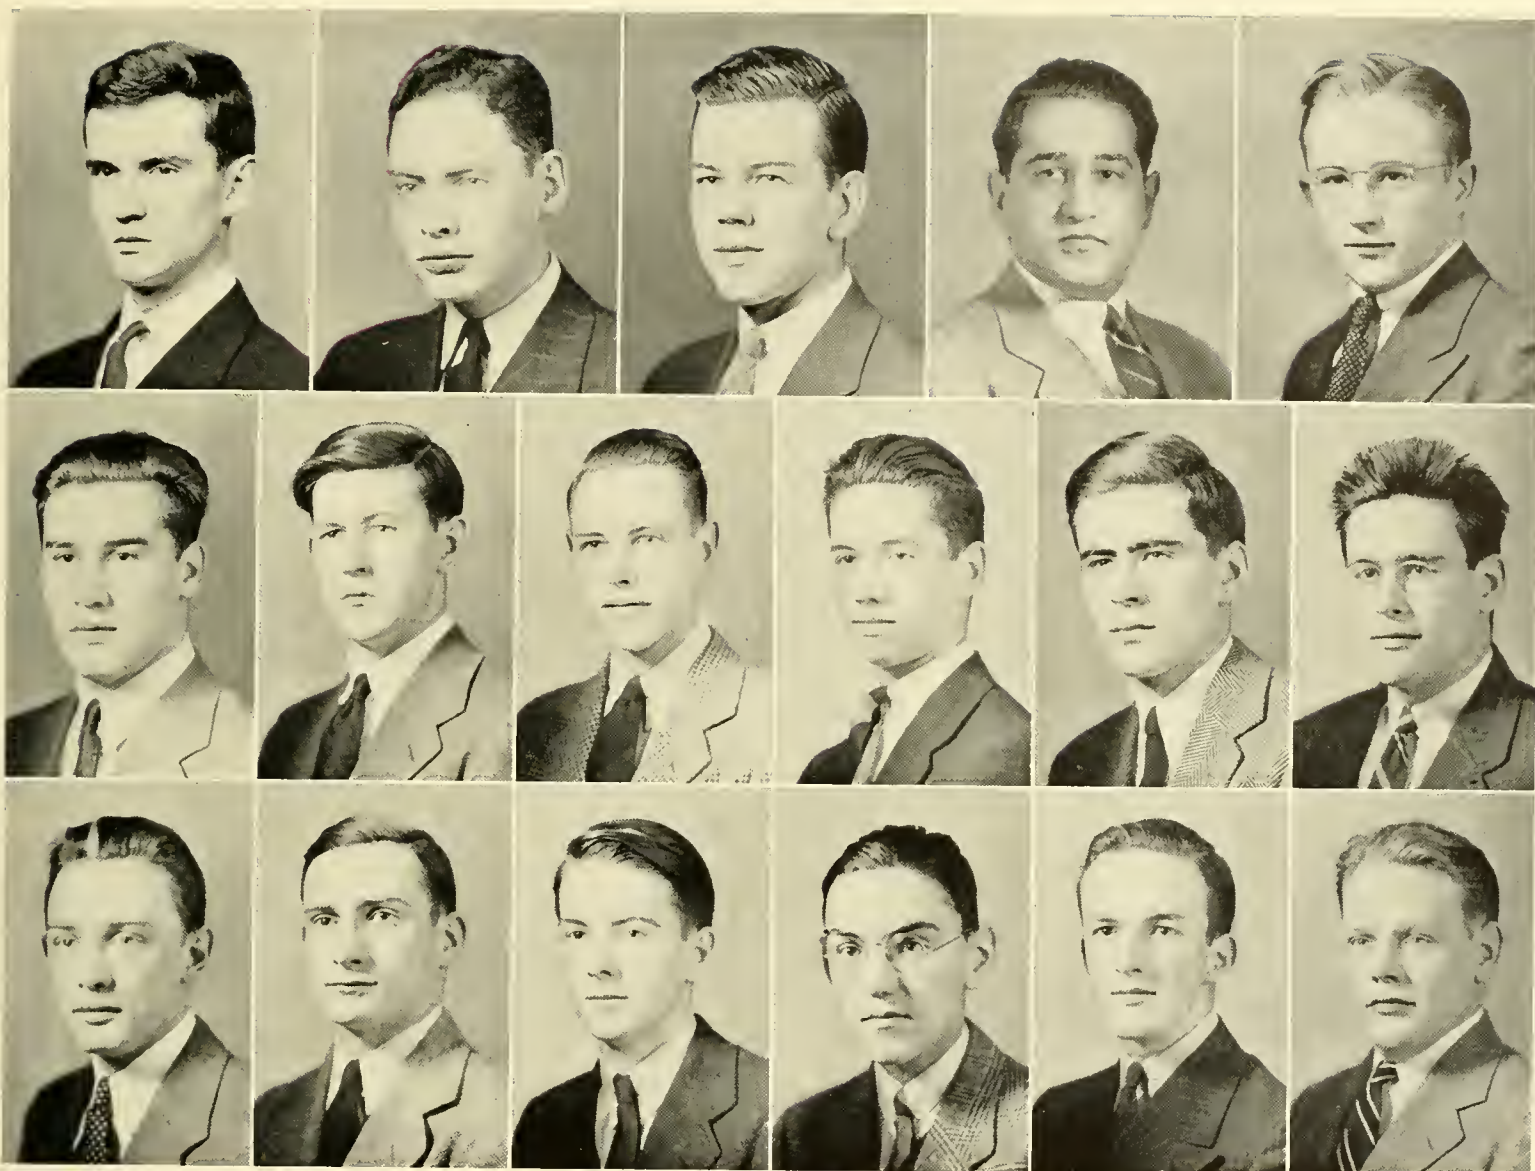

Into the new dormitory last Fall came 144 students. Within a month they were organized into seven sections. It was not long before the dormitories realized that now they were strong enough to battle the fraternities for control of campus offices and organizations. Representatives of Taylor Hall and Price Hall joined with representatives from Richards House, and the result was the Interdormitory Council.

Since most of the students at Richards House were underclassmen, few were able to achieve great prominence in undergraduate extra-curricular activities. But residents of the house could be found in every activity. They are beginning a tradition which the students who come after them will be glad to carry on—a tradition that will lead each resident into some activity where he can better himself.

DR. CHARLES RUSS RICHARDS, sixth president, is known as the creator of "Greater Lehigh." He came here in 1922 and left in 1935 worn out by his labors. During his administration, Packard laboratory and the new Library were erected, every building was renovated, and the campus roads were paved. He created the office of dean and established the Students Health Service, the admissions office, and the placement bureau. He added many new departments and reorganized Lehigh's three colleges. A courageous liberal, he made his presence felt everywhere, and everywhere was bettered by his presence.

TAYLOR

Taylor Hall is the gift of Andrew Carnegie to Lehigh University. In presenting this dormitory to the University, Mr. Carnegie accomplished a two-fold purpose: first, he helped to fill a long felt need for better living conditions among the undergraduates; and second, he honored his former business partner, Charles L. Taylor, '76, a former University trustee, by naming the dormitory Taylor Hall.

Taylor Hall is unique in the fact in that it was one of the first all concrete buildings to be erected in this section of the country. Although much difficulty was encountered in its construction, Taylor Hall has stood the test of time, and today, after thirty years of adequately housing many Lehigh men, it stands as a fitting memorial to Andrew Carnegie and Charles Taylor.

Taylor Hall, which houses one hundred and thirty-five students, is divided into five distinct living groups. Each of these groups has its own separate governing organization, headed by a section-chief who is assisted by other necessary officers. All of the dormitory sections have

a membership in the Interdormitory Council and this membership enables each section to have a voice in the matters common to dormitory men.

Great rivalry has been built up among the sections in the Hall through the various intramural sports. This rivalry has been further increased in the past year through the donation of intramural trophies by the Interdormitory Council. A considerable number of Taylor Hall members actively participate in varsity and Freshmen sports.

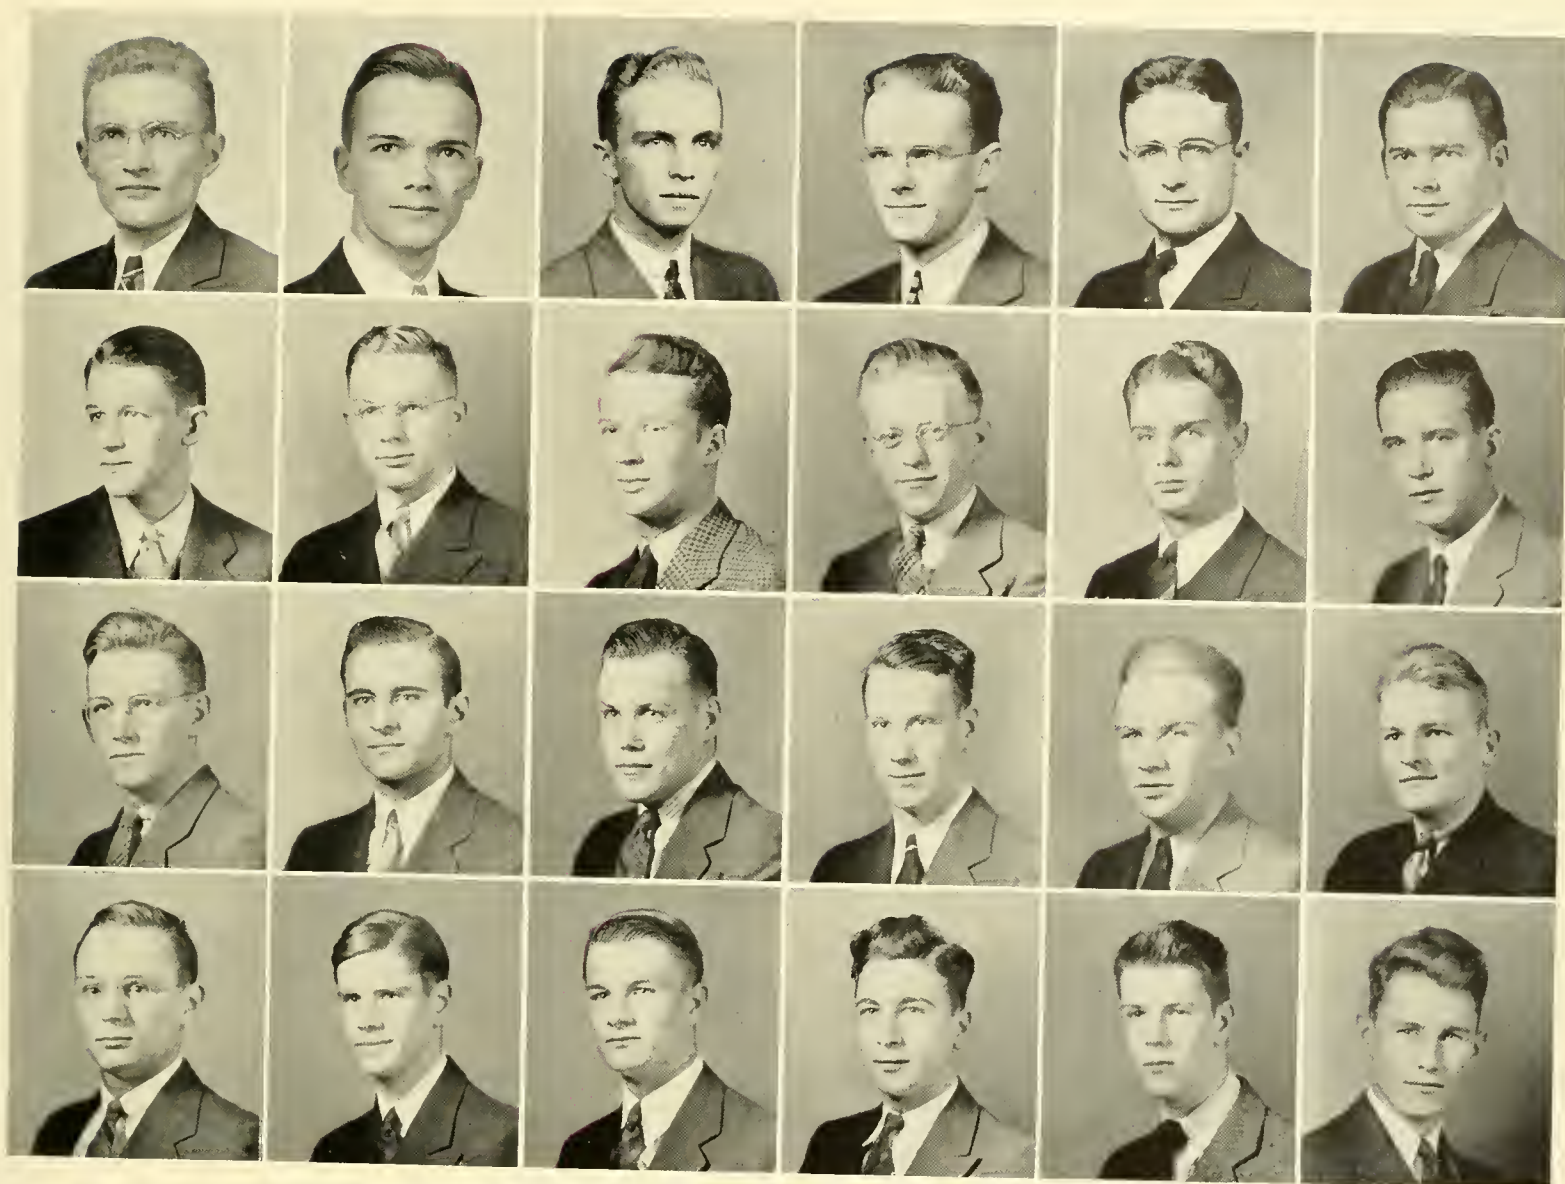

The members of Taylor Hall's five living groups are very proud of their enviable scholastic record, for the general average has always been extremely high, and individual sections, at several times, have led the University in scholarship rating. Further proof of our high scholarship is the fact that Phi Beta Kappa and Tau Beta Pi tap men annually from the Hall.

The members of this dormitory have been active constantly in the field of extra-curricular activities, including: music, publications, and organizations.

CHARLES LEWIS TAYLOR, E.M. '76, loyal son of Lehigh, belonged to the Lehigh of the past, but his memory belongs to Lehigh men of all time. Charlie, he would like us to call him that, believed in Lehigh. No matter where he worked, no matter how successful he became, he always found time to devote to aiding Lehigh. In 1906 he secured from Andrew Carnegie, with whom he had been associated in business, the money for a new dormitory. It was the generous Scot who stipulated that it be named Taylor Hall. Taylor, himself, donated the gymnasium and field house. He died on February 3, 1922 while convalescing in California.

Dean Wray H. Congdon greets Thomas Fleischer, one of the ten regional scholarship winners.

HONORARIES

PHI BETA KAPPA

TOP ROW: Scoblionko, Uhler, Sutcliffe, Gaughran, Rife, Hartman; SECOND ROW: Shearer, McDonough, Lempert, Levy, McQuail, Herman; BOTTOM ROW: Schafer, Edwards, Hanline, Hurst, Moesel, Burnett.

Officers

ALBERT HARING	President
TOMLINSON FORT	Vice-President
PHILIP M. PALMER	Secretary
ROY B. COWIN	Treasurer

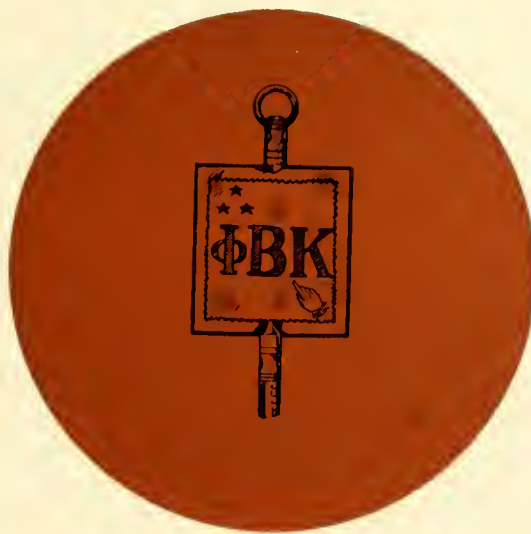

Phi Beta Kappa, the nation's oldest fraternity, was organized on December 5, 1776, at William and Mary College, Williamsburg, Va. However, its prominence as a national honorary for scholastic excellence in "literae humaniores" did not spread until after 1883 when the first national council was organized. Before this Phi Beta Kappa could be found at many colleges throughout the South and East, but the recognition accorded each chapter depended more or less upon local conditions.

In March, 1886, there were on the faculty of Lehigh four members of Phi Beta Kappa. These four along with the Right Reverend Mark A. DeWolfe Howe, bishop of the Bethle-

hem diocese of the Episcopal church and president of the Board of Trustees of Lehigh University, petitioned the National Council to charter a chapter at Lehigh. After an investigation, the charter was granted, and on April 15, 1887, the Lehigh chapter was formally installed as Beta of Pennsylvania. At the same meeting at which the Lehigh chapter was granted a charter, the Dickinson College chapter was approved as Alpha of Pennsylvania.

Today, the names of those five charter members with but one exception, mean little to Lehigh men. The exception is Dr. Edward Higginson Williams who in 1885 organized at Lehigh, Tau Beta Pi, the Phi Beta Kappa of engineering.

A council of faculty members selects each year the seniors in Lehigh's three colleges who have shown scholastic excellence in non-technical subjects. Including the class of 1939, 385 seniors have been initiated; but one man is known to have turned down an invitation to join. At one time a Phi Beta Kappa lecture was given on the evening before Commencement, but since 1920 the lecture has been given in connection with a joint meeting with the Lafayette chapter and is held early in May.

Tau Beta Pi was founded at Lehigh in 1885 by Professor Edward H. Williams, then head of the mining department of Lehigh. Dr. Williams saw the necessity for a national engineering society whose objects, as expressed by the constitution, are "to mark in a fitting manner those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as undergraduates or by their attainments as alumni, and to foster a spirit of liberal culture in the engineering schools of America." Dr. Williams' prime motive for founding the society was to establish a firmer tie between the progressive students and the members of the faculty.

Filling a place previously vacant in the scholastic world, the growth of Tau Beta Pi was only a question of time. The parent chapter existed alone until 1892, when a chapter at the University of Michigan was founded. Tau Beta Pi has grown steadily until there are now 70 active chapters which have initiated over 30,000 members. The association is now recognized as one of the vital factors in the life of the engineering schools of America.

Tau Beta Pi is proud to have among its members many leaders in all the phases of campus life. The society's activities are broad. The society fosters high scholarship among the undergraduates of the university by presenting prizes to outstanding students on Founder's Day. To be eligible for membership a senior must have a 2.5 average, a junior a 3 average.

In the Spring there is a committee of Tau Beta Pi and Phi Beta Kappa members formed for the purpose of discussing and presenting to the faculty any student problems that may have arisen. All phases of campus activity are discussed, and in this manner Tau Beta Pi exerts an influence toward correction of any weakness that may exist in the operation of Lehigh.

ALPHA KAPPA PSI

TOP ROW: Mayer, Wells, Grannatt, J. Kromer, Hesselman; THIRD ROW: Cowin, Carothers, Bratt, Bishop, W. Thomas, Heisler; SECOND ROW: Griffiths, Gowdy, Bernasco, Collins, Schafer, Habicht; BOTTOM ROW: Weed, Rose, Carrington, McQuail, Hurst, Dudman, Nicholas.

In 1924 the Alpha Sigma Chapter of Alpha Kappa Psi was formed from the Business Administration Club. George B. Curtis, then Associate Professor of Economics, and Dr. Neil Carothers helped the local chapter to obtain a charter from the national fraternity. These two men have served since as deputy counselors.

The object of Alpha Kappa Psi is to foster

high ideals and integrity among the student members by intelligently discussing current business topics. As a basis for these discussions, prominent guest speakers present their opinions on present business conditions at the bimonthly meetings. Twice a year men are elected from the two upper classes who are high in scholarship and extracurricular activities.

ETA KAPPA NU

TOP ROW: Hixson, McGuire, Mickley; SECOND ROW: Seyfert, Hibshman, Lempert, Rabold, Beaver;
BOTTOM ROW: Eichenberg, Stavros, Reinsmith, Grubmeyer, Godard, Fredrickson.

The charter for the Chi Chapter of Eta Kappa Nu at Lehigh was granted in 1926 to the petitioning body of seven seniors and three juniors who were then leaders in the Electrical Engineering curriculum.

Remembering the purpose of the society as presented in the preamble of its constitution, "... that those men in the profession of elec-

trical engineering who, by their attainments in college or in practice, have manifested a deep interest and marked ability in their chosen life work, may be brought into closer union whereby mutual benefit may be derived," the Chi Chapter each year honors twelve students with membership and actively engages itself in undergraduate functions.

PI TAU SIGMA

TOP ROW: Hamill, Strohman, Bliss, Eler, Easton, Larkin, Keller, Connelly; THIRD ROW: DeVries, Hagerman, W. Goodwin, Clock, B. Evans, Luster, MacFeeters, Myers; SECOND ROW: Layman, Hollister, A. Jones, Irwin, Truslow, Baldwin; BOTTOM ROW: Glesmann, Hestand, Grant, Carrier, S. Lewis, Lehrer, McNabb.

Pi Tau Sigma, the honorary mechanical engineering fraternity, was founded in 1915 at the University of Illinois by a group of students inspired and guided by Dr. Charles Russ Richards, later president of Lehigh. The organization was founded "to foster the ideals of the engineering profession, to stimulate interest in coordinate departmental activities, and to pro-

mote the welfare of its members."

The Theta Chapter at Lehigh received its charter in 1927, and in 1935 it expanded to include the Industrial engineering students, because these two curricula are so closely associated. It is one of the sixteen active chapters located at the leading engineering schools throughout the United States.

PI MU EPSILON

TOP ROW: Shook, Illick, Raynor, Reynolds, Sharp; THIRD ROW: Cutler, Fort, Eler, Marsden, Morse;
SECOND ROW: Uhl, Carson, Good, James, Pohlman, Kelley; BOTTOM ROW: Cox, Lambert, Altshuler,
Lempert, Moesel, Patton, Stavros.

The Pennsylvania Gamma Chapter of Pi Mu Epsilon was inaugurated at Lehigh in Spring of 1929 when a charter was awarded to the Lehigh University Mathematics Club. The fraternity honors the men who are proficient in mathematics and aims to stimulate and to encourage the interest in mathematics among the undergraduates.

So that this interest may be developed both students and faculty members speak on various mathematical subjects at monthly meetings.

It is customary for Pi Mu Epsilon to bring a distinguished mathematician to Lehigh each year for a public lecture. The simplicity of the topics assures a large audience from the student body and the faculty.

PHI ETA SIGMA

TOP ROW: Bodine, Beers, Bliss, Dorkin, Krone; THIRD ROW: Maiden, Reed, McKinley, Nolte, Dietz;
SECOND ROW: Simonsen, Schall, Thalhamer, Shoemaker, Lee, Clark; BOTTOM ROW: Sharpe, Clark,
Riley, Friedman, Mannion, Cross, Parvis.

Since the granting of its charter in 1930, the Lehigh University chapter of Phi Eta Sigma has undertaken two functions: honoring Freshmen with high scholarship, and stimulating scholastic activity on the campus.

At the regular meetings of the society, members of the faculty are invited to address the group on topics of their own choice. The result

has been an interesting and varied set of meetings. The topics presented this year were "Hazards of Scholarship," "Fraudulent Drug Claims," and "Life and a Sense of Humor."

Two social events each year, the annual initiation banquet and the outing at Professor Harold V. Anderson's farm, serve to promote the interest of the members.

OMICRON DELTA KAPPA

TOP ROW: Okeson, Grannatt, Moesel, Rabold, Yingling; SECOND ROW: Stoughton, Beardslee, Congdon, Reiter, Larkin, Carothers; BOTTOM ROW: Carrington, Wells, Hurst, Grant, Selser.

Omicron Delta Kappa is a national honorary activities fraternity for men. It was founded in 1914 at Washington and Lee University. Lehigh's Xi Circle was installed in 1925.

"The five indispensable qualifications for membership are: integrity, fellowship, humility, courage, consecration to a great purpose."

The purposes of the fraternity are: to honor

the students who have shown sound moral character and the most effective leadership in student activities; to unite some students and members of the faculty and administration in working for the development of a greater Lehigh; and to inspire other students to try unselfishly, for the University's sake, to achieve the ideal of moral and executive manhood.

ETA SIGMA PHI

Eta Sigma Phi, the national honorary classical language society which was formed to promote the study of Greek and Latin in American universities, was founded at the University of Chicago in 1924. Four years later the Alpha Epsilon Chapter of Pennsylvania was founded at Lehigh. This society absorbed the old "Collegium Romanum". The Lehigh chapter, the

second formed in Pennsylvania, was one of the first of the forty chapters now in existence.

The first president of the Lehigh chapter was Alvin Lewis '29. Since that time this chapter has had a national president and treasurer. Edwin H. Miller '40, is the present national treasurer. The national organ of Eta Sigma Phi is the "Nuntius".

PI DELTA EPSILON

TOP ROW: Seabrook, McCluskey, Stoumen, Herrick, Manning; SECOND ROW: Gray, Kost, Galbraith, Watkins, Yingling, Moravec; BOTTOM ROW: Kemmer, Rheinfrank, Heckman, Weeks, Stevens, Grant.

Pi Delta Epsilon is a national honorary collegiate fraternity devoted to bettering campus publications and was organized to provide opportunities to undergraduates interested in this field of activity. Meetings are held where members discuss publication problems and their solutions.

The national fraternity has been promoting

a vigorous reorganization program through its many chapters. The Lehigh group has taken an active part in this re-vitalization plan.

Recently the society has been responsible for the organization of the Brown and White and a complete revision of the Review and the Epitome. In December 1938, the chapter sponsored a National Convention at Lehigh.

CYANIDE

The Cyanide Club is the junior honorary activities society at Lehigh. The purpose of the club is three fold: first, to recognize those students of the Junior class who have been the most outstanding in scholastic and extra-curricular activities; second, to form a discussion group on the policies of the university; and third, to render services to the university which

are deemed advisable by the faculty and by the club.

This year the Cyanide Club revised its constitution with an installation of an initiation ceremony and a provision for a faculty circle. This circle consists of three faculty members and one faculty advisor who are elected at the first meeting of each school year.

Tone, the honorary musical society, was founded in the Spring of 1937 from the Lehigh Student Concerts Group, started a year earlier. The society has two main purposes: first, to provide students interested in music a chance to listen to outside speakers and to take part in discussions on musical subjects at regular monthly meetings; second, to present regular

Sunday afternoon concerts in the University Chapel. These concerts are given by student, faculty, and occasional guest performers.

With a limited membership of thirty-eight men, Tone is now firmly established to forward musical activity and to offer opportunity for student appreciation, interpretation, and composition of music.

The Pennsylvania Alpha Chapter of Alpha Epsilon Delta, an associated society of the American Association for the Advancement of Science, was founded in 1935 as an honorary pre-medical society.

Membership is based on scholarship, extra-curricular activity, personality, and special interest in various medical sciences, but weekly

meetings are open to any Lehigh student interested in papers presented by the various members on medical science topics.

The American Association for the Advancement of Science was conceived in 1926 and has filled the need for a meeting ground for those interested in new and novel applications of nature's laws uncovered by advanced scholars.

DELTA OMICRON THETA

TOP ROW: White, Fittkau, Callaghan; THIRD ROW: Penn, Meyer, Bahnson, Kiefer, Rathbun, Ache, Shuttleworth; SECOND ROW: Ponter, Sharp, Dudman, McGuire, Benedict, Morse, Altshuler; BOTTOM ROW: Breidenbach, Feldmann, Morris, Scoblionko, Heckman, Kowalyshyn.

Delta Omicron Theta, honorary debating society, sponsored an extensive forensic program this year. The intercollegiate group of 19 men participated in 14 events, including four radio debates, a direct-clash debate, two parliamentary discussions, and a forum. The intramural group of 36 men participated in 23 cross-examination debates, with Williams prizes awarded

to the winning teams.

The intramural program was popularized by holding informal debates in the home-like Browsing room of the Library.

The organization was founded by the members of the class of 1928 to fill the need of an honorary society to recognize those who participate in varsity debating.

The Newtonian Society, the freshman honorary mathematical group, was founded at Lehigh in 1927 but has remained the only chapter in existence. Its purpose, as stated in the constitution, is "To promote interest in mathematics among members of the Freshman class, to give its members opportunity for intellectual activity outside the classroom, and to pro-

mote friendship among its student and faculty members."

Membership is conferred upon freshmen of high standing in mathematics at the end of either semester and extends to the middle of their sophomore year. Meetings are held monthly and talks are based upon subjects of general mathematical interest.

The national society of Scabbard and Blade was founded in the Fall of 1904 at the University of Wisconsin. The national society now consists of 83 active companies with a total membership of 25,000 men.

Scabbard and Blade is the only honorary military society on the campus and the only society to sponsor one of the four main dances

of the year, the Military Ball.

The purpose of the society is to promote interest in the R. O. T. C., to defend American ideals and traditions, to develop and preserve the essential qualities of good and efficient officers, and to spread intelligent information concerning the military requirements of our country.

ROBERT W. HALL PRE—MEDICAL SOCIETY

TOP ROW: Ritter, Thomas, Hall, Uhler; THIRD ROW: Gabuzda, Gilmore, Briody, Kiefer, Ginder, Bausor; SECOND ROW: Karlik, Tice, Hertzog, Kotanchik, Dorkin; BOTTOM ROW: Brandt, Gaughran, Sabol, Trembley, Everett, Biro.

The Robert W. Hall Pre-Medical Society was organized 19 years ago by Dr. Robert W. Hall, a former head of the biology department. Since organization, the society has had an enviable record with respect to the many alumni that successfully completed their medical education in the foremost medical schools, and who, after graduation, have become suc-

cessful and respected physicians.

The society holds monthly meetings, two banquets a year, out of town inspection trips, and visits clinics at the local hospitals. The annual Christmas banquet is an informal occasion, while the Spring banquet is the formal occasion when new officers for the coming year are introduced to their new positions.

SECOND ROW: Lewis, Liebig, Shepherd, Kipe, Salathe, Temple; BOTTOM ROW: Helm, Wetherell,
Harchar, Easton, Myers, Kelley, Felch.

Alpha Phi Omega, national honorary service fraternity, is composed of men who previously were active boy scouts. Their services to different groups around the campus have increased each year. Last Spring the members were hosts to several visiting troops of boy scouts. Plans have been completed to assist the Bethlehem Boys' Club and scout troop as big brothers.

A fireplace project was completed last Winter and dedicated by the National Field Representative of Alpha Phi Omega.

Besides its service activities, the fraternity has sponsored hikes and other outdoor programs. The chapter is now enlarging its membership and planning extensive programs for the continuance of its services in the future.

R. W. BLAKE SOCIETY

TOP ROW: Lafferty, Hughes, Becker; THIRD ROW: Altshuler, Steiner, Berkowitz, Mickley; SECOND ROW: Hertzog, King, Tucker, Miller; BOTTOM ROW: Moreau, Palmer, Scoblionko, Richardson, Sutcliffe.

The Robert W. Blake Society, named in honor of a former head of the College of Arts and Science, is Lehigh's honorary philosophical society. Founded in 1923 by seven Lehigh students, the society is limited to a membership of twenty men who have a high scholastic rating and are interested in philosophic or cultural subjects.

Society meetings are held on the first Friday of each month. The lectures by undergraduates are supplemented by student discussions. Topics for discussion this year were Plato's "Phaedo," the future of nationalism, and the democracy in our education.

This year the society visited Swarthmore College on their annual pilgrimage.

INTERNATIONAL RELATIONS CLUB

TOP ROW: Plante, White, Irwin, Roberts, Hamblin; THIRD ROW: Darby, Scoblionko, King, Stoneback; SECOND ROW: Baiz, Baldwin, Schiff, Walther, Frederick, Watkins; BOTTOM ROW: Richardson, Aldrich, Sutcliffe, McNabb, Cunliffe.

The purpose of the Lehigh chapter of the International Relations Club is to stimulate interest in and to promote the study of international problems and politics without favoritism. At the monthly meetings a series of speakers, both student and faculty members, have presented various phases of world affairs for discussion. The club sponsored an open lecture

by a man prominent in international affairs.

This year the chapter has sent a delegation to the Model Assembly of the League of Nations at Bucknell College and to the International Relations Conference at Swarthmore College. The membership is continually growing and the prospect for the coming year promises to be an even greater success.

 T. Edgar Shields *Faculty Director*

Organized in 1908, the Lehigh Band has gradually grown into one of the largest and best collegiate bands in the East. Dr. T. Edgar Shields has made possible a steady increase in membership and instrumentation of the band. The instruments formerly used by the Bethlehem Steel Company band became part of the general equipment of the Lehigh Band in 1926.

The band performs an essential function in all R. O. T. C. drills, and plays at all football games, basketball games, commencement, and other university exercises. The band has added much color to the football games by providing parades consisting of many unique formations. This year a special part of the band consisting of sixty pieces is being prepared for a public concert by Dr. Shields.

Combined Musical Clubs

Double Quartet

The original Chapel Choir that functioned prior to 1885 was divided into the Glee Club and Mandolin Society but were recombined in 1910 and now are recognized as the Combined Musical Clubs. It consists of the Glee Club, the Symphony Orchestra and a dance orchestra.

Concerts given during the 1938-39 school year included: the Annual Winter Concert and Dance, a combined concert with the Moravian College for Women, Cedar Crest, and Lafayette Glee Clubs, and one at the Harcum Junior College in Bryn Mawr. Broadcasts over national networks completed the year.

Glee Club

Mustard and Cheese

Mustard and Cheese, the dramatic club of the University, was founded in 1885 by Richard H. Davis. Since the inception of the club some fifty-four years ago, Mustard and Cheese has presented practically every type of production, including a number of musical comedies written entirely by members of the undergraduate body.

Fifty-four years ago a few students frequently met in the parlor of Charlie Rennig's saloon. These men would drink beer and eat cheese sandwiches spread with mustard. The group conceived the idea of organizing a dramatic club. The idea became a reality almost immediately, and a dramatic society was formed with Richard H. Davis at the helm.

The club has been progressing ever since. Five years ago, with the advent of Albert A. Rights upon the scene, Mustard and Cheese took on new proportions. A Dramatic Workshop was formed to train aspiring undergraduates in acting, staging, and writing.

Under the guiding hand of Mr. Rights, three productions were given during the past year. For the first time since 1935, the club did not present a musical comedy. In the Fall at Liberty High School the club presented the famous Broadway comedy

hit, "Brother Rat", by John Monks, Jr. and Freddie Finklehoffe, starring L. Henderson Dudman and William H. Barnard. Excellent performances were also turned in by the supporting leads, Robert N. Gusdorff and R. Harry Gunnison.

In March, the Dramatic Workshop gave its annual play at Drown Hall. The drama, "Winterset," by Maxwell Anderson, was one of the finest and best acted plays done by the group in years. Among the leads were Raymond M. Rosenstein, Edwin H. Miller, and Nathaniel Brisker.

For the Spring show the club gave another Broadway success, the drama "Petrified Forest," by Robert Sherwood. The play was extremely well suited for the club because of the large number of male parts, fifteen in all.

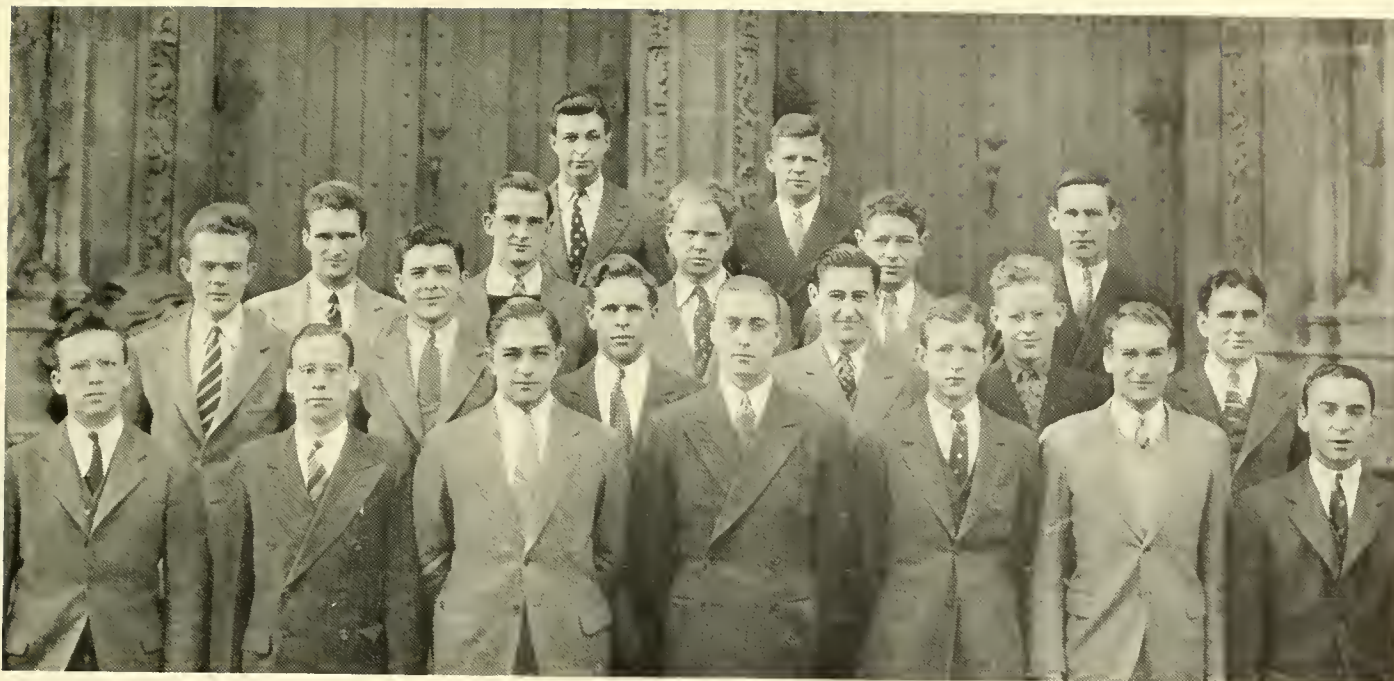

This year the club has adopted a new constitution which the members believe will greatly enhance the position of dramatics at Lehigh. Competitors are given specific information regarding membership in the club.

The future of the club is bright. Since the Fall of 1937 the club has presented its larger shows in town. More interest has been shown this year in dramatics than ever before.

"Brother Rats" take time off to entertain the ladies.

Board of Publications

Guardian angel of Lehigh's three student publications is the Board of Publications consisting of three faculty and three student members. Its original purpose to insure the solvency of all publications is still reflected by its activity in examining budgets, signing contracts, auditing books, establishing sinking and equipment funds, and in authorizing the distribution of profits or payment of honoraria.

Equally important today is its duty to see that each publication has a capable staff selected in such a way that each competitor has an equal opportunity. To insure this the Board requires each publication to draw up an approved constitution and to abide by it. The Board's success is shown by the excellence of the publications.

Student Concert-Lecture Series

The Student Concert-Lecture Series was instituted three years ago to provide for Lehigh students a definite program of cultural entertainment. Artists are selected and bookings arranged by a committee of six students and five faculty members.

Student members of the committee are chosen by those who served before them. Written competitive examinations and each applicant's campus activities are taken into consideration.

The 1938-39 series was drawn up with the guidance of a poll on student taste which was taken the previous year. With one exception, each of the six events stood highest in the field it represented. This policy resulted in large attendances throughout the year.

Brown Key Society

The Brown Key Society is composed of the junior managers of the various major sports at Lehigh. The purposes of this society are to extend hospitality to the members of visiting teams, to promote a friendly spirit among its members, to discuss questions pertaining to the athletic policy of the University in so far as this policy concerns the management of the various teams, and to present its opinion to the Director of Athletics on special occasions.

The Brown Key Society meets three times a year at the call of the president. New members are installed and sports directors are appointed for each of the three seasons: Fall, Winter, and Spring.

E. W. Brown Astronomical Society

The Ernest W. Brown Astronomical Society was reorganized in the Fall of 1934, with Mr. Ralph N. VanArnam as its faculty advisor and Charles Hoffman as its president. The purpose of the society is to foster an interest in astronomy on the campus. Meetings are held monthly and feature a student speaker. Once each year Mr. VanArnam entertains the society. An occasional outside speaker completes the club's program.

The Club maintains Sayre Observatory and conducts "open nights" every Fall and Spring. At these functions the public inspects equipment used in an astronomical observatory. Members of the society demonstrate the equipment and help the visitors to study the skies.

Radio Club

In 1923 the Lehigh Radio Club was organized. At first the members met in a little room on the top floor of the Physics building which then housed the Electrical Engineering Department. The Radio Club moved into the present clubroom in the Packard Laboratory in 1933. A new transmitter of high power and modern design was built by club members and faculty advisors.

Since then the club has made numerous changes to keep in step with engineering progress. In emergencies the Radio Club has aided in establishing contact with the danger zones. Inspection trips taken to commercial radio stations have been well attended and more are planned. Many of the members now have short wave stations of their own.

Cut and Thrust

Cut and Thrust, Lehigh's honorary fencing society, is one of the newest and most active honorary societies on the campus.

In the Spring of 1938, the Fencing Club reorganized in order to serve a more useful purpose. The new society was founded by James R. Bright, Robert W. Brown, and Thomas M. Hamill and was called, "Cut and Thrust." This honorary society runs the fencing team and promotes fencing at Lehigh. The goal of Cut and Thrust is to see Lehigh's fencing team recognized and respected by both its own Alma Mater and by other colleges as well.

Membership to the society is based on interest in fencing, character, and ability in both the theoretical and practical sides of fencing.

Cosmopolitan Club

Since its inception in February 1938, the Cosmopolitan Club has been one of the most active organizations on the campus. The organization held regular meetings for a full semester before seeking recognition from the university. This year, aided by Dr. Claude G. Beardslee and William H. Bohning, the club has gained full recognition.

The purpose of the Cosmopolitan Club is to bring together the backgrounds and ideas of the countries represented by the students attending Lehigh and to help introduce the new exchange students to the life on this campus. At the regular meetings twice a month the members voluntarily speak on topics of general international interest.

Camera Club

Since the introduction of the first crude box camera there has been a strong interest by the student body towards photography. It was not until March, 1937 that an undergraduate Camera Club was founded at Lehigh to satisfy this desire of the students. The original membership was twenty-five students, and now there are forty-five members.

With the help of Dr. Claude G. Beardslee and Mr. Andrew W. Litzenberger the club obtained a darkroom in Drown Hall. There the members may develop, enlarge, and print any photographs they have taken.

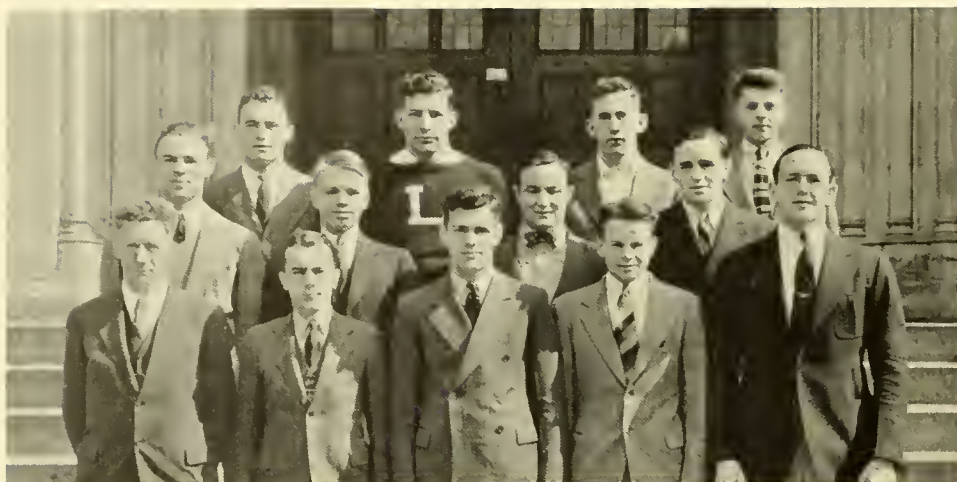

The photo-exhibit that the club sponsored was the second largest exhibition held this year on the campus.

Spiked Shoe Society

The Spiked Shoe Society is composed of the varsity letter winners in track and cross-country and the varsity managers of these two sports.

The Spiked Shoe Society members campaigned actively during the past year for the long needed improvements to the Lehigh track, which was probably the worst in the Middle Atlantic States Association.

Spiked Shoe was founded at Columbia University in 1923 to foster better track and field relationships among the schools and to form a closer-knit organization of track men in general.

Sportsman's Club

At the beginning of the 1938 school year, the Lehigh Sportsman's Club was formed from the old Outing Club by Robert Stoudt and Hamilton Strayer who thought that Lehigh needed an organization to bring together students and faculty members who are interested in outdoor sports not sponsored by the University. The club has proved its popularity by its membership of forty students and thirteen faculty members who are interested in one or more activities sponsored by the club. Some of the activities are hunting, fishing, hiking, trap and target shooting, archery, skating, skiing and conservation. The outstanding event of the year was a venison dinner which promises to become an annual affair.

In its early life the Chemical Society pursued policies that do not quite harmonize with the modern conception of an undergraduate society. Members were elected by ballot from all departments, and business was

Chemical Society

conducted under a cloak of secrecy. In 1873 letters were mailed to a group of eminent scientists inviting them to honorary membership. One hundred acceptances and almost as many photographs reached the secretary's office from all parts of the United States, and from England, France, Germany, Switzerland, Russia, and Ireland.

Its announced object was "to give students practice in discussing matters of technical importance." This modest project was soon expanded into activities of a wider scope, and in 1875 the name of the organization was changed to "The Chemical and Natural History Society."

The society sponsored a series of scientific lectures, some of which were later published in technical periodicals. It financed three expeditions to Texas and Brazil for the collection of zoological specimens, which arrived in a procession so long and impressive that the authorities were compelled to house the treasures in the auditorium on the third floor of Packer Hall.

At the next annual election the control of every office fell into the lap of a conniving but unnamed fraternity. Dissention, resignations, and a ruinous trend in scholastic standards forced the society into complete obscurity. By the irony of fate this lowest ebb of the society coincides with the erection of the present Chemistry Building. With renewed interest the foundation of the present student chemical society was then laid.

Today the zoological cabinet is but a hazy memory, and of the former illustrious members not one is living. In its stead there reigns an organization composed of over one-sixth of the student body. Speakers who are prominent in the field of chemistry address the society at the regular monthly meetings. The society sponsors a Christmas Banquet for members and invited guests. The Harry Maas Ullmann Memorial Fellowship is awarded by the Chemical Society and is financed by contributions of its members. Although there is little evidence, one might believe that the old traditions are at the helm steering the affairs of the modern Student Chemical Society.

The first student branch of the American Institute of Electrical Engineers was established at Lehigh in 1902 by Professor-Emeritus Charles F. Scott, who attempted to bring the men in the electrical industry and the college students closer together. Professor Scott reasoned correctly that it would be to the embryo engineer's advantage to know some of the men connected with industry in order that he might pattern his career after theirs.

The Lehigh Branch of the A.I.E.E. holds an open meeting on the third Thursday of every month, with the possible exception of January. At these meetings technical and semi-technical talks are given by men from their respective fields of electrical engineering. Sometimes the program is supplemented by a student paper taken from the Senior seminar classes. In addition to these monthly meetings one University lecture is generally sponsored each year. As with the other engineering societies, a Christmas party and formal refreshments have become traditional customs.

As the Industrial Engineering Society was created for Industrial Engineering students, the society should include primarily among its activities and discussions, topics and speakers that deal not only with the engineering aspects of the industrial world, but also with problems of economics, financing, management and intelligent forecasting of economic developments. The society has met this challenge adequately by careful selection of speakers from the largest industries in many of the different fields of production.

Approximately 11 years ago, the Industrial Engineering Society was started for the purpose of giving students in this curriculum a chance to gain firsthand knowledge of the concurrent problems in plant layout, production control, maintenance, and the general engineering ability needed to solve these problems.

The society now occupies a prominent niche in the row of campus and curriculum societies.

Yingling.

The Lehigh Student branch of the American Society of Mechanical Engineers was organized in 1911. Through this organization the Mechanical Engineering undergraduates are affiliated with 116 similar groups in the leading technical schools of the country. After graduation the student members become eligible for junior membership in the parent society, the American Society of Mechanical Engineers.

The speakers of the monthly meetings, with their subjects chosen from items of universal appeal, interest men from the engineering and sales departments of the local and national concerns. However, during the year the program is interrupted twice: in December for the annual Christmas party of the society, and in May for the senior farewell picnic.

The bright light of this year's meetings was undoubtedly the technicolor sound film, "Steel-Man's Servant," produced and loaned to the society by the United States Steel Corporation that was shown to the entire student body at the February meeting.

ATHLETICS

Looking at Football.

Athletic Department

STANDING: McCaa, Mahaney, Mercur, Carpenter, Short, Calvert, Westerman, Harmeson; SITTING: Cunningham, Bartlett, Sheridan, Kellagg, Kanaly, Morrissey, Reiter.

The Division of Athletics and Physical Education was created by the Board of Trustees in the Fall of 1932 to take over the activities formerly carried on by the Department of Physical Education and the Board in Control of Athletics.

The Division is divided into two departments: the Department of Intercollegiate Athletics, and the Department of Physical Education and Intramural Athletics.

The Department of Intercollegiate Athletics has

control, as the name indicates, of all intercollegiate sports.

The Department of Physical Education and Intramural Athletics carries on the required physical education work and administers a program in competitive intramural athletics.

Nelson A. Kellogg is in charge of the entire division and of the Department of Intercollegiate Athletics. Howard R. "Bosey" Reiter is in charge of the other department.

NELSON AUSTIN KELLOGG, who has been the head of the Division of Athletics and Physical Education since May 1, 1933, was forced to resign in February because of impaired health.

During his term of office the athletic department was brought from a small unorganized body to one that is recognized all over the East.

Best of luck, Colonel, and a quick recovery.

"BOSEY" REITER,
Professor of Physical Education.

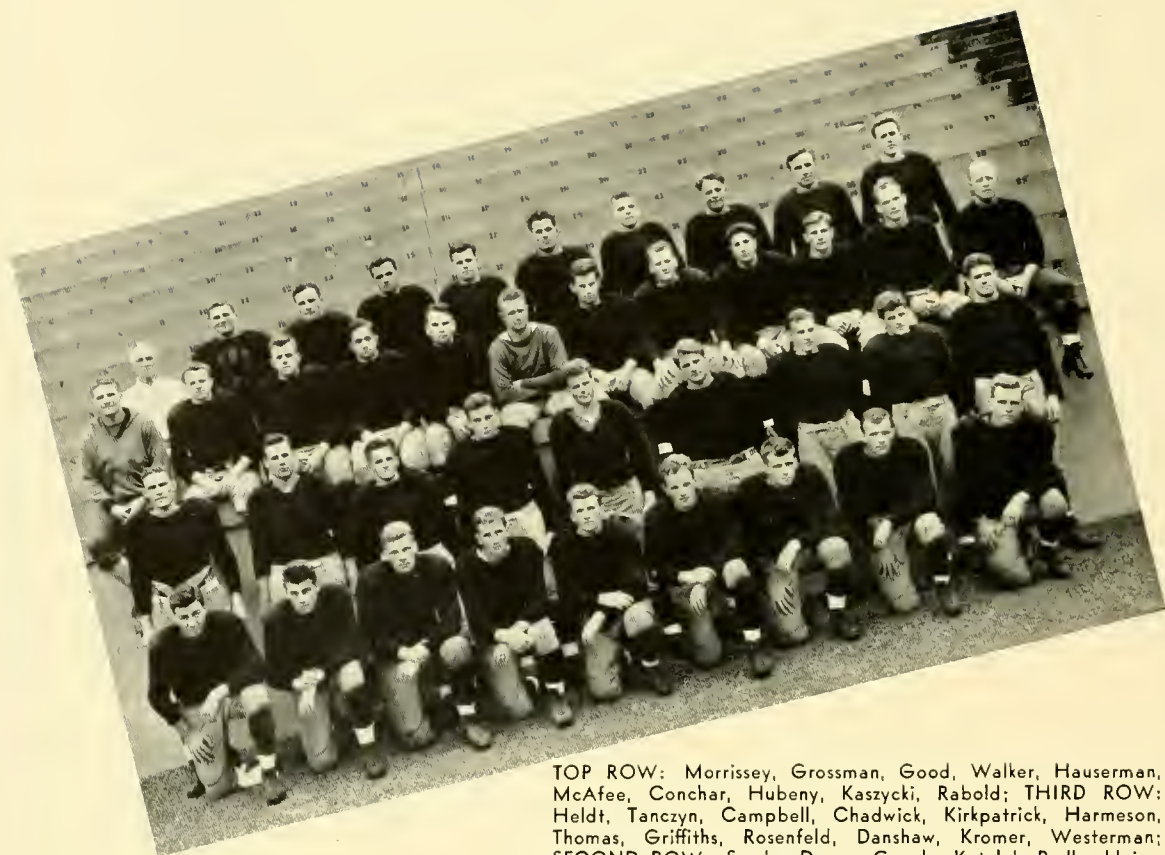

PAUL SHORT,
Assistant Director of Athletics.

COLONEL KELLOGG,
Director of Athletics.

1938 SEASON RESULTS

Lehigh	16	P. M. C.	13
Lehigh	6	Boston Univ.	6
Lehigh	0	Case	0
Penn State	59	Lehigh	6
Lehigh	32	Delaware	0
Rutgers	13	Lehigh	0
N. Y. U.	45	Lehigh	0
Muhlenberg	20	Lehigh	0
Lafayette	6	Lehigh	0

The Lehigh football team opened the 1938 Fall sports season in an auspicious manner by defeating the Pennsylvania Military College team, 16-13. The Cadets scored in the first quarter and in the final minutes of the final period. Two touchdowns, both from the two yard line, scored by Feucht and Gowdy, coupled with Duyckinck's field goal gave Lehigh its margin of victory.

The next Saturday, in what was probably the most thrilling game of the season, the Engineers fought the Boston University squad to a 6-6 standstill. The Terriers scored in the first quarter and led until the final two minutes, when Lehigh finally connected on a pass, Cox to Gowdy, to tie the score.

The varsity traveled to Cleveland the next weekend and once again at the end of 60 minutes of gruelling football the score was knotted; this time 0-0. Both Lehigh and Case had two scoring opportunities but fumbles canceled these chances.

The next weekend, before a home-coming crowd of 10,000, the Engineers lost to Penn State, 59-6. It was the old story of "The king can do no wrong." Everything State tried worked to her advantage and she was helped materially by Harry Harrison, one of the best backs ever seen on Taylor Field.

Returning to normal the following weekend, Lehigh trounced the Delaware team, 32-0. Evident in this contest, even though it was a victory, and in the following game, which was lost to Rutgers, 13-0, was Lehigh's "heel of Achilles;" poor tackling and faulty blocking. The following weekend Lehigh met a superior team in N. Y. U. and, as in the State game, lost by a large margin, 45-0. Running into Muhlenberg next, the Lehigh gridders again lost, 20-0, although if they had had their share of the breaks the score might have been different.

Seven days later, playing in a sea of mud and a driving rain, Lehigh lost to its traditional rival Lafayette, 6-0. Scoring on a reverse in the first quarter, the Maroon team was content to play a defensive game and emerged on the long end of the score.

Pass protection for Wertz.

20 yards to a touchdown.

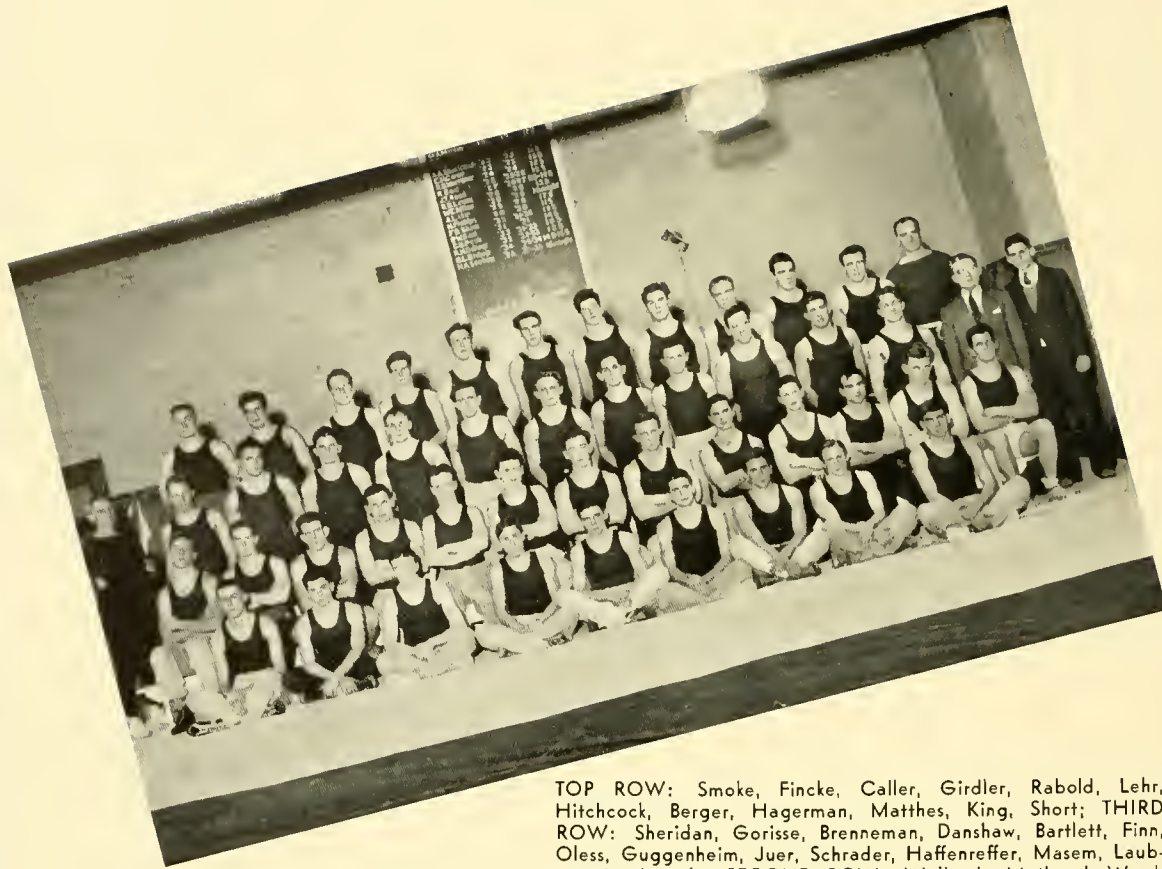

Lehigh's famous blocking.

It was all in vain, Lehigh.

1939 SEASON RESULTS

Nine wins, no defeats

Lehigh	22	Nebraska	10
Lehigh	29	Cornell	5
Lehigh	17 1/2	Navy	12 1/2
Lehigh	25	Penn State	3
Lehigh	17	Yale	11
Lehigh	26	Syracuse	10
Lehigh	26	Princeton	6
Lehigh	21	Lafayette	16
Lehigh	26	V. M. I.	8

Lehigh annexed the Eastern Intercollegiate Wrestling championship with 29 points.

Coach "Billy" Sheridan's varsity wrestling team opened another of its undefeated seasons when it came from behind to win, 22-10, from the University of Nebraska. After Burnett, 121 pounder, had won on a referee's decision, Oless and Walker lost by falls to account for all of the Cornhuskers' points. Starting with the 145 pound class the varsity worked its way through the rest of the bouts without losing, collecting, on the way, falls by Captain Hagerman and by Rabold.

Right on the heels of their initial victory the Lehigh "grunt and groan" men defeated the Cornell team, 29-5. The Engineers scored on four falls and three decisions, while the Big Red team counted on a fall. The four 5-pointers taken by Lehigh were scored by Craig, Masem, Hagerman and Wells; the others by Burnett, Lehr and Schrader.

The Engineers scored their third successive victory when they defeated the Navy matmen, 17½-12½. Matthes and King made their 1939 debut in this match, "Monk" scoring a fall with Tommy receiving the referee's decision. The rest of the Brown and White points were made by Burnett, referee's decision; Masem, on a fall, and Hagerman in a draw.

The Lehigh matmen next traveled to State and handed the Nittany Lions the worst defeat any State team has ever suffered in the Lehigh-State wrestling series. Scoring points on falls by Craig and Rabold, and on five decisions, the varsity turned in its fourth victory by a score of 25-3.

Meeting the biggest "obstacle" in the path to an undefeated season at New Haven, the Lehigh wrestlers climbed all over the "obstacle" and the Yale wrestlers to win, 17-11. Matthes turned in the only Lehigh fall, the other 12 points being scored by Craig, Masem, King, and Hagerman. Scoring 26 points on falls by Craig, King, Hagerman, and Matthes, and on decisions by Burnett and Masem, the Lehigh varsity outpointed Syracuse 26-10, to score its sixth consecutive victory.

Lehigh fans received a hazy vision of what was to happen on the second weekend of March when

the varsity overwhelmed Princeton, 26-6. This vision became relatively clear-cut when following the triumph over the Tigers, the Lehigh matmen defeated their traditional rival, Lafayette, 21-16. With a 26-8 victory over V. M. I., the varsity wrestlers completed their dual meet season undefeated.

The Lehigh varsity wrestlers climaxed their 1939 season by retaining the Eastern Intercollegiate Wrestling Association championship with a total of 29 points. Captain Hagerman, Matthes, Masem and King claimed individual titles, while Craig took a second and Oless a third.

TOP: Our four Eastern Intercollegiate Wrestling champs and the man responsible for their success. Masem, King, Matthes, Sheridan, Hagerman. BOTTOM: Lehigh's Eastern Intercollegiate Wrestling team champions. STANDING: Sheridan, Craig, Schrader, Wells, Rabold, Matthes, King, Laubenstein; SITTING: Burnett, Oless, Hagerman, Masem, Schwab.

BACK ROW: Calvert, Thomas, Briody, Pedrick, Barber, Feucht, Drake, Stevens; FRONT ROW: Cox, Griffiths, Bupp, Hankins, Riemony, Kipe, Brandt.

The Lehigh basketball team opened its 1938-39 season by defeating Upsala. Behind at the half, the Engineers forged into the lead eight minutes before the final whistle and won, 52-51. After coming from behind in its first game, the varsity took the lead early against Stevens and kept it all the way to win easily, 43-19. Twelve men saw action in this game with Captain Hankins making 10 points to take the scoring honors. The next Lehigh victim was a strong Wittenberg five which, after a hard fight, lost 50-40.

Lehigh won its fourth straight game when it defeated Alfred 36-26. This victory proved to be costly as Drake received a leg injury which kept him on the bench the remainder of the season. However, Briody took Drake's place and played an excellent brand of ball in his first year of varsity competition. With this new team starting for the first time Lehigh beat Muhlenberg, 46-28. The five game winning streak was broken by Gettysburg, 44-30. The Bullets, a team of long-shot artists, completely dominated the play, the Engineers leading only once, early in the first half. The varsity then returned to form at the expense of the Haverford team, winning 60-27.

Four days later Swarthmore came to Lehigh with a winning streak of 21 games. A few hours later the Garnet team's ledger was changed to read, 21 wins and 1 loss, by virtue of a 43-35 Lehigh victory. Next, the Brown and White defeated Bucknell,

Action! Camera! Briody scoring 2 points for the Brown and White.

58-22; Griffiths leading the scorers with 14 points. In their first away game Lehigh lost a heart-breaker to Villanova, 31-29, the winning basket being made with three seconds to play. In a return game with Muhlenberg, which was marked by a fight and near-riot, the Engineers lost by a score of 48-45.

Lehigh opened its quest for the Middle Three title at Rutgers, but lost, 46-38. The varsity then defeated Lafayette, 44-29, and Rutgers, 37-29; both in Taylor gymnasium. However, the Maroon defeated Lehigh in Easton, 38-31, to throw the title race into a triple tie.

BACK ROW: Heisler, Forrest, Henning, Griffiths, McDonough, Imbt, Adams; FRONT ROW: Eagan, Lucard, Milbank, Kipe, Barry, Nicholas.

Paul Robert Calvert, Lehigh's new baseball coach, but an old figure on the campus, came to assist in the coaching program of the Engineers when Nelson A. Kellogg was made director of athletics in 1933.

Graduating from Purdue University in 1932 Paul spent one year as assistant football coach at the University of Missouri and then he began his career at Lehigh. He coached the Freshmen football, basketball and baseball teams for four years and then he replaced Glenn Harmeson as varsity basketball coach. This past spring he replaced Bob Adams as varsity baseball coach. When are you going to become varsity football coach, Paul?

Snowed out in its first game, with Princeton, the Lehigh baseball team opened its season at Swarthmore and returned to the campus with a 4-0 shut-out tucked beneath its belt. Lehigh should have taken a good look at that victory because the wins were few and far between for the rest of the season. In fact there were exactly ten defeats sandwiched between this first victory and the next win.

The luckless Lehigh nine consistently outhit and outpitched the opposing teams, but Dame Fortune refused to smile on the Engineers. An infield which seemed to go to pieces at the very times when it should have been the tightest was one of the most important factors in the downfall of the Brown and White team.

After its first victory the Lehigh diamonders lost in quick succession to Rutgers, Fordham, Haverford, Ursinus, Muhlenberg twice, Delaware, Villanova, Upsala and Dickinson. By all rights Lehigh should have won at least five of these ten games; but whatever gods keep watch over baseball teams were frowning instead of smiling, and games which should have gone into the "win" column went into the "lost" column.

The Engineers snapped their losing streak at ten when they nosed-out the Rutgers squad, 5-4. Following this triumph the varsity lost two games to Lafayette, closing the season with a record of two wins and twelve losses.

PAYSON K. NICHOLAS, captain 1939 baseball team. Nick has been Lehigh's reliable left fielder for the past two seasons and his timely hitting has won many a ball game for the Brown and White.

1938 SEASON RESULTS

Lehigh	74	Swarthmore ...	52
Rutgers ...	93	Lehigh	33
Haverford	72	Lehigh ...	54
Lehigh ..	64	Lafayette	61
Colgate .	88	Lehigh .	38

Lehigh placed fourth in the Middle Atlantic States Collegiate Athletic Association championships.

TOP ROW: Barnhart, Bowen, Kremer, Matteson, Decher, Constantine, O'Meara, Brandt, Faber; SECOND ROW: Elmer, Naegely, Stefko, Csellak, Rehm, Parsons, Homiller, Rabold, Morrow, Mickley, Bell; BOTTOM ROW: Marshall, Billstein, Dudman, Myers, Richards, Kanaly, Wells, Travis, Ruschmeyer, Evans, Gowing.

FRANK C. RABOLD broke an existing Lehigh record in the Swarthmore meet when he threw the discus a distance of 130 feet, 8 inches. Besides being a letterman in track, Frank also has won letters in wrestling and football.

The Lehigh track team, captained by Bill Clark, opened its season by scoring a decisive 74-52 win over Swarthmore. The Engineers' score was bolstered by firsts taken in the 120-yard high hurdles, pole vault, broad jump, 220-yard low hurdles, discus throw, high jump and javelin.

Moving to Rutgers the following weekend, the Brown and White team was taken into camp to the tune of 93-33. Four days later the Lehigh squad traveled to Haverford and made a gallant attempt to snap the Main Liner's winning streak which had reached seventeen successive meets. Victory, however, went to Haverford and Lehigh suffered its second loss of the season, by a score of 72-54.

It has been said that any Lehigh season is a success if Lafayette is beaten. If such is the case, the track team's season could be termed successful because the Maroon squad was beaten, 64-61. In the end it was the Engineers' ability to make a clean sweep of four events that turned the tide in their favor.

In the final meet of the season the Lehigh squad was unable to stay abreast of a fast Colgate team and went down in defeat, 88-38. Frank Rabold broke an existing Lehigh record in this meet when he put the shot a distance of 42 feet and 1 inch.

Entered in the M. A. S. C. A. A. championships, the Lehigh team made 28 points to finish fourth.

Sylvan G. Bushey, '39	Walter S. Russell, '40
Robert Craig, '41	Joseph D. Scott, '41
Robert O. Davies, '41	H. Alan Snyder, '39
Kenneth I. Herman, '39	Gordon E. Tait, '40
Thomas S. Kromer, '39	W. Rodman Turner, '40
Edward P. Phillips, '40	Walter C. Wells, '39
Aug. A. Riemondy, '41	Robert G. Yingling, '39

Lehigh finished sixth in the Middle Atlantic Inter-Collegiate Soccer League.

BACK ROW: Carpenter, Bushey, Scott, Yingling, Turner, Davies, Craig, Riemondy, Cooke; FRONT ROW: Phillips, Kromer, Snyder, Wells, Herman, Tait, Russell.

The Lehigh soccer team opened its 1938 season at West Point and returned to Bethlehem "without the bacon." The more experienced Army team scored once in the first period and twice in the third, while Craig tallied Lehigh's only point in the third quarter, making the final score read, 3-1. Still looking for the "bacon" which, incidentally, was not found until the last game of the season, the varsity traveled to Princeton where the Engineers retired from the field on the short end of a 3-0 score. The booters next took a trip to Swarthmore and an undefeated Garnet team outscored Lehigh, 4-1.

Lehigh's soccer team is known as the scoreless wonders. In this picture it looks as though they might score. I wonder if they did? Your guess is as good as ours, but we say, NO!

Making their first home appearance the Engineers left the negative side of the tally sheet, but only climbed as far as the neutral area by virtue of a 2-2 tie with Syracuse. The tie was questionable as, in the last period, Kromer scored a goal which was not allowed. Following this near-victory the varsity suffered a relapse and lost to Penn, 2-0; a tight Red and Blue defense blocking all of Lehigh's scoring attempts. Four days later Lehigh's attack began to work and in so doing earned a 1-1 tie with Navy, Scott scoring in the final quarter.

Featuring a seasoned forward line, Haverford next turned the tables on Lehigh and scored a 3-1 victory. A week later the varsity took the field against Cornell and after 88 minutes of fast soccer the Engineers had their

third tie of the season, 1-1. The Stevens team then invaded Lehigh, and like Caesar, it came, it saw, and it conquered; by a score of 2-1.

For over a month the varsity booters were hunting for a "slice of bacon" and finally, while playing Lafayette, they found it and brought it home with a 2-1 victory.

(Low score wins)

LETTERMEN

Morgan C. Elmer, '40 Robert C. Parsons, '39
 George E. Hurst, '39 William E. Scott, '41
 John D. Wooters, '41

BACK ROW: Whiting, Histand, Kanaly, Whitmore, Caverly; FRONT ROW: Wooters, Scott, Hurst, Elmer, Parsons, Lennox.

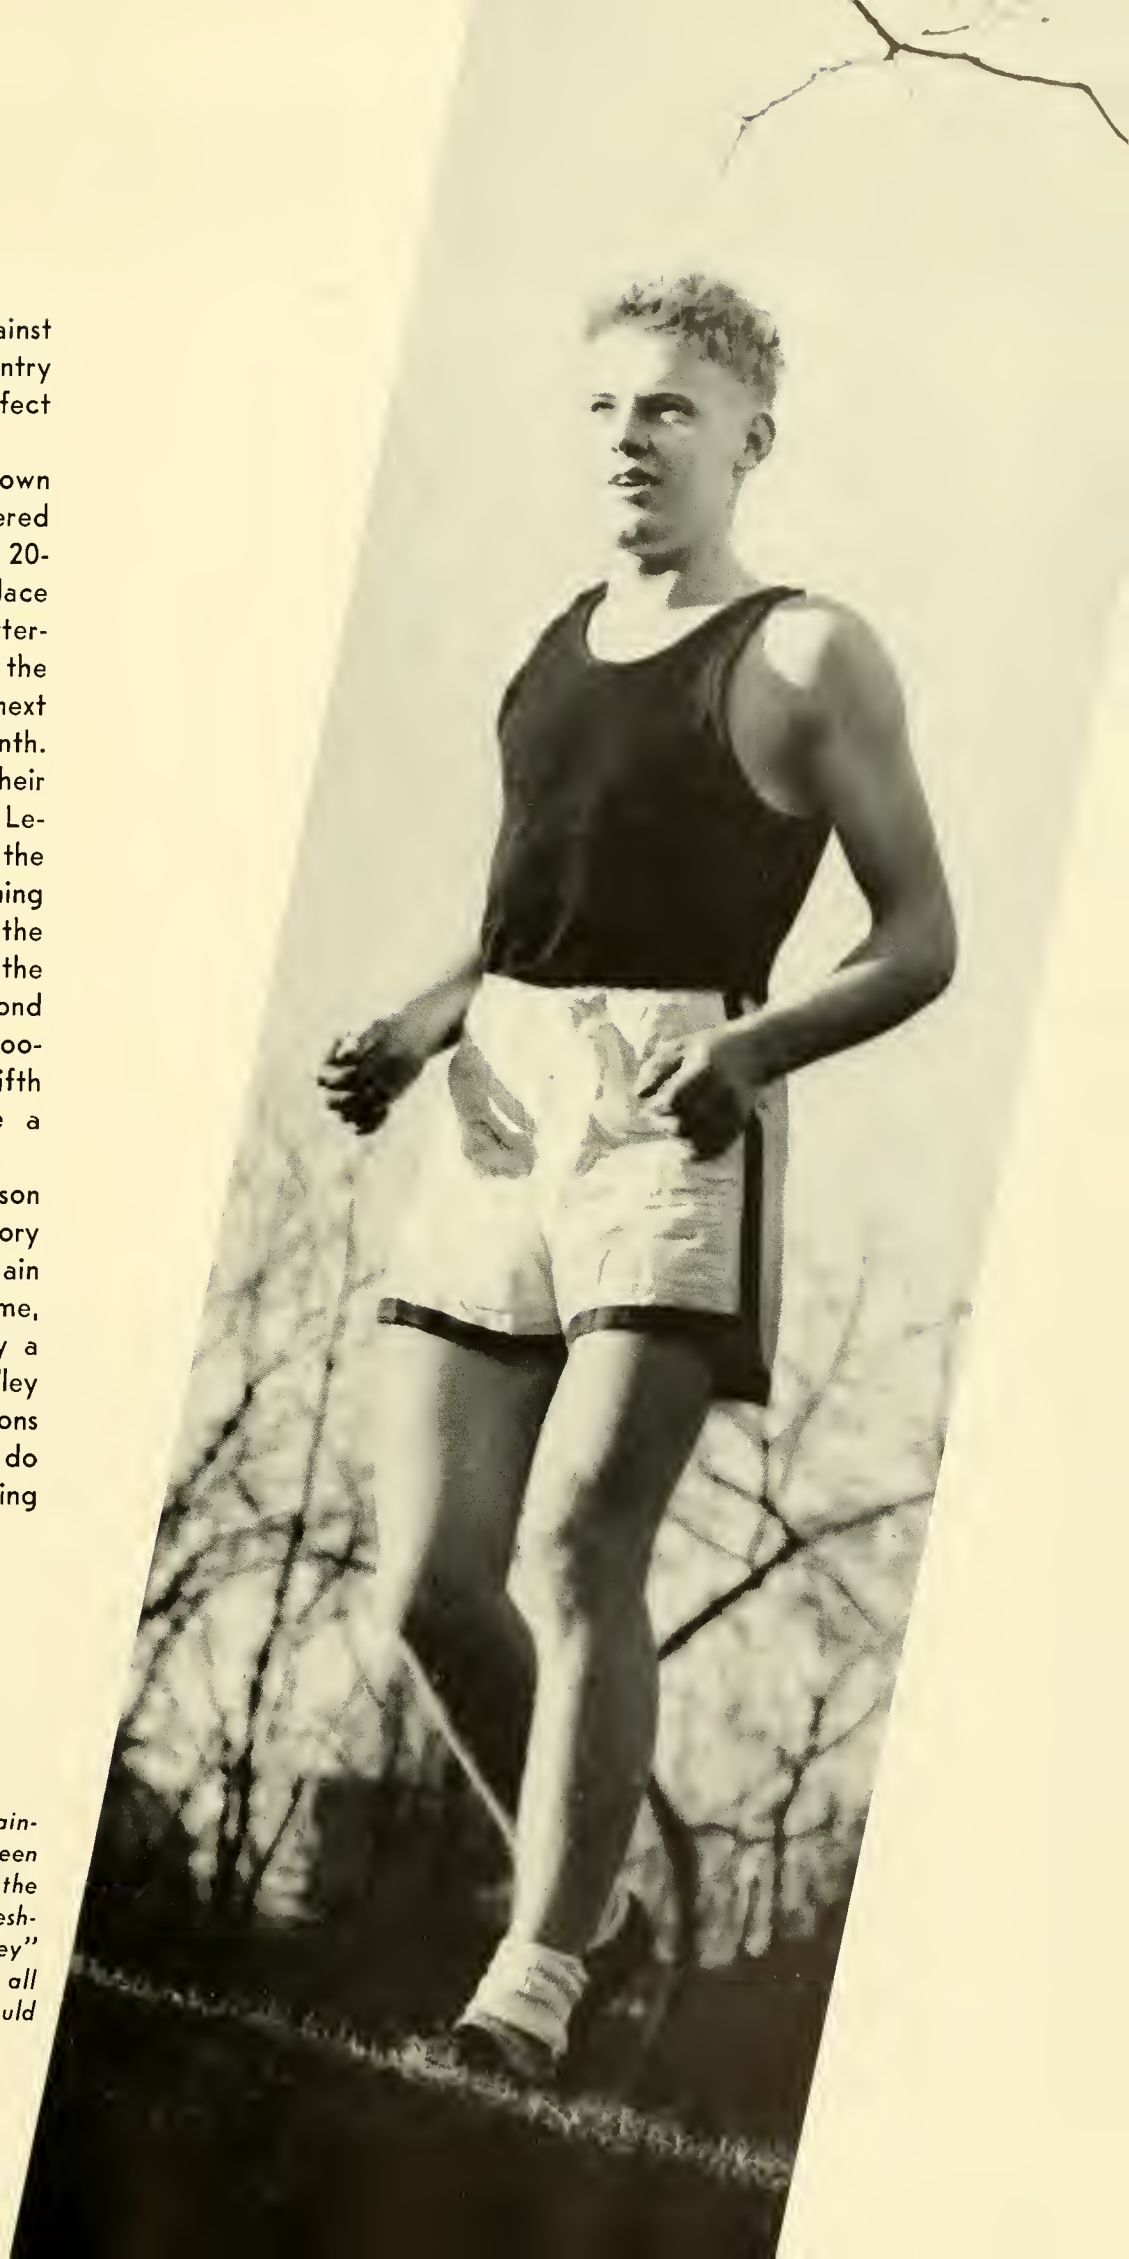

Running its first meet, against Penn State, the Lehigh cross-country team was swamped by the perfect score of 15-40.

The following weekend the Brown and White colors were again lowered when the Rutgers squad scored a 20-35 victory. The winning of first place by Elmer served to lessen the bitterness of the defeat handed out by the Scarlet runners. Hurst was the next Lehigh man to finish, placing seventh.

Two weeks later, splashing their way through a steady rain, the Lehigh "hill and dalers" defeated the Johns Hopkins team 18-37. Running over a four mile course, Elmer led the field home. Hurst nosed out the Medicos' captain to take second place by eight seconds. Scott, Wooters and Parsons finished fourth, fifth and sixth respectively to make a Lehigh victory certain.

In the final meet of the season Lafayette eked out a 27-28 victory over the Lehigh team. Elmer again finished first to post the best time, 26:44 minutes, ever recorded by a Lehigh man over the Saucon Valley course. Scott, Hurst and Parsons came in third, fifth and ninth to do the bulk of the rest of the scoring for the Engineers.

MORGAN "WHITEY" ELMER, captain-elect of the cross country team, has been Lehigh's only hope in cross country for the past decade. Placing fourth in the Freshman I. C. 4 A. meet his first year, "Whitey" has continued to show his heels to all comers. If Lehigh had six Elmers it would be the best team in the country. IF!

 George W. Woelful, '41

Lehigh finished fifth in the Eastern Intercollegiate Swimming Association with a total of 14 points.

TOP ROW: Harra, Wright, Gregg, Butler; THIRD ROW: Kornet, Campbell, Hood, Morrissey, Chamberlain, Fowell, Bernasco;
 SECOND ROW: Hess, O'Meara, Simpson, Adam, Palmer, Wells, Malinowski; BOTTOM ROW: Evans, Woelful, Scott, Knowland, Shelly.

The Lehigh swimming team, coached by "Pete" Morrissey, opened its 1939 season at Princeton with a strong Tiger team walking away with the meet by a score of 64-11. The New Jersey squad won 8 of the 9 events and took 9 seconds and 1 third. Captain Adam, a consistent winner all season, took Lehigh's only first when he splashed his way to victory in the 50-yard free style event. The next week-end the varsity lost to Penn, 60-15, the Quakers taking every event.

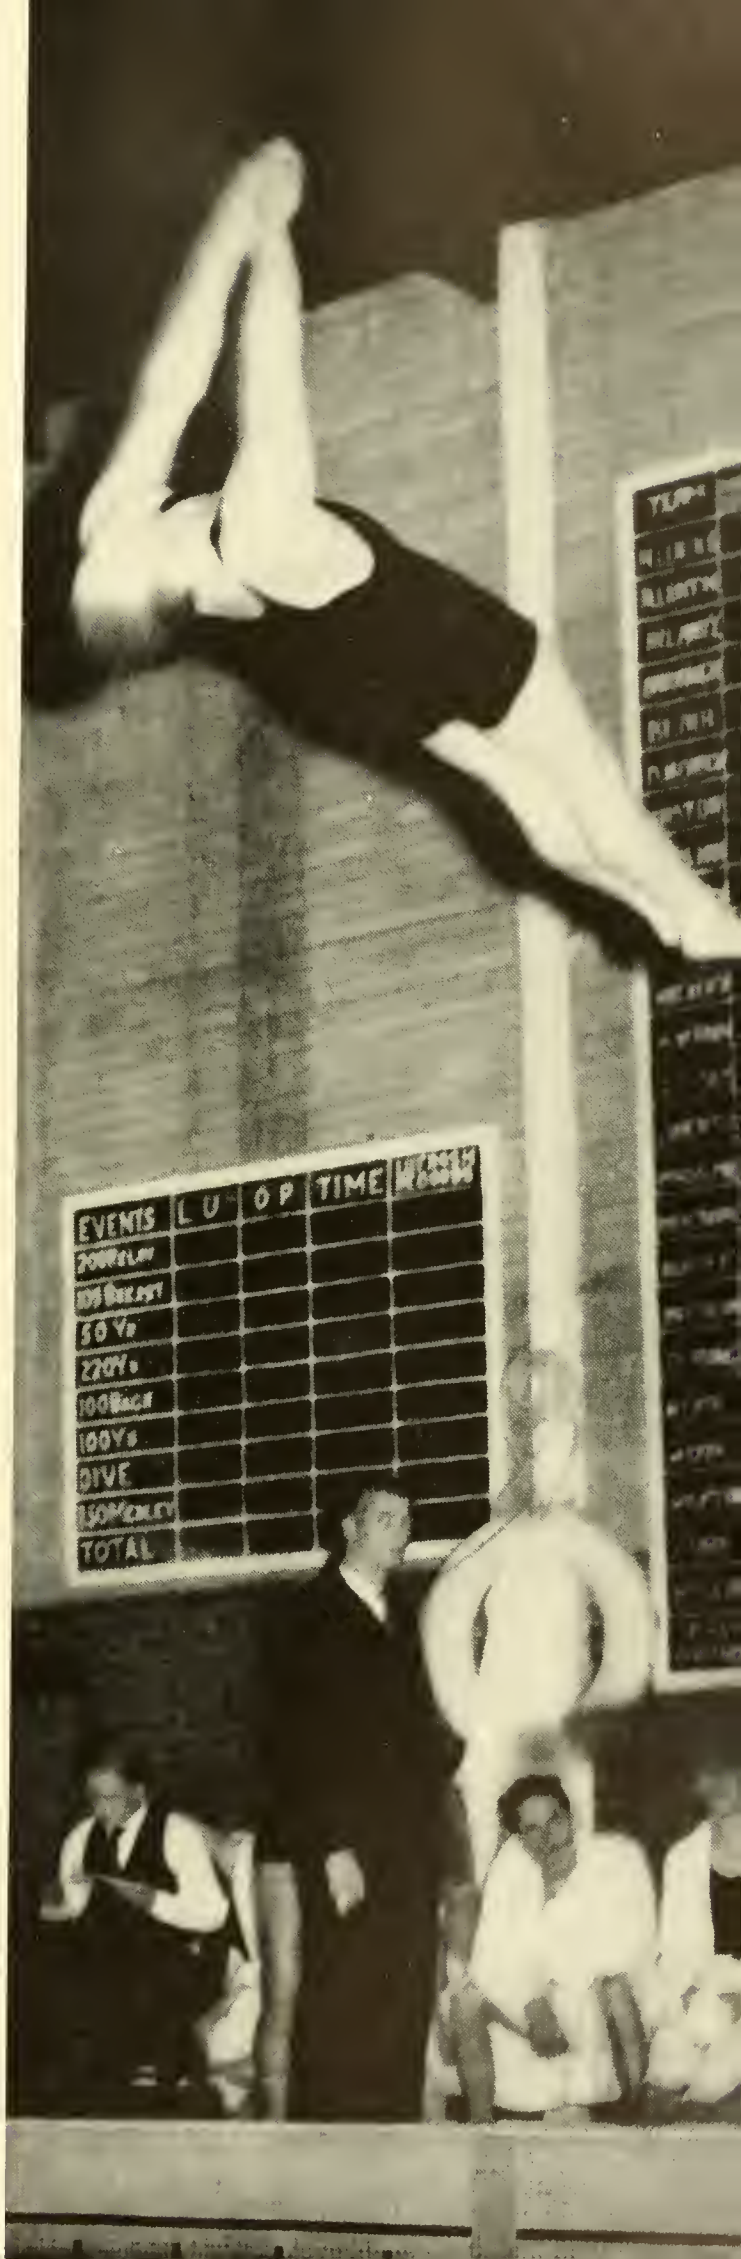

The Lehigh tankers lost for the third and last time when they were defeated by Rutgers, 40-30. Adam, however, set a new Eastern Intercollegiate record for the 50-yard free style with a time of 24 seconds. The swimmers then started a four meet winning streak by defeating Delaware, 39-36. Outstanding in this, the first victory of the season, were Adam, Simpson and Wells.

Continuing in the victory column the varsity "splashers" defeated the Johns Hopkins team, 59-16. Adam was high scorer with 10 points, winning first place in the 50 and 100-yard free style events. Other winners for the Brown and White were Scott, Shelly, Folwell and Woelful. Five days later the Engineers defeated their Easton foe, Lafayette, 45-30. Adam again scored in both of the sprints, with Woelful, Wells and Chamberlain also taking firsts.

The varsity closed the dual meet season at Swarthmore with its fourth consecutive victory, 55-20.

Lehigh came in fifth in the Eastern Intercollegiates, although Adam tied for first in the 50-yard and took second in the 100-yard free style events.

It is a dive so good and true, there is nothing for the scorers, but 10 points for you.

Charles F. Zell, '38

BACK ROW: Couch, Bartholomew, Grannatt, Creitz, Mercur; FRONT ROW: Gottlieb, Zell, Hilton, Stetson.

The Lehigh tennis team, coached by Fritz Mercur and captained by Herb Hilton, opened its 1938 season by defeating the Albright netters, 8—1. Right on the heels of this victory the Brown and White scored another over the Haverford courtmen, 7—2. The feature of this contest was a 30 game set which was finally won by Charles Zell.

Striving for its third win, the varsity traveled to Princeton. However, Lehigh was unable to keep the pace set by the Tiger team, and lost 9—0. Rebounding from this defeat, the Engineers beat Penn State, 6—3, and then continued in the victory parade by winning from Duke, 5—4. Lehigh's next opponent, Rutgers, also went down in defeat, 6—3. With a record of five wins and only one loss, the courtmen must have become a trifle over-confident, as they lost their next two tilts. Dartmouth and North Carolina each scored victories by the identical tally of 8—1.

The following week Lehigh got back in winning stride by beating Swarthmore, 5—4, and practically blasting Muhlenberg off the courts with a resounding 9—0 victory. In its next contest the Brown and White defeated Gettysburg, 8—1.

Here the courtmen were defeated as they tried to score a fourth successive victory. Dartmouth had ended a winning streak in the early part of the season, and the Penn team turned the tables this time, scoring a 6—3 victory.

Bringing their very successful season to a fitting climax against the Lafayette team, the Engineers trounced the Maroon, 7—2. This victory gave the tennis team a record of nine victories and only four losses.

GRANT B. STETSON, *captain 1939 tennis team, about to put the ball away.*

BACK ROW: Hartdegen, Ives, Hamill, Beer, Clark; FRONT ROW: Griffith, J. Bright, R. Bright, MacIndoe, Georgopulo.

F E N C I N G

Greatly handicapped by the lack of a coach, the Brown and White fencing team had a hard struggle last year to maintain a successful season. Nevertheless, they crashed through with second place in the Eastern Intercollegiates.

In spite of last year's victories, the team remains unsupported by the school in their efforts to obtain a coach. Realizing the futility of entering the Intercollegiates unprepared, the team obtained the services of Valentino Argento, an Olympic champion, at their own expense. We believe this noted coach should develop the large squad of interested fencers into a first class team.

The loss of the leadership of Bob Brown, this year's captain, was a serious setback to the fencers. However, with the election of Tom Hamill as the new captain, the team hopes to repeat last year's success.

Lehigh	10	Lehigh C. C.	2
Lehigh	6	Swarthmore	3
Lehigh	8	Lafayette	1
Lehigh	9	Dickinson	0

Despite the early Spring rains Lehigh opened its season with a 5½-3½ victory over F. & M. The linksmen then tied N. Y. U., 3-3. In the second match of the weekend, Lehigh lost a hard fought match to Wesleyan, 5-4.

Back on home fairways Lehigh defeated Delaware, 6-0, and then lost the next two matches, 7-2 to Penn, and 8½-½ to Williams.

The golfing season ended in a blaze of glory, however, when Lehigh took the remaining five matches. N. J. State Teachers' were defeated, 5-1, and then the local experts from the Lehigh Country Club were swamped, 10-2. Swarthmore went down under the swinging drivers, 6-3, and then the divot makers from Lafayette were defeated, 8-1. The final match ended in a 9-0 rout of Dickinson, thus completing the most successful season in many years.

G O L F

BACK ROW: Hubschmitt, Schwarz, Carringer, Hackney, Martin; FRONT ROW: Carpenter, Oskin.

With two years of experience behind it 1939 marks the first year that the Ice Hockey Club has gained sufficient recognition to appear in the Epitome.

The schedule has expanded from a single game with Lafayette in 1936 to four games this year. Lacking in practice the team lost its first game to Penn State 7-1. The next game was lost in an overtime period to a Princeton team 3-2. Lehigh came through against Lafayette, winning 4-2 at the Skytop Club, Skytop, Pa. The remaining game is to be played with the Philadelphia Phillies.

At the suggestion of the Hershey Sports Arena manager the club is taking part in the organization of an Eastern Pennsylvania Hockey League consisting of Lafayette, Penn State, University of Pennsylvania and Lehigh.

With the continued aid of Coach F. Smith and the enthusiasm and financial support of the members, the prospects for Lehigh's success in this league are very good.

Lehigh	9	W. Chester Tea.	2

Lacrosse has been dormant at Lehigh since 1934. In 1938, through the efforts of Chick Grant a schedule was arranged and the club began its season under the guidance of Major Barndollar; and later it was coached by our present coach, Mr. Ted Stankiewicz, of St. John's and Navy.

The club journeyed to Lexington, Va., to open its season against a well balanced Washington and Lee team and under unfavorable weather conditions suffered a 9 to 6 defeat. The second contest was played at Easton where the Engineers suffered another 8 to 5 setback at the hands of Lafayette. In a hotly fought contest, the Swarthmore J. V. nosed out a 5 to 4 win in the last minute of the second overtime period. The team finally hit its stride and won easily over West Chester Teachers in the final game of the season

Lehigh	1361	Drexel	1342
Lehigh	1387	Lafayette	1291
Lehigh	1382	Rutgers	1337
Maryland	1385	Lehigh	1374

The Brown and White marksmen opened their season with a 1374-1314 victory over the Philadelphia Marines. In a return match Lehigh was again victorious, this time 1378-1370. The Engineers then went to Fordham and won the match with their low score of the season, 1349-1307.

The first defeat of the season was at the hands of a strong Navy team, the Middies shooting a very creditable 1389 to top Lehigh's 1352. For their fourth win of the season the Engineers went to Drexel and came out on top, 1361-1342.

The riflemen maintained their record of never having lost to Lafayette by downing the Leopards with their highest score of the year, 1387-1291. Rutgers was the next victim, 1382-1337. Maryland then handed the marksmen their second defeat in the final match of the year, 1385-1374.

BATEMAN EDWARDS, Ph.D.
Head of the Department of Romance Languages
Professor of Romance Languages

WARREN WALTER EWING, B.S., M.S., Ph.D.
Professor of Physical Chemistry

ADELBERT FORD, A.B., A.M., Ph.D.
Head of the Department of Psychology
Professor of Psychology

LAWRENCE HENRY GIPSON, A.B., B.A. (Oxon.), Ph.D., F.R.Hist.S.
Head of the Department of History and Government
Professor of History and Government

ROBERT WILLIAM HALL, Ph.B., B.A., M.A., Ph.D.
Professor of Biology

PERCY HUGHES, A.B., A.M., Ph.D.
Clara H. Stewardson Professor of Philosophy

NELSON AUSTIN KELLOGG, A.B.
Director of the Division of Athletics and Physical Education

ARTHUR WARNER KLEIN, M.E.
Professor of Mechanical Engineering

FRED VIAL LARKIN, B.S., M.E.
Head of the Department of Mechanical and Industrial Engineering
Professor of Mechanical Engineering

HOWARD SEAVOY LEACH, A.B., M.A.
Librarian

JOSEPH STEPHENS LEONARD, B.S., Lt.Col., U.S.A.
Head of the Department of Military Science and Tactics
Professor of Military Science and Tactics

BENJAMIN LeROY MILLER, A.B., A.M., Ph.D.
Head of the Department of Geology
Professor of Geology

HARVEY ALEXANDER NEVILLE, A.B., A.M., Ph.D.
Head of the Department of Chemistry and Chemical Engineering
Professor of Chemistry and Chemical Engineering

JOHN HUTCHESON OGBURN, C.E.
Professor of Mathematics and Astronomy

PHILIP MASON PALMER, A.B.
Dean of the College of Arts and Science
Head of the Department of German
Professor of German

HOWARD ROLAND REITER, B.A., M.A.
Professor of Physical Education

JOSEPH BENSON REYNOLDS, B.A., M.A., Ph.D.
Professor of Mathematics and Theoretical Mechanics

STANLEY SYLVESTER SEYFERT, E.E., M.S., Sc.D.
Head of the Department of Electrical Engineering
Professor of Electrical Engineering

THOMAS EDGAR SHIELDS, Mus.D., A.A.G.O.
Head of the Department of Music
Professor of Music

LLOYD LeROY SMAIL, A.B., A.M., Ph.D.
Professor of Mathematics

EARL KENNETH SMILEY, A.B., M.A.
Director of Admissions

ROBERT METCALF SMITH, A.B., A.M., Ph.D.
Head of the Department of English
Professor of English

MILTON CALEB STUART, B.S. in M.E., M.E.
Professor of Experimental Mechanical Engineering

BRADLEY STOUGHTON, Ph.D., B.S.
Dean of the College of Engineering
Head of the Department of Metallurgy
Professor of Metallurgy

HALE SUTHERLAND, A.B., S.B.
Head of the Department of Civil Engineering
Professor of Civil Engineering
Director of Fritz Laboratory

EDWIN RAYMOND THEIS, Ch.E., Ph.D.
Professor of Chemical Engineering

HAROLD PRESCOTT THOMAS, B.S., Ed.M., Ed.D.
Head of the Department of Education
Professor of Education

STANLEY JUDSON THOMAS, B.S., M.S., M.A., Ph.D.
Head of the Department of Biology

HORACE WETHERILL WRIGHT, A.B., Ph.D.
Head of the Department of Latin
Professor of Latin

Acknowledgments

We, the 1939 Epitome staff, wish to express our appreciation and thanks to the following for their untiring efforts in making this book a reality:

Mr. Charles C. Johnson of the Horan Engraving Company.

Mr. David McCaa of the McCaa Photographic Studio.

Mr. Norman W. Allis of the David J. Molloy Plant.

Mr. Nicholas A. Ickes, Jr., of the Colyer Printing Company.

Mr. Kenneth K. Kost, faculty advisor of the 1939 Epitome.

Mr. Edward Decker for the art work contained herein.

Mr. Eugene M. Ettenberg for the typographic assistance.

Mr. Jack Sherman for the page layout assistance.

Mr. John Stegmayer for the page layout assistance.

Mr. Eugene G. Grace for his Happy Days letter.

Mr. Floyd W. Parsons for his Happy Days letter.

Mr. Archibald Johnston for his Happy Days letter.

Mr. Vincent J. Pazzetti for his Happy Days letter.

ASSOCIATE PROFESSORS

HAROLD VICTOR ANDERSON, B.Ch.E., M.S.
Associate Professor of Chemistry

SYLVANUS A. BECKER, C.E., M.S.
Associate Professor of Civil Engineering

WARD LESLIE BISHOP, A.B., A.M., Ph.D.
Associate Professor of Economics

ELMER CLARK BRATT, A.B., A.M., Ph.D.
Associate Professor of Economics

PRESTON BANKS CARWILE, A.B., M.A., Ph.D.
Associate Professor of Physics

JOHN ROBERT CONNELLY, B.S. in M.E., M.S., M.A.
Associate Professor of Mechanical Engineering

EARL LeVERNE CRUM, A.B., A.M., Ph.D.
Acting Head of the Department of Greek
Associate Professor of Classical Languages

AMOS ASCHBACH ETTINGER, A.B., A.M., D.Phil. (Oxon.), Litt.D.
Associate Professor of History

AUGUSTUS HENRY FRETZ, Ph.D., C.E., M.S.
Associate Professor of Geology

MERTON OTIS FULLER, C.E., M.S.
Associate Professor of Civil Engineering

JAMES LARMOUR GRAHAM, B.A., B.D., M.A., Ph.D.
Associate Professor of Psychology

DALE HARTZLER GRAMLEY, A.B., M.S.
Associate Professor of Journalism
University News Editor

ALBERT HARING, A.B., M.A., Ph.D.
Associate Professor of Economics

GEORGE DEWEY HARMON, B.A., M.A., Ph.D.
Associate Professor of American History

NELSON SHERK HIBSHMAN, B.S., M.S.
Associate Professor of Electrical Engineering

GARTH AHYMAN HOWLAND, B.A., M.A.
Head of the Department of Fine Arts
Associate Professor of the Fine Arts

BURGESS HILL JENNINGS, B.Eng., M.S., M.A.
Associate Professor of Mechanical Engineering

CYRIL DEWEY JENSEN, B.S. in C.E., M.S., C.E.
Associate Professor of Civil Engineering

THEODORE THOMAS LAFFERTY, A.B., M.A., Ph.D.
MacFarlane Associate Professor of Philosophy
Associate Professor of Education

KENNETH WORCESTER LAMSON, A.B., Ph.D.
Associate Professor of Mathematics

CHARLES ROZIER LARKIN, B.A., M.A., Ph.D.
Associate Professor of Physics

ALEXANDER WALKER LUCE, B.S., M.E.
Associate Professor of Machine Design

ARCHIE ROSCOE MILLER, B.S., M.S.
Associate Professor of Electrical Engineering

ROBERT PATTISON MORE, B.A., M.A.
Associate Professor of German
Executive Secretary of the Graduate Faculty

MAX PETERSEN, B.S., M.A., Ph.D.
Associate Professor of Physics

GEORGE EMIL RAYNOR, B.S., M.A., Ph.D.
Associate Professor of Mathematics

EDGAR HEISLER RILEY, A.B., Ph.D.
Associate Professor of English

ERNST BERNHARD SCHULZ, B.S., M.A., Ph.D.
Associate Professor of Government

JONATHAN BURKE SEVER, A.B., A.M., Ph.D.
Associate Professor of English

CLARENCE ALBERT SHOOK, A.B., A.M., Ph.D.
Associate Professor of Mathematics

CHARLES WELLINGTON SIMMONS, B.Sc., M.S.
Associate Professor of Chemical Engineering

ERIC SPENCER SINKINSON, B.Sc., D.I.C., F.C.S.
Associate Professor of Ore Dressing and Fuel Technology

ASSISTANT PROFESSORS

FREDERICK WILLIAM ADAMS, C.E., Major, Inf., U.S.A.
Assistant Professor of Military Science and Tactics

CARL ELMER ALLEN, B.S., M.S., Ph.D.
Assistant Professor of Accounting

REGINALD REUBEN BACON, B.S., Major, Inf., U.S.A.
Assistant Professor of Military Science and Tactics

FAY CONANT BARTLETT
Assistant Professor of Physical Education
Director of Intramural Sports

FRANK SWAN BEALE, B.S., M.S., Ph.D.
Assistant Professor of Mathematics

GEORGE CARLTON BECK, A.C.
Assistant Professor of Quantitative Analysis

FRANK CHESTER BECKER, A.B.
Chairman of the Department of Philosophy
Assistant Professor of Philosophy

CHARLES EDWARD BERGER, B.S., Ph.D.
Assistant Professor of Physics

ROBERT DOMINICK BILLINGER, Ch.E., M.S., Ph.D.
Assistant Professor of Chemistry

ADRIAN ROBERT BRIAN, B.A., Major, U.S.A.
Assistant Professor of Military Science and Tactics

CARTER COLLINS, A.B., Major, Inf., U.S.A.
Assistant Professor of Military Science and Tactics

WILLIAM JOSEPH ENEY, B.S. in C.E., M.S.
Assistant Professor of Civil Engineering

MAURICE EWING, B.A., M.A., Ph.D.
Assistant Professor of Physics

WILLIAM HARRY FORMHALS, B.S. in E.E., M.S.
Assistant Professor of Electrical Engineering

DONALD McCOY FRASER, A.B., A.M., Ph.D.
Assistant Professor of Geology

AUSTIN ROGERS FREY, S.B., M.A., Ph.D.
Assistant Professor of Physics

THEODORE CHRISTIAN GERBER, B.S. in C.E., Major, Ord., U. S. A.
Assistant Professor of Military Science and Tactics

HOWARD DIETRICH GRUBER, E.E., M.S.
Assistant Professor of Electrical Engineering

EARL ROSCOE HALL, B.S., M.A.
Assistant Professor of Education

GLEN WALTER HARMESON, B.S.
Assistant Professor of Physical Education

THOMAS HUGER HAZLEHURST, A.B., Ph.D.
Assistant Professor of Chemistry

BRUCE GILBERT JOHNSTON, B.S. in C.E., M.S., Ph.D.
Assistant Professor of Civil Engineering
Assistant Director of Fritz Laboratory

FRIEDRICH OTTO KEGEL, A.M.
Assistant Professor of German

HENRY CARL IVAR KNUTSON, E.E., M.E.E.
Assistant Professor of Electrical Engineering

VORIS V. LATSHAW, B.A., A.M., Ph.D.
Assistant Professor of Mathematics

DERRICK HENRY LEHMER, A.B., Ph.D.
Assistant Professor of Mathematics

ROBERT WALLACE MAYER, B.S., M.S., Ph.D.
Assistant Professor of Economics

WILLIAM COFFMAN McDERMOTT, A.B., M.A., Ph.D.
Assistant Professor of Latin

HARRY GORDON PAYROW, B.S. in C.E.
Assistant Professor of Sanitary Engineering

CHARLES AUGUSTUS SEIDLE, B.A., M.A.
Assistant Director of Admissions

EUGENE HULSE SLOANE, B.A., M.A., Ph.D.
Assistant Professor of English

JUDSON GRAY SMULL, B.S., M.S.
Assistant Professor of Chemistry

BENJAMIN LICHTY SNAVELY, B.S. in Eng. Phys., Ph.D.
Assistant Professor of Physics

RAFAEL ARCANGEL SOTO, B.S., B.A., M.A.
Assistant Professor of Romance Languages

EUGENE HENRY UHLER, C.E.
Assistant Professor of Civil Engineering

LAWRENCE WHITCOMB, A.M., Ph.D.
Assistant Professor of Geology

RAYMOND HARRY WHITE, B.S. in Ed., A.M., Ed.D.
Assistant Professor of Education

LEHIGH UNIVERSITY

Lehigh University is non-sectarian and has adhered to high standards in "the education of youth" from the beginning. Its alumni have been markedly successful in nearly all walks of life, and particularly in the industrial and professional world. Lehigh is fortunate in the picturesque beauty of its situation on the "breast of old South Mountain" and in its central location with respect to centers of population (50 miles from Philadelphia, 90 miles from New York) and of industry (steel, cement, coal, silk and manufactures). Its graduates, therefore, are advantageously circumstanced in finding positions. Living expenses at Lehigh are reasonable, and with two other colleges in the city, Bethlehem affords a good educational environment.

COLLEGE OF ARTS AND SCIENCE

The College of Arts and Science, while maintaining courses in languages and the humanities which constitute the traditional cultural arts college, at the same time, offers optional groupings which lead to professional and graduate schools and to vocations, such as

<i>Actuarial Practice</i>	<i>Government Service</i>
<i>Bacteriological Investigations and Controls</i>	<i>Journalism</i>
<i>Economic Geology</i>	<i>Optics</i>
<i>Education</i>	<i>Personnel Psychology</i>

Graduates have achieved distinction in the country's leading schools of Law, Dentistry and Medicine.

COLLEGE OF BUSINESS ADMINISTRATION

The developments of the past century have made the business organization and the economic structures of the country of paramount importance. The College of Business Administration at Lehigh has attained wide recognition for its teachings and writings in this field. The undergraduate courses offered in this college lead to careers in such fields as

<i>Mercantile Establishments</i>	<i>Public Utilities</i>
<i>Banking</i>	<i>Business Statistics</i>
<i>Investment Banking</i>	<i>Investment Houses</i>
<i>Accounting</i>	<i>Marketing</i>

COLLEGE OF ENGINEERING

The laboratories and other facilities for engineering education provide for thoroughly scientific professional training in the various branches of engineering and technology. Separate curricula are offered in

<i>Chemistry</i>	<i>Industrial Engineering</i>
<i>Chemical Engineering</i>	<i>Mechanical Engineering</i>
<i>Civil Engineering</i>	<i>Metallurgical Engineering</i>
<i>Electrical Engineering</i>	<i>Mining Engineering</i>
<i>Physics and Engineering Physics</i>	

GRADUATE SCHOOL

Graduate study leading to the master's degree is offered in most departments of the University, and for the Ph.D. in chemistry, geology, history, mathematics, mechanical engineering, metallurgical engineering, physics, and structural engineering.

TOWN COUNCIL

Just before the Epitome went to press, the off-campus, non-fraternity men were successful in an endeavor that previously had met with innumerable failures—the organization of a governing body comparable to the interfraternity and interdormitory councils. The new organization was named the Town Council and its first officers were: Henry T. Shick Heckman, President; Milton Spilberg, Vice-President; Norman L. Morse, Secretary; and Thomas E. Ricketts, Treasurer.

Asa Packer mural by George Gray in the Pioneer Tap Room

Asa Packer, founder of Lehigh University and transportation pioneer, is depicted in the above mural visualizing the growth of Lehigh University which today stands as a monument to the ideals of a one time lowly breakerboy and canal boatman.

LEHIGH SUMMER SESSION

The Lehigh University Summer Session, which was inaugurated 40 years ago with a handful of students and a small faculty, is expected to attract more than 600 students in 1939. A faculty of 50 will offer 88 courses in the three colleges and in the Graduate School of the University.

The Summer Session is a part of the regular educational program of the University and is designed to serve six groups; (1) Matriculated students who desire to make up deficiencies or to secure advanced credit; (2) Engineering students who must pursue certain courses that are not available during the regular term; (3) Students of other colleges who wish to secure credits; (4) High school graduates who are qualified to matriculate; (5) Teachers who wish to obtain advanced degrees or to take specialized work; (6) Adults who are not candidates for degrees but who wish to take certain courses.

The Summer Session courses in recent years have been increased in number and broadened in content to meet the needs of teachers.

All courses except the one in land and topographic surveying, which is given during June at Canadensis in the Poconos, are given on the campus. Women students are admitted for both undergraduate and graduate work. One of the men's fraternity houses on the campus is made available as living quarters for the women. Men live in the dormitories.

To take the place of the broad program of extra-curricular activities which the University sponsors during the regular term, a program of recreation and activities has been arranged for the summer. Included are plays by the Top o' the Mountain Theatre group, a weekly tabloid student newspaper, a dance, a bridge tournament, Sunday afternoon music vespers, evening lectures, golf and tennis tournaments, a water carnival, a picnic for graduate students, hikes and inspection trips. The swimming pool in Taylor gymnasium, the University tennis courts and other exercise facilities are available.

BETWEEN CLASSES IN FRONT OF CHRISTMAS-SALCON HALL THE WEEKLY SUMMER SESSION BROWN AND WHITE IS THE THING OF INTEREST

THE GOLFING FACILITIES NEAR EETHLEHEM ATTRACT MANY STUDENTS. A SUMMER SESSION TOURNAMENT FOR THE W. R. OKESON TROPHY IS HELD ANNUALLY

ABOVE: A CLASS IN GERMAN TAKES TAKES TO THE OUTDOORS ON A HOT MORNING.
BELOW: A GROUP OF GRADUATE STUDENTS, WITH A PROFESSOR AT EACH END, COOLS OFF AT THE ANNUAL PICNIC

LEHIGH ALLENTOWN CLUB

The Lehigh Allentown Club, organized in 1935, is composed of students living in Allentown and vicinity. Monthly meetings are held during the school year. The main purpose of the club is to overcome

the difficulties of the commuting student. Through this organization, the Allentown group is unified; the Lehigh spirit, developed; interest in college activities, promoted; and campus representation, secured.

DE MOLAY CLUB

The DeMolay Club, which is open to all past or present members of DeMolay, was founded on November 3, 1938 to bring together brothers from different chapters to exchange ideas of a fraternal nature in order to get a better understanding of the principles upon which DeMolay was founded, to maintain an interest in the order, to participate in

activities of DeMolay, and to form a social body composed of a select group. There is an active installation team which has made visitations to various chapters in this section to install their officers.

For the future, plans have been made to form a complete degree team with which the club wishes to make their own interpretations of DeMolay work.

COMPLETE PRINTING & ADVERTISING SERVICE

Distinctive printing, like all other processes of distinction, requires a coordination of skills, artistry, and business service. Complete modern equipment, trained craftsmen, and creative planning have placed Colyer Printing Company in the front rank for maintaining the best printing services in fine typography, artistic layout, perfect reproduction, accurate color work and dependable production and delivery schedules.
